in the thrall of the Industrial Age With railroads scarring virgin lands and the formerly vast buffalo herds decimated the country faced a crossroads Could it pursue Manifest Destiny without destroying its natural bounty and beauty The alarm that Grinnell sounded would spark America's conservation movement Yet today his name has been forgotten an omission that John Taliaferro's commanding biography now sets right with historical care and narrative flair Grinnell was born in Brooklyn in 1849 and grew up on the estate of ornithologist John James Audubon Upon graduation from Yale he dug for dinosaurs on the Great Plains with eminent paleontologist Othniel C Marsh an expedition that fanned his romantic notion of wilderness and taught him a graphic lesson in evolution and extinction Soon he joined George A Custer in the Black Hills helped to map Yellowstone and scaled the peaks and glaciers that through his labors would become Glacier National Park Along the way he became one of America's most respected ethnologists seasons spent among the Plains Indians produced numerous articles and books including his tour de force *The Cheyenne Indians Their History and Ways of Life* More than a chronicler of natural history and indigenous culture Grinnell became their tenacious advocate He turned the sportsmen's journal *Forest and Stream* into a bully pulpit for wildlife protection forest reserves and national parks In 1886 his distress over the loss of bird species prompted him to found the first Audubon Society Next he and Theodore Roosevelt founded the Boone and Crockett Club to promote fair chase of big game His influence among the rich and the patrician provided leverage for the first federal legislation to protect migratory birds a precedent that ultimately paved the way for the Endangered Species Act And in an era when too many white Americans regarded Native Americans as backwards Grinnell's cries for reform carried from the reservation through the halls of Congress all the way to the White House Drawing on forty thousand pages of Grinnell's correspondence and dozens of his diaries Taliaferro reveals a man whose deeds and high mindedness earned him a lustrous peerage from presidents to chiefs Audubon to Aldo Leopold John Muir to Gifford Pinchot Edward S Curtis to Edward H Harriman Throughout his long life Grinnell was bound by family and sustained by intimate friendships toggling between the East and the West As Taliaferro's enthralling portrait demonstrates it was this tension that wound Grinnell's nearly inexhaustible spring and honed his vision a vision that still guides the imperiled future of our national treasures *Saving America's Wildlife* Thomas R. Dunlap, 2021-02-09 Through an account of evolving ideas about wolves and coyotes Thomas Dunlap shows how American attitudes toward animals have changed *American Fruit Grower*, 1911 *The 'Real' Wild West* Phillip J.
