Earhart, 2025-06-24 Though canon concerns seem to be a relic of 1990s academia we are once again at a historical moment when there is resistance to teaching texts by writers of color and texts that deal with race ethnicity and gender At the same time algorithmic bias scholars are locating systemic bias encoded into systems from policing software to housing software Bringing these divergent areas together Amy E Earhart examines how technological and institutional infrastructures construct and deconstruct race ethnicity and gender identities Focusing on two central infrastructures the database a commonly used technological infrastructure in the digital humanities and the anthology a scholarly and pedagogical infrastructure Earhart considers how such seemingly naturalized infrastructures impact the representation and modeling of identity The book draws upon the building and use of DALA a collection of almost 100 years of generalist American and African American literature anthologies constructed to investigate questions of identity and representation in literary anthologies and by extension the larger literary canon The resulting examination and its rigorous discussion of how identities are created and recreated within Black literary histories has important implications for contemporary cultural and political debates about canon formation literary scholarship and the bias embedded in technological infrastructures **Focus on Minorities** Fort Bragg (N.C.). Student Activism and Civil Rights in Mississippi James P. Marshall, 2013-03-11 In the 1890s Mississippi society still drew a sharp line between its African American and white communities by creating a repressive racial system that ensured white supremacy by legally segregating black residents and removing their basic citizenship and voting rights Over the ensuing decades white residents suppressed African Americans who dared defy that system with an array of violence terror and murder In 1960 students supporting civil rights moved into Mississippi and challenged this repressive racial order by encouraging African Americans to reassert the rights guaranteed under the Fourteenth and Fifteenth Amendments to the United States Constitution The ensuing social upheaval changed the state forever In Student Activism and Civil Rights in Mississippi James P Marshall a former civil rights activist tells the complete story of the quest for civil rights in Mississippi Using a voluminous array of sources as well as his own memories Marshall weaves together an astonishing account of student protestors and local activists who risked their lives for equality standing between southern resistance and federal inaction Their efforts and the horrific violence inflicted on them helped push many non southerners and the federal government into action culminating in the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act measures that destroyed legalized segregation and disfranchisement Ultimately Marshall contends student activism in Mississippi helped forge a consensus by reminding the American public of its forgotten promises and by educating the nation to the fact that African Americans in the South deserved to live as free and equal citizens

Re-Membering and Surviving Shirley A. James Hanshaw, 2020-10-01 The first book length critical study of the black experience in the Vietnam War and its aftermath this text interrogates the meaning of heroism based on models from African and African American expressive culture It focuses on four novels Captain Blackman 1972 by John A Williams Tragic Magic 1978 by Wesley Brown Coming Home 1971 by George Davis and De Mojo Blues 1985 by A R Flowers Discussions of the novels are framed within the historical context of

all wars prior to Vietnam in which Black Americans fought The success or failure of the hero on his identity quest is predicated upon the extent to which he can reconnect with African or African American cultural memory He is engaged therefore in remembering a term laden with the specificity of race that implies a cultural history comprised of African retentions and an interdependent relationship with the community for survival The reader will find that a common history of racism and exploitation that African Americans and Vietnamese share sometimes results in the hero's empathy with and compassion for the so called enemy a unique contribution of the black novelist to American war literature
