

Rift and Revolt in Hungary is "a notable book," says Robert R. Bowie, Director of the Harvard Center for International Affairs, in his foreword to the volume. "Comprehensive, analytical, and lively, it brings new insights to the turbulent events in Hungary since World War II even to an informed reader who followed those events closely as they took place. Its author is peculiarly qualified to write such a volume: international lawyer and political scientist, professor and public servant, he experienced Communist rule in Hungary from the inside. Arrested by the Hungarian Security Police, interrogated according to the usual methods, condemned for conspiracy and high treason, he spent five years of his life in Budapest prisons."

Rift And Revolt In Hungary:

Rift and Revolt in Hungary Ferenc Albert Váli, 1961 Study of post World War Hungarian history Transitions and Non-Transitions from Communism Steven Saxonberg, 2013-02-14 A unique comparative study examining why some communist regimes remain in power whilst others have fallen **Imre Nagy** János M. Rainer, 2009-08-30 After nearly three decades of dutiful service to the Communist Party Imre Nagy led the popular uprising against the Soviet authorities during the 1956 Hungarian Revolution Two years later he was disgraced and executed How did the formerly loyal Party servant become one of its most ardent critics How did he reconcile his own beliefs with the demands of the Party for so long and what finally drove him to take a stand And how should we understand his legacy for the modern democracy of Hungary This definitive biography of the Communist leader traces his life from his conventional petty bourgeois childhood in south west Hungary through his tremendous political achievements and ultimate dramatic failure The first complete portrait of this complex and contradictory figure Imre Nagy is vividly brought to life as an enigmatic figure whose actions shaped Hungary's destiny in 1956 and ever since Reports and Documents United States. Congress, 1964 **Problems of Communism**, 1962 **The First Domino** Johanna Cushing Granville, 2004 A Fascinating Analysis Based on Newly Declassified Documents from the Former USSR and Communist Bloc On October 23 24 and November 3 4 1956 the Soviet Union invaded Hungary to reassert strict communist rule The First Domino International Decision Making during the Hungarian Crisis of 1956 is the first analytical monograph in English drawing on new archival collections from East bloc countries to reinterpret decision making during this Cold War crisis Johanna Granville selects four key patterns of misperception as laid out by Columbia University political scientist Robert Jervis and shows how these patterns prevailed in the military crackdown and in other countries reactions to it Granville perceptively examines the statements and actions of Soviet Presidium members the Hungarian leadership U S policy makers and even Yugoslav and Polish leaders According to Granville Soviet first secretary Nikita Khrushchev zigzagged ineptly between policy options with apparently little or no analysis of costs and risks permitting Moscow's Eastern European satellites at times to subtly manipulate the Kremlin's decision making Granville's discussions of Polish policy Yugoslav actions and the arduous process of normalization after the uprising show that the Soviets were preoccupied with stemming what many of them construed as a Western encouraged attempt to undermine Eastern Europe's communist regimes Granville concludes that the United States bears some responsibility for the events of 1956 as ill advised U S covert actions may have convinced the Soviet leaders that the United States was attempting to weaken Soviet hegemony over Eastern Europe although the Eisenhower administration actually intended only to sow confusion and dissatisfaction This masterful study leads to the conclusion that the Hungarian Crisis in 1956 was most likely sustained by self perpetuating misperceptions and suspicions among key countries In short Granville's multi archival research tends to confirm the post revisionists theory about the cold war it was everyone's fault and no one's fault It resulted from the emerging bipolar

structure of the international system the power vacuum in Europe's center and spiraling misconceptions **Imre Lakatos and the Guises of Reason** John Kadvany, 2001-04-09 An exploration of the philosophy of science and mathematics of Hungarian emigre Imre Lakatos demonstrating its contemporary relevance *Central Europe Since 1945* Paul G. Lewis, 2014-01-14 Central Europe here Poland the German Democratic Republic Czechoslovakia and Hungary is at the centre of international attention since the Soviet collapse An understanding of its postwar history is critical to an appreciation of the challenges facing its present rulers This is an engrossing account of the installation development operation and eventual downfall of its very different communist regimes and the transition to the freedoms and uncertainties of the post Soviet world The book covers political economic social and cultural change emphasising the crucial relationships with the USSR throughout **Casebook on Insurgency and Revolutionary Warfare** American University (Washington, D.C.). Special Operations Research Office, Paul A. Jureidini, 1962 **State Sovereignty** E. Kurtulus, 2005-11-26 State sovereignty is the foundation of international relations This thought provoking book explores the gap between seeing sovereignty as either absolute or relative It argues that state sovereignty is both factual and judicial and that the loss of sovereignty exists only at the margins of the international society With many interesting real world examples of ambiguous sovereignty examined this is an important argument against those who are quick to claim that sovereignty is under assault **Business Practice in Socialist Hungary, Volume 1** Philip Scranton, 2022-01-29 This study aims to reconstruct the activities of enterprises and individuals over two decades in one developing country Hungary within and across four politico economic domains agriculture infrastructure construction commerce and manufacturing from the initial Stalinist obsession with heavy industry Volume 1 Creating the Theft Economy 1945 1957 through later reforms paying greater attention to profitable farming and the provision of abundant consumer goods Volume 2 From Chaos to Contradiction 1957 1972 forthcoming 2023 It provides hundreds of grounded granular stories for reflection as reported by actors and direct observers ranging from innovation and improvisation to obstruction failure and fraud Further it offers an otherwise unobtainable close encounter with another world familiar in some respects while amazingly peculiar in others The social history of enterprise and work in postwar Central European nations building socialism has long been underdeveloped Through extensive macro level research on planning and policy in Hungary Poland Czechoslovakia and other Bloc countries a grand narrative has been framed reconstruction and breakneck industrialization under Soviet tutelage then eventual mismanagement stagnation and crisis leading to collapse This book seeks to explore what socialism actually looked like to those sustaining or enduring it as they faced forward into an unknowable future to assess how and where it did or didn't work and to recount how ordinary people responded to its opportunities and constraints This study will appeal to readers interested in understanding how businesses worked day to day in a planned economy how enterprise practices and technological strategies shifted during the first postwar generation how novice managers and technicians emerged during rapid industrialization how peasants learned to farm cooperatively

how organizations improvised and adapted how political purity and practical expertise contended for control and how the controversies and convulsions of the postwar decades shaped a deeply flawed project to build socialism The State against Society Grzegorz Ekiert, 1996-09-30 Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes were considered to be politically stable due to their pervasive institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse *The East European Economy in Context* David Turnock, 2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In *The East European Economy in Context* Communism and Transition David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism *The East European Economy in Context* provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change

Background Notes United States. Department of State. Office of Public Communication, 1979 Series of short factual pamphlets on the countries of the world *Hungary's Negotiated Revolution* Rudolf L. Tökés, 1996-09-28 In this book first published in 1996 Rudolf Tökés offers a comprehensive overview of the rise and fall of the Kadar regime in Hungary between 1957 and 1990 The approach is interdisciplinary reviewing the regime's record with emphasis on politics macroeconomic policies social change and the ideas and personalities of political dissidents and the regime's successor generation The study provides a fully documented reconstruction of the several phases of the ancien régime's road from economic reform to

political collapse based on interviews with former top party leaders and transcripts of the Party Central Committee Talks gives an in depth account of the personalities and issues involved in Hungary's peaceful transformation from one party state to parliamentary democracy and a comprehensive assessment of Hungary's post Communist politics economy and society

Social Control in Europe Herman Roodenburg, 2004 This two volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe The uniqueness of these volumes lies in two main areas First the contributors compare methods of social control on many levels from police to shaming church to guilds Second they look at these formal and informal institutions as two way processes Unlike many studies of social control in the past the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated Hardly passive victims of discipline and control these folks instead claimed agency in that process accepting and resisting and thus molding the controls under which they functioned In both volumes an introduction outlines the origins and the continuing value of the concept of social control The introductions are followed by two substantive sections The essays in part one of volume 1 focus on the interplay of ecclesiastical institutions and the emerging states those in part two of volume 1 look more explicitly at discipline from a bottom up perspective The essays in part one of volume 2 explore the various means by which communities generally working class communities in nineteenth and twentieth century Europe were subjected to forms of discipline in the workplace by the church and by philanthropic housing organizations It notes also how the communities themselves generated their own forms of internal control Part two of volume 2 focuses on various policing institutions exploring in particular the question of how liberal and totalitarian regimes differed in their styles of control repression and surveillance

One Day That Shook the Communist World Paul Lendvai, 2010-12-16 On October 23 1956 a popular uprising against Soviet rule swept through Hungary like a force of nature only to be mercilessly crushed by Soviet tanks twelve days later Only now fifty years after those harrowing events can the full story be told This book is a powerful eyewitness account and a gripping history of the uprising in Hungary that heralded the future liberation of Eastern Europe Paul Lendvai was a young journalist covering politics in Hungary when the uprising broke out He knew the government officials and revolutionaries involved He was on the front lines of the student protests and the bloody street fights and he saw the revolutionary government smashed by the Red Army In this riveting deeply personal and often irreverent book Lendvai weaves his own experiences with in depth reportage to unravel the complex chain of events leading up to and including the uprising its brutal suppression and its far reaching political repercussions in Hungary and neighboring Eastern Bloc countries He draws upon exclusive interviews with Russian and former KGB officials survivors of the Soviet backlash and relatives of those executed He reveals new evidence from closed tribunals and documents kept secret in Soviet and Hungarian archives Lendvai's breathtaking narrative shows how the uprising while tragic delivered a stunning blow to Communism that helped to ultimately bring about its demise One Day That Shook the Communist World is

the best account of these unprecedented events **Casebook on Insurgency and Revolutionary Warfare** ,2012

The Top Books of the Year Rift And Revolt In Hungary The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have enthralled audiences this year. Rift And Revolt In Hungary : Colleen Hoovers "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Rift And Revolt In Hungary : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
