An Inquiry Into the Causes of the Growth and Decay of Civilisation Thomas Lloyd (of London.),1926 **The Last Civilization** Charles Brough,2010-11 The terrorism continues with no end in sight over population grows ever more serious our natural resources are being depleted and corruption runs rampant Will these problems ever be solved The continuing events point to an impending breakdown of our civilization The threat of a new world wide plague mass starvation and nuclear war increases each year No solution is in sight without an understanding of social evolutionary natural selection and how it has shaped world affairs throughout both history and prehistory Only by learning how ideology shapes society is it possible to know what must happen in order for people to be active in the transition from the old into a new society and civilization The author covers topics such as our primate small group social behavior the development of the matriarchal agricultural ideological system the ideology involved in barbarism and the rise of the patriarchal monogamous ideologically

based societies and their civilizations Learn why the green revolution is falling behind the biologically related build up of stress and how lagging energy supplies will affect the world Two of the last chapters lay out the structural make up of every successful mainstream world view ideological system They use that to build a facsimile of what the core of such a new and advanced system would have to be like to succeed a perpetual lack of which would ensure that this is indeed The Last Civilization because no other can follow without it

[The Algorithm of Creation](#) Nicholas Hagger,2023-10-27 2023 SMN Book Prize Winner Significant Contribution to its Field The Algorithm of Creation is the last of Nicholas Hagger s quartet on the unity of the universe and humankind and follows The Universe and the Light 1993 The One and the Many 1999 and The New Philosophy of Universalism 2009 It offers an algebraic formula written out for him by Junzaburo Nishiwaki Japan s T S Eliot in Tokyo in October 1965 that sums up the wisdom of the East A A 0 Based on ancient

Chinese thinking yin dark yang light the Tao it shows all opposites reconciled in the underlying unity of the One Void whose emptiness is also a fullness During a dinner at a conference of leading scientists at Jesus College Cambridge in September 1992 watched by Nobel physics prizewinner Roger Penrose Hagger reversed the formula to 0 A A when he wrote down the maths for his view of the origin and creation of the universe and showed the first two particles emerging from the Void s singularity influenced by the 1992 discovery of ripples in the cosmic microwave background radiation and the Presocratic Anaximander of Miletus In this work Hagger shows how this algebraic formula has worked as a universal algorithm 0 A A 0 Its many variations have acted as rules that have controlled the creation and development of the expanding universe its evolution and the rise of human history religion and science and its ultimate fate The formula is behind many of Hagger s works and his application of this algorithm to all human knowledge of the universe and all disciplines takes him to a first ever Theory of Everything which is set out at the end the algorithm of Creation containing 100 mathematical symbols reflecting all the variations that can be summed up in the above algorithm This startling achievement has been made possible by his Universalist cross disciplinary approach which focuses on the fundamental oneness of the universe and humankind and the unitive vision

Zombology Brian Anse Patrick, 2014 In films television books games pornography and now even in firearms and ammunition being sold to the American public zombies are one of the mainstays of the popular culture of our time Far from being only a passing curiosity Brian Patrick dissects the zombie showing it as the articulation of deep seated fears within the Western psyche a symbol in fact for the growing dehumanization that many of us observe or perhaps sense without fully realizing it in modern civilization Patrick connects the zombie phenomenon to previous historical occurrences drawing on both religion and psychology to show how such symbolic tropes that lodge in the collective unconscious of a culture are reflective of the psychological needs of large numbers of people in times of crisis Patrick likewise shows how zombiedom has manifested particularly in American gun culture and how this relates to the growth of a large scale citizens activist movement in favor of gun rights Also included are practical tips on how to stay out of the clutches of zombiedom Zombology is more than just a book about zombies however The zombie for Patrick is a peculiarly Western phenomenon and as such he examines how it can be seen as a manifestation of not so abstract forces battling for the future of our civilization will collectivization or the individual dream or reality win out Patrick offers his own diagnosis At the very least the zombie adds some much needed psychic contrast to the cold to the grey and to the unending It also provides a face albeit necrotic to the seemingly impersonal sociological forces that undermine the West for in a near perfect correspondence with the zombie the West itself appears to be necrotic in a galloping way Both need brains to ease the pain p 48 *Aliens and Us Are We*

Prepared Yet? Vikas Gupta, 2010-04-23 The subject of aliens is not a new one and has been around for a really long time now We talk about it all the time News and articles about the possibility of alien visits or attacks are everywhere Perhaps this has become so common that people have started to shrug it off thinking this is just one of those science fiction topics that media loves to sensationalize If all of a sudden we have an alien encounter one day are we psychologically prepared for this Like many of you even I think we are not In fact we might be in a state of shock as they might turn out to be completely different from any of our imaginations about them But if we are prepared for anything then such an alien encounter might not be shocking The objective of this book is to prepare its readers psychologically to deal with the subject of aliens and the first alien encounter In other words aiming to prepare humanity with the cope of a possible shock upon an impending alien encounter There are a lot of mysteries in this world that might have some paranormal behavior associated to them but they are kind of scattered and appear here and there In other words although these mysteries have been documented well enough by a lot of people from time to time but they do not appear related This book attempts to bring together these mysteries and relate them with one possible explanation that is common the alien connection Also it is trying to bring this subject out from the confines of a circle of scientists subject experts and enthusiasts to a common person So this book is for a common man by a common man
