Yu,2008-06-02 Part of the Frontiers in Economics Globalization series this book deals with a range of trade and development issues in terms of the general equilibrium structure It shows how neo classical models of trade theory can be used to highlight many challenging global problems **Companion to Public Space** Vikas Mehta,Danilo Palazzo,2020-05-13 The Companion to Public Space draws together an outstanding multidisciplinary collection of specially commissioned chapters that offer the state of the art in the intellectual discourse scholarship research and principles of understanding in the construction of public space Thematically the volume crosses disciplinary boundaries and traverses territories to address the philosophical political legal planning design and management issues in the social construction of public space The Companion uniquely assembles important voices from diverse fields of philosophy political science geography anthropology sociology urban design and planning architecture art and many more under one cover It addresses the complete ecology of the topic to expose the interrelated issues challenges and opportunities of public space in the twenty first century The book is primarily intended for scholars and graduate students for whom it will provide an invaluable and up to date guide to current thinking across the range of disciplines that converge in the study of public space The Companion will also be of use to practitioners and public officials who deal with the planning design and management of public spaces **Library of Congress Catalogs** Library of Congress,1976 **The National union catalog, 1968-1972** ,1973 **Gated Communities in China** Choon-Piew Pow,2009-09-11 Moving beyond conventional accounts of gated communities and housing segregation this book interrogates the moral politics of urban place making in China s commodity housing enclaves Drawing on fieldwork and survey conducted in Shanghai Pow critically demonstrates how gated communities are bound up in the cultural reproduction of middle class landscape that is entrenched in the politics of the good life defined in terms of a highly segregated landscape secured and maintained through the territorialisation of privilege lifestyle and private property The study challenges the concept of gated communities as simply spatial containers of social classes and argues that Shanghai s gated enclaves may be more fruitfully analyzed as critical sites of and for the production and consumption of an exclusive lifestyle where nascent middle class sensibilities and identities are being re

presented cultivated and lived In the final analysis the book addresses an overarching normative concern by examining how social spatial differentiation and exclusion in Shanghai s gated communities potentially disrupt challenge and unsettle the modern ideals of urban life By adopting a geographical moral perspective this book illuminates the moral complexities and ambiguities of place making in Shanghai s increasingly polarized urban landscape As the first book length academic study on gated communities in China this book will appeal broadly to those with interests in Urban studies and urban social development in China

CONTEMPORARY DEBATES IN PUBLIC ADMINISTRATION ALKA DHAMEJA, 2003-01-01 Public administration is reeling under complex challenges and pressures in the face of the changing trends in liberalization privatization and globalization As a pertinent area of social sciences it is in search of a new identity in the form of theoretical bases conceptual clarity and contextual applicability The development of the discipline is characterized by failed semi developed and recycled narratives which are unable to provide any well defined epistemological parameters Whatever one finds in the form of conceptual and applied growth in public administration especially pertaining to the Third World appears to be borrowed imitated and implemented out of context The discipline of public administration must therefore reinvent itself in the wake of new developments in the areas of theory building organizational reforms information technology participatory development corporate ethics humane governance responsive administration non state organizations and administrative capability This book makes an attempt to grapple with some of these contemporary concerns in order to generate a debate on the impact of globalization on public administration A collection of diverse topics that address various facets of public administration the overall thrust is on developing indigenous approaches for meeting the growing demands of the changing scenario The wide range of issues covered in the volume makes for a comprehensive view of the various perceptions within the discipline of public administration The book will be of immense use to students academicians researchers policy makers and practitioners in public administration

Corporate Ownership and Control Shalini Perera, 2011 The governance of companies is of importance to developing countries due to the link between effective corporate governance and economic development Ownership and control of public companies except in the US and UK is often in the hands of a few individuals families or corporate groups and impact on corporate governance and economic development Using Sri Lanka as an illustrative example *Corporate Ownership and Control* sets out the implications of corporate ownership and control structures on the governance of companies and suggests a reform agenda to meet the challenges posed by such structures Any analysis into the reform of corporate governance in developing countries should begin with a focus on the local market structures that define its adaptation and effectiveness The issues explored in the book provide an insight into ownership and control structures in Sri Lanka the costs and benefits of such structures and the necessary reform framework to promote effective corporate governance The analysis can be used to both understand the impact of ownership structures on corporate governance and suggest how corporate governance issues arising from such structures should be resolved in order to promote economic development and growth
