Rights From Wrongs A Secular Theory Of The Origins Of Rights

Jay Lucas

Rights From Wrongs A Secular Theory Of The Origins Of Rights:

Rights from Wrongs Alan M. Dershowitz, 2004-11-02 A noted legal scholar examines the source of human rights arguing that rights are the result of particular experiences with injustice and looking at the implications in terms of the right to privacy voting rights and other rights

The History and Growth of Judicial Review, Volume 1 Steven Gow Calabresi, 2021-04-13 This two volume set examines the origins and growth of judicial review in the key G 20 constitutional democracies which include the United States the United Kingdom France Germany Japan Italy India Canada Australia South Korea Brazil South Africa Indonesia Mexico and the European Union as well as Israel The volumes consider five different theories which help to explain the origins of judicial review and identify which theories apply best in the various countries discussed They consider not only what gives rise to judicial review originally but also what causes of judicial review lead it to become more powerful and prominent over time Volume One discusses the G 20 common law countries and Israel

The History and Growth of Judicial Review Steven G. Calabresi, 2021 This two volume set gives an account of the origins and growth of judicial review in the democratic countries of the G 20 from its beginnings in the United States to its expansion after World War II Volume 2 covers the civil law jurisdictions

The History and Growth of Judicial Review, Volume 2 Steven Gow Calabresi, 2021-04-13 This two volume set examines the origins and growth of judicial review in the key G 20 constitutional democracies which include the United States the United Kingdom France Germany Japan Italy India Canada Australia South Korea Brazil South Africa Indonesia Mexico and the European Union as well as Israel The volumes consider five different theories which help to explain the origins of judicial review and identify which theories apply best in the various countries discussed They consider not only what gives rise to judicial review originally but also what causes of judicial review lead it to become more powerful and prominent over time Volume Two discusses the G 20 civil law countries

In Defense of Human Rights Ari Kohen, 2007-03-06 This book establishes a defence of human rights that can be shared by both non religious and religious people

The Right to a Healthy Environment David R. Boyd, 2012-10-03 Canada has abundant natural wealth beautiful landscapes vast forests and thousands of rivers and lakes The land defines Canadians as a people yet the country has one of the worst environmental records in the industrialized world Building on his previous book The Environmental Rights Revolution 2012 David R Boyd one of Canada s leading environmental lawyers describes how recognizing the constitutional right to a healthy environment could have a transformative impact by empowering citizens holding governments and industry accountable and improving Canada s green record The overwhelming majority of the world s nations now recognize environmental rights through laws constitutions treaties or court decisions Boyd explores Canada s history of failed efforts to do the same within this international context and offers three pathways to constitutional recognition of the right to a healthy environment This important and provocative book provides a blueprint for renewed leadership in protecting human health the well being of the planet and the interests of future generations

Thought, Law,

Rights and Action in the Age of Environmental Crisis Anna Grear, Evadne Grant, 2015-07-31 In the climate pressed Anthropocene epoch nothing could be more urgent than fresh engagements with the fractious relationships between humanity law and the living order This timely book intelligently combines theoretical reflections doctrinal and Two Concepts of Rights and the Right to Education Yuan Zheng, 2025-09-17 Most rights theories hold that the same act of a person or group cannot be driven by both a right and a duty This book introduces the theory of initial rights and derived rights demonstrating that an act is often the result of both The key idea is that individuals and collectives have the right to fulfill their duty However general rights those people are born with do not originate from any duty meaning their choices are not dictated by duties As a result access to education is a right not a duty The theory of initial and derived rights can extend beyond education to explain broader social dynamics such as the relationship between government and citizens This book applies the theory to various contexts including children's education civic and moral education school student relationships and teacher student interactions It explores how absolute rights relate to general rights how the right to education connects to the right to establish private schools and how opportunities for choice are linked to rights While this is an abstract theoretical study it offers practical insights for schools and teachers The book will be of interest to researchers and students of rights theories and the philosophy of education as well as educators

Human Rights and the Environment Linda Hajjar Leib, 2011 The book examines the genesis and development of environmental rights or the Right to Environment in international law and discusses their philosophical theoretical and legal underpinnings in the context of sustainable development and the notion of solidarity rights

Is There a Right to Remain Silent? Alan M. Dershowitz, 2008-05-06 The right to remain silent guaranteed by the famed Fifth Amendment case *Miranda v Arizona* is perhaps one of the most easily recognized and oft quoted constitutional rights in American culture Yet despite its ubiquity there is widespread misunderstanding about the right and the protections promised under the Fifth Amendment In *Is There a Right to Remain Silent* renowned legal scholar and bestselling author Alan Dershowitz reveals precisely why our Fifth Amendment rights matter and how they are being reshaped limited and in some cases revoked in the wake of 9/11 As security concerns have heightened law enforcement has increasingly turned its attention from punishing to preventing crime Dershowitz argues that recent Supreme Court decisions have opened the door to coercive interrogations even when they amount to torture if they are undertaken to prevent a crime especially a terrorist attack and so long as the fruits of such interrogations are not introduced into evidence at the criminal trial of the coerced person In effect the court has given a green light to all preventive interrogation methods By deftly tracing the evolution of the Fifth Amendment from its inception in the Bill of Rights to the present day where national security is the nation's first priority Dershowitz puts forward a bold reinterpretation of the Fifth Amendment for the post 9/11 world As the world we live in changes from a deterrent state to the heightened vigilance of today's preventative state our construction he argues must also change We must develop a jurisprudence that

will contain both substantive and procedural rules for all actions taken by government officials in order to prevent harmful conduct including terrorism Timely provocative and incisively written Is There a Right to Remain Silent presents an absorbing look at one of our most essential constitutional rights at one of the most critical moments in recent American history The Rights Fight Jay Lucas,2011-10-28 America is the most rights conscious society in history It seems as though every social and political issue of the day is ultimately described in terms of rights When it comes to understanding rights in America there are two competing worldviews Christianity and secularism The Rights Fight presents a defense of the Christian view which says that universal human rights depend upon God Even more importantly The Rights Fight explains how America s passion for rights offers Christians a wonderful opportunity for the proclamation of the Gospel of Jesus Christ

The Cambridge Handbook of Sociocultural Psychology Jaan Valsiner,Alberto Rosa,2007-06-04 This book first published in 2007 is an international overview of the state of our knowledge in sociocultural psychology as a discipline located at the crossroads between the natural and social sciences and the humanities Since the 1980s the field of psychology has encountered the growth of a new discipline cultural psychology that has built new connections between psychology sociology anthropology history and semiotics The handbook integrates contributions of sociocultural specialists from fifteen countries all tied together by the unifying focus on the role of sign systems in human relations with the environment It emphasizes theoretical and methodological discussions on the cultural nature of human psychological phenomena moving on to show how meaning is a natural feature of action and how it eventually produces conventional symbols for communication Such symbols shape individual experiences and create the conditions for consciousness and the self to emerge turn social norms into ethics and set history into motion The Ethics of Nuclear Weapons Dissemination Thomas E. Doyle, II,2015-02-11 Offers an original and timely contribution to the nuclear ethics debate Examines the moral dilemmas of state and non state actor nuclear proliferation Will be of much interest to students of nuclear proliferation ethics international relations and international security *The Price of Principle* Alan Dershowitz,2022-07-12 In his fiftieth book The Price of Principle Why Integrity Is Worth the Consequences Alan Dershowitz 1 New York Times bestselling author and one of America s most influential legal scholars explores the implications of the increasing tendency in politics academia media and even the courts of law to punish principle and reward partisan hypocrisy Alan Dershowitz has been called one of the most prominent and consistent defenders of civil liberties in America by Politico and the nation s most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights by Newsweek Yet he has come under intense criticism for living by his principles and applying his famed shoe on the other foot test The Price of Principle is about efforts to cancel Alan Dershowitz and his career because he has insisted on sticking to his principles instead of choosing sides in the current culture and political war dividing our country He explains that principled people are actively punished for not being sufficiently partisan Principle has become the vice and partisanship the virtue in an age when partisan ends justify

unprincipled means such as denial of due process and free speech in the interest of achieving partisan or ideological goals Throughout his narrative Dershowitz focuses on three sets of principles that have guided his life 1 freedom of expression and conscience 2 due process fundamental fairness and the adversary system of seeking justice and 3 basic equality and meritocracy He documents the attacks on him and others like him for being guilty of refusing to compromise important principles to promote partisanship He names names and points fingers of accusation at those who have led us down this dangerous road In the end *The Price of Principle* represents an icon in the defense of free speech and due process reckoning with the challenges of unprincipled attacks a new brand of McCarthyism and insisting that we ask hard questions about our own moral principles

The Environmental Rights Revolution David R. Boyd, 2011-11-29 The right to a healthy environment is the subject of extensive philosophical debates that revolve around a key question Should rights to clean air water and soil be entrenched in law This pioneering book answers this by moving beyond theoretical debate to measure the practical effects of enshrining the right in constitutions David Boyd analyzes 193 constitutions and the laws and court decisions of more than 100 nations in Europe Latin America Asia and Africa He reveals that nations with constitutional protections have stronger environmental laws enhanced enforcement greater government accountability and better access to justice information and public participation in decision making than nations without such provisions As a result they demonstrate superior environmental performance and have smaller ecological footprints Boyd not only demonstrates that constitutionalizing environmental protection has the power to make sustainability a priority he tells inspiring stories about the difference the right to a healthy environment is making in people's lives

Routledge Handbook of Freedom of Religion or Belief Silvio Ferrari, Mark Hill QC, Arif A. Jamal, Rossella Bottoni, 2020-11-29 Freedom of religion is an issue of universal interest and scope However in the last two centuries at least the philosophical religious and legal terms of the question have been largely defined in the West In an increasingly global world widening our knowledge of this right's roots in different cultural and legal systems becomes a priority This Handbook seeks to attain this goal through a better understanding of the historical roots and expressions of the right to freedom of religion on the one hand and on the other of its theological background in different religious traditions History and theology provide the setting for the analysis of the politics of freedom of religion that is how this right is used in the context of the dialogue confrontation between countries placed in different cultural regions of the world and of the legal strategies and tools that have been developed and are employed to protect and foster the right to freedom of religion Behind these legal and political strategies there is an ongoing debate about the nature of this right whose main features are explored in the final section Global historical and interdisciplinary in approach this book studies the new relevance of freedom of religion worldwide and develops suitable categories to analyze and understand the role that freedom of religion can play in managing religious and cultural diversity in our societies Authored by experts through the contributions collected in these chapters scholars and students will be able

to broaden and deepen their knowledge of the right to freedom of religion and to develop the ability to go beyond the borders of the different cultural environments in which this right took shape and developed **I Do Solemnly Swear** Steve

Sheppard, 2009-04-27 This book asks whether officials can be moral and still follow the law answering that the law requires them to do so **Fighting Back the Right** David Niose, 2014-12-16 The political scene is changing rapidly in America The

religious right is on the defensive acceptance of gay rights is at an all time high social conservatives are struggling for relevance and more Americans than ever identify as nonreligious What does this mean for the country and the future With these demographic shifts can truly progressive reason based public policy finally gain traction Or will America continue to carry a reputation as anti intellectual and plutocratic eager to cater to large corporate interests but reluctant to provide universal health care to all its citizens **Fighting Back the Right** reveals a new alliance in the making a progressive coalition committed to fighting for rational public policy in America and reversing the damage inflicted by decades of conservative dominance David Niose Legal Director of the American Humanist Association AHA examines this exciting new dynamic covering not only the rapidly evolving culture wars but also the twists and turns of American history and politics that led to this point and why this new alliance could potentially move the country in a direction of sanity fairness and human centered public policy **The UNHCR and the Supervision of International Refugee Law** James C. Simeon, 2013-08-15 The 1951

Convention relating to the Status of Refugees and its 1967 Protocol and many other important international instruments recognize the unique role the UNHCR plays in protecting refugees and supervising international refugee law This in depth analysis of the UNHCR s supervisory role in the international refugee protection regime examines the part played by key institutions organizations and actors in the supervision of international refugee law It provides suggestions and recommendations on how the UNHCR s supervisory role can be strengthened to ensure greater State Parties compliance to their obligations under these international refugee rights treaties and contributes to enhancing the international protection of refugees and to the promotion of a democratic global governance of the international refugee protection regime

Milton, Rights and Liberties Neil Forsyth, 2007 On July 14th 1790 a key figure in the French Revolution honoured Milton as a founding father of the French republic In the light of this connection it was appropriate that the 8th International Milton Symposium 7 11 June 2005 was held in Grenoble cradle of the French Revolution But the connection of Milton and Rights takes us well beyond the specific link with France and the fascinating selection of essays assembled in this volume many by leading Milton scholars addresses the question in the poetry as well as the prose Milton s fervent but changing attitude to liberties is debated from various points of view so that the volume contains essays on topics ranging from the musical adaptations of Samson Agonistes to its angrily argued parallel with contemporary terrorism from air pollution in Paradise Lost to Milton s supposed Puritanism and putative parallels with a French pornographer

Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **Rights From Wrongs A Secular Theory Of The Origins Of Rights**

In a world inundated with displays and the cacophony of immediate conversation, the profound power and emotional resonance of verbal artistry often fade into obscurity, eclipsed by the constant onslaught of noise and distractions.
