Korea's Occupied Cinemas, 1893-1948 Brian Yecies,Ae-Gyung Shim,2012-05-23 Korea s Occupied Cinemas 1893 1948 compares and contrasts the development of cinema in Korea during the Japanese occupation 1910 1945 and US Army Military 1945 1948 periods within the larger context of cinemas in occupied territories It differs from previous studies by drawing links between the arrival in Korea of modern technology and ideas and the cultural political and social environment as it follows the development of exhibition film policy and filmmaking from 1893 to 1948 During this time Korean filmmakers seized every opportunity to learn production techniques and practice their skills contributing to the growth of a national cinema despite the conditions produced by their occupation by colonial and military powers At the same time Korea served as an important territory for the global expansion of the American and Japanese film industries and after the late 1930s Koreans functioned as key figures in the co production of propaganda films that were designed to glorify loyalty to the Japanese Empire For these reasons and as a result of the tensions created by divided loyalties the history of cinema in Korea is a far more dynamic story than simply that of a national cinema struggling to develop its own narrative content and aesthetics under colonial conditions **Communication, Digital Media, and Popular Culture in Korea** Dal Yong Jin,Nojin

Kwak,2018-05-16 In recent decades Korean communication and media have substantially grown to become some of the most significant segments of Korean society Since the early 1990s Korea has experienced several distinctive changes in its politics economy and technology which are directly related to the development of local media and culture Korea has greatly developed several cutting edge technologies such as smartphones video games and mobile instant messengers to become the most networked society throughout the world As the Korean Wave exemplifies the once small and peripheral Korea has also created several unique local popular cultures including television programs movies and popular music known as K pop and these products have penetrated many parts of the world As Korean media and popular culture have rapidly grown the

number of media scholars and topics covering these areas in academic discourses has increased These scholars interests have expanded from traditional media such as Korean journalism and cinema to several new cutting edge areas like digital technologies health communication and LGBT related issues In celebrating the Korean American Communication Association s fortieth anniversary in 2018 this book documents and historicizes the growth of growing scholarship in the realm of Korean media and communication *Shakespeare and the Second World War* Irene Rima Makaryk, Marissa McHugh, 2012-01-01 Shakespeare s works occupy a prismatic and complex position in world culture they straddle both the high and the low the national and the foreign literature and theatre The Second World War presents a fascinating case study of this phenomenon most if not all of its combatants have laid claim to Shakespeare and have called upon his work to convey their society s self image In wartime such claims frequently brought to the fore a crisis of cultural identity and of competing ownership of this universal author Despite this the role of Shakespeare during the Second World War has not yet been examined or documented in any depth Shakespeare and the Second World War provides the first sustained international collaborative incursion into this terrain The essays demonstrate how the wide variety of ways in which Shakespeare has been recycled reviewed and reinterpreted from 1939 1945 are both illuminated by and continue to illuminate the War today
