The Constitutional Rights, Privileges, and Immunities of the American People Arnold T. Guminski, 2009 *The Constitutional Rights Privileges and Immunities of the American People* explores the idea that the Supreme Court should radically revise its general theory of constitutional rights and discusses various aspects of some special theories of constitutional rights in order to ensure a sufficient universe of discourse As a former deputy district attorney for Los Angeles County Guminski gained a wealth of experience in preparing arguments for appellate courts Based on his experience and careful research he proposes a persuasive theory that explains why some but not all rights secured against infringement by the United States are also secured against infringement by the states by both the privileges or immunities and the due process clauses of the fourteenth amendment adopted in 1868 He examines whether national citizenship before the Civil War was paramount and superior addresses the procedural and substantive aspects of the due process clause and recites the reasons supporting his general theory In presenting the essentials of his theory about how the Constitution should be judicially construed Guminski thereby encourages other citizens to express their own opinions about constitutional law with the hope that these views may one day have an impact on the way the Supreme Court interprets the Constitution
