Rift And Revolution:

Urban Guerrilla Warfare Anthony James Joes, 2007-04-20 Guerrilla insurgencies continue to rage across the globe fueled by ethnic and religious conflict and the easy availability of weapons At the same time urban population centers in both industrialized and developing nations attract ever increasing numbers of people outstripping rural growth rates worldwide As a consequence of this population shift from the countryside to the cities guerrilla conflict in urban areas similar to the violent response to U S occupation in Iraq will become more frequent Urban Guerrilla Warfare traces the diverse origins of urban conflicts and identifies similarities and differences in the methods of counterinsurgent forces In this wide ranging and richly detailed comparative analysis Anthony James Joes examines eight key examples of urban guerrilla conflict spanning half a century and four continents Warsaw in 1944 Budapest in 1956 Algiers in 1957 Montevideo and S o Paulo in the 1960s Saigon in 1968 Northern Ireland from 1970 to 1998 and Grozny from 1994 to 1996 Joes demonstrates that urban insurgents violate certain fundamental principles of guerrilla warfare as set forth by renowned military strategists such as Carl von Clausewitz and Mao Tse tung Urban guerrillas operate in finite areas leaving themselves vulnerable to encirclement and ultimate defeat They also tend to abandon the goal of establishing a secure base or a cross border sanctuary making precarious combat even riskier Typically urban guerrillas do not solely target soldiers and police they often attack civilians in an effort to frighten and disorient the local population and discredit the regime Thus urban guerrilla warfare becomes difficult to distinguish from simple terrorism Joes argues persuasively against committing U S troops in urban counterinsurgencies but also offers cogent recommendations for the successful conduct of such operations where they must be undertaken

Violence and Social Transformation in Libya Virginie Collombier,Wolfram Lacher,2023 The definitive interdisciplinary volume on Libyan society s transformations over a decade of conflict and insecurity **The Ecological Crisis and the Logic of Capital** Xueming Chen,2017-09-11 The worsening environmental crisis has become a serious threat to mankind The search for a solution to this crisis must begin by understanding its causes Taking an eco socialist perspective The Ecological Crisis and the Logic of Capital explores the logic of capitalism as a fundamental cause of today s environmental crisis in particular the thirst for profit and the capitalist mode of production By demonstrating the inherent antagonism between capital and ecology this book argues that proposals to resolve the crisis within the capitalist system are utopian that proposed remedies relying on scientific progress alternative energies low carbon technologies or the introduction of ecological ethics and new attitudes toward Nature into market mechanisms are doomed to failure without a radical overhaul of the principles that govern capitalism

Democracy Promotion and the 'Colour Revolutions' Susan Stewart,2013-09-13 This book reviews the interplay between domestic contexts and democracy promotion efforts in selected countries of the former Soviet Union and the Western Balkans The idea behind the six case studies is twofold In the three cases where colour revolutions occurred Serbia

Georgia Ukraine the authors explore the extent to which external democracy promoters adapted their strategies to respond to new domestic contexts In the other three cases Azerbaijan Belarus Russia the authors investigate how the political leadership has reacted to colour revolutions elsewhere and which consequences their reactions have had for democracy promotion In all cases an assessment of democratization processes in the country is provided as a basis for drawing conclusions about the potential for domestic and foreign actors to promote democratic development An introduction and conclusion embed the case studies in the existing literature on democracy promotion and generalize the findings across the countries studied On the practical level the volume offers suggestions for improving democracy promotion endeavours proposing in particular a more balanced approach which goes beyond supporting specific individuals and organizations to include addressing the structural level This book was published as a special issue of Democratization *The Atlantic Monthly*, 1929

Ekiert, 1996-09-30 Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes were considered to be politically stable due to their pervasive institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse **Major Events of**
