derived from a single herb and was an important element among the natural resources of the parish pump witch wise women and cunning folk. Simples are common kitchen stuff that have been handed down through generations of country people in the form of family cures for everyday ailments. Or as William Fernie wrote in his *Herbal Simples* 1897: The art of Simpling is as old with us as our British hills. It aims at curing common ailments with simple remedies culled from the soil or got from home resources near at hand. These were no fancy recipes with magical formulae and often given as a tisane the woman of the household was able to use the remedies to treat common ailments suffered by her family. And this elementary form of domestic plant medicine can be as simple as a cup of chamomile tea made from flowers picked fresh from our own garden to aid sleep. This was the most elementary way to use medicinal plants since no fancy recipes or scientific acumen was needed. But this element of traditional witchcraft has long been in the shadows.

**Charge and the Energy Body** Anodea Judith, Ph.D., 2018-04-10 Use the power of life force to live your highest potential with this landmark book that addresses the role of the chakras in personality and our intimate relationships and opens the door to the inner experience of the authentic self. Peter Levine author of *Waking the Tiger*. We all know what it's like to have a charge about something. It's a feeling of excitement, fear, sexual arousal or irritation. But what we don't currently know is how to use charge for the behaviors we want to create. Charge is a word for the basic life force running through us. This force is crucial if we are to meet the challenges of difficult situations, heal past wounds and traumas and manage the stress of modern life. Even more, it is essential for understanding how to master your own life force and become all you can be. This book makes an important contribution to the growing field of Energy Medicine by looking at charge as the interface between mind and body and the missing ingredient in Mind Body healing. It brings the reader into a deep intimacy with their own life force as well as an understanding of how charge runs their relationships, their children, their clients and patients. It examines how we can become overcharged or undercharged and how to bring about balance through practices of charging and discharging. Each chapter gives simple exercises to put these principles into practice. World renowned teacher, somatic therapist, best selling author and advanced yoga teacher Anodea Judith Ph.D. addresses all this and more in her groundbreaking book on mastering the life force. Taken from her decades of teaching on the subject and her doctoral work in Mind Body medicine, this book contributes something entirely new to the literature on healing self and others.
