**New Studies in the History of Education** Nicholas Joseph,2023-09-12 Providing a wide ranging critical and up to date introduction to the history of education this book explores its true meaning and value for education studies With no assumption of prior knowledge it considers key themes individuals and situations in depth highlighting the specific ways in which current educational practice is historically conditioned or conversely has been very different in other times and places and by implication might be different in the future Chapters cover a diverse range of key topics such as the history of big ideas such as liberal education the impact of state intervention on education the effects of imperialism the education of orators in ancient Rome the impact of Covid policies on British education the history of individual subjects such as Geography the development of educational sectors Accessible and engaging chapters model a range of critical approaches to the past while discussion questions challenge the

reader to consider links with the present New Studies in the History of Education introduces the sub discipline to students of Education Studies and will help students and tutors to develop a more in depth and critical understanding of the history of education supporting them to develop their own historical awareness *Philosophers and Kings* Gary McCulloch,2002-04-18 *Philosophers and Kings* examines the theme of education for leadership in English secondary education during the twentieth century *Secondary Education in England 1870-1902* Prof John Roach,John Roach,2012-10-12 In this comprehensive and extensively researched history John Roach argues for a reassessment of the relative importance of State regulation and private provision Although the public schools enjoyed their greatest prestige during this period in terms of educational reform and progress their importance has been exaggerated The role of the public school he suggests was social rather than academic and as such their power and influence is to be interpreted principally in relation to the growth of new social elites the concept of public service and the needs of the empire for a bureaucratic ruling class Only in the modern progressive movement launched by Cecil Reddie and the private provision for young women was lasting progress made Even before the 1902 Education Act however the State had spent much time and effort regulating and reforming the old educational endowments and it is in these initiatives that the foundations for the public provision of secondary educational reform are to be found *A Catholic Eton?* Paul Shrimpton,2005 When in 1858 Newman was retiring from the Catholic University in Dublin friends approached him when confronted with the problem of where to educate their sons and he became the central figure in the establishment of the Oratory School Newmand and his co founders a trio of brilliant Catholic laymen two parliamentary barristers and Lord Acton faced stiff resistance in setting up the first Catholic public school and once it opened their troubles were compounded by a staff mutiny and threats of closure from Rome This is no standard story because the Oratory School was no standard school It was the school s fate to be caught up in many of the key controversies of the time not least because of its association with Newman and for this reason the tale of its formative years under Newman provides important insights into Victorian life and English Catholic history The story of the early years of the school which counted Gerard Manley Hopkins among its masters Hilaire Belloc among its pupils and Newman as its guiding light is told here fully for the first time **History of Education: Studies of education systems** Roy Lowe,2000 **Routledge Library Editions: Education Mini-Set L Sociology of Education** Various,2021-06-23 Mini set L Sociology of Education re issues 48 volumes originally published between 1928 and 1990 The books in this mini set discuss Teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization **Privatization and Privilege in Education (RLE Edu L)** Geoffrey Walford,2012-05-16 Can privilege be bought Arguments have raged over whether private education in the UK is the cement in the wall dividing British society or whether parental choice is as has also been argued a key component of a free society The author here describes the traditional private sector schools paying attention to the ways in

which parents can purchase privilege for their children through attendance at such schools He argues that the privatized system is kept under tight control if a growth in social and educational inequality and a deepening of social class and ethnic group division is to be avoided The book is unique in combining an account of private schools in Britain with an examination of the process of privatization *Gerald Howard-Smith and the 'Lost Generation' of Late Victorian and Edwardian England* John Benson,2016-11-18 Gerald Howard Smith's life is intriguing both in its own right and as a vehicle for exploring the world in which he lived Tall boisterous and sometimes rather irascible he was one of the so called Lost Generation whose lives were cut short by the First World War Brought up in London and educated at Eton and Cambridge he excelled both at cricket and athletics After qualifying as a solicitor he moved to Wolverhampton and threw himself into the local sporting scene making a considerable name for himself in the years before the First World War Volunteering for military service in 1914 he was decorated for bravery before being killed in action two years later Reporting his death the War History of the South Staffordshire Regiment claimed that In his men's eyes he lived as a loose limbed hero and in him they lost a very humorous and a very gallant gentleman As well as telling the fascinating story of Gerald Howard Smith for the first time this important new biography explores such complex and important issues as childhood and adolescence class relations sporting achievement manliness and masculinity metropolitan provincial relationships and forms of commemoration It will therefore be of interest to educationalists sports historians local and regional historians and those interested in class gender and civilian military relations indeed all those seeking to understand the economic social and cultural life of late nineteenth and early twentieth century Britain **Fee-paying Schools and Educational Change in Britain** Ted Tapper,2020-11-25 Examining the history of access to private education this work sheds light on the interaction of state society and schooling Organized historically much of the analysis concentrates on contemporary political struggles and evaluates the possibility of a unified educational system *Flesh in the Age of Reason* Roy Porter,2004 Starting with the grim Britain of the Civil War era with its punishing sense of the body as a corrupt vessel for the soul Roy Porter charts how through figures as diverse as Locke Swift Johnson and Gibbon ideas about medicine politics and religion fundamentally changed notions of self He shows how the Enlightenment with its explosion of rational thinking and scientific invention of the eighteenth and nineteenth centuries provided a lens through which we can best see the profound shift from the theocentric otherworldly Dark Ages to the modern earthly body centered world we live in today As man made in God's image gave way to the Enlightenment's notion of the Self made man the body moved center stage Porter writes brilliantly on the ways in which men and women flaunted decorated tanned and dieted themselves activities that we find familiar but that a Puritan divine would have considered satanic And he explores how at the end of the century the human soul took on a new significance in the works of Godwin Blake and Byron BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
