Rise Of Asia:

China's Rise in Asia Robert G. Sutter, 2005-04-14 China's rapid military and economic growth has fuelled a steady stream of analysis and debate about the PRC's motivations and objectives regarding the United States. Yet until now there has not been a sustained single authored assessment in English of China's expanding influence in Asia in the post Cold War period. Respected analyst Robert G. Sutter draws on his extensive experience in the region to explore the current debate on China's rise and its meaning for U.S. interests by examining in detail China's current and historical relations with the key countries of Asia. He finds a range of motivations underlying China's recent initiatives. Some incline Chinese policy to be cooperative with the United States, others to be competitive and confrontational. Sutter's nuanced study shows that U.S. power and influence continue to dominate Asia and play a critical role in determining China's cooperative or confrontational approach. He argues that the Bush administration's policies of firmness and cooperation have encouraged China to stay on a generally constructive track in the region.

The Rise of Asia Frank B. Tipton, 1998-05-29 The shifting balance of economic power away from Western Europe and the United States and towards East and Southeast Asia, firstly Japan then the small Tiger economies and now the larger nations of Southeast Asia and China, the potential Dragons, has provoked anger, dismay and a search for the secrets of growth and for lessons to be learned. The Rise of Asia brings together recent scholarship analysing the process of economic, social and political development in East and Southeast Asia from the mid nineteenth century to the present day.

Fault Lines in a Rising Asia Chung Min Lee, 2016-04-19 Asia has already risen by most hard power measures. But without an understanding of the downsides of Asia's rise, the conventional narrative is incomplete, misleading and inaccurate. Chung Min Lee explores the fundamental dichotomy that defines contemporary Asia. While the region has been an unparalleled economic success, it is also home to some of the world's most dangerous, diverse and divisive challenges. Contrary to prevailing wisdom, he says Asia's rise doesn't mean the demise of the West. Asia's rise over the past four decades is one of the most significant geopolitical and geoeconomic developments in world affairs, as evinced by China's and more recently India's accelerated economic growth. Yet the conventional narrative of Asia's rise is incomplete, if not misleading, given the fundamental dichotomy that defines contemporary Asia: a region with unparalleled economic success but also home to the world's most dangerous, diverse and divisive security, military and political challenges. How the strategically consequential Asian states manage to ameliorate or even overcome traditional geopolitical tinderboxes across the Taiwan Strait, the Korean Peninsula and the Indian subcontinent and new zones of strategic competition such as the South China Sea is going to have a profound impact on the shaping of regional order well into the 21st century.

Sustaining Economic Growth in Asia Jeremie Cohen-Setton, Thomas Helbling, Adam S. Marketing For Competitiveness: Asia To The World - In The Age Of Digital Consumers Philip Kotler, Hermanwan Kartajaya, Den Huan Hooi, 2016-11-24 Asia is the most populated geographical region with 50% of the world's inhabitants living there Coupled that with the impressive economic growth rates in many Asian countries the region provides a very attractive and lucrative market for many businesses big and small and from all industries In addition Asia is also a dynamic market that significantly grows with developments in technology and digitalization For example a research by Google and Temasek shows that Southeast Asia is the world's fastest growing internet region The internet economy in Southeast Asia is expected to grow by 6.5 times from US 31 billion in 2015 to US 197 billion in 2025 All these make it critical for marketers whether domestic regional or global to stay in touch if not ahead in their understanding of what is happening in Asia from a marketing perspective and what Asia has to offer to the world One phenomenon happening in the Asian market and which marketers should pay utmost attention to is the rapidly unfolding digital revolution that has fundamentally transformed not just the extent but also the nature of competition What makes it even more challenging and complicating is also how such a revolution impacts on consumer and business buying behavior Disruptive technologies supported by this digital revolution have brought in new competitors and enabled existing competitors to surpass the conventional boundaries which we may be quite familiar with Asian consumers have become more educated and connected and have embraced newer ways of selecting buying and using products and services In this book the Father of Modern Marketing Professor Philip Kotler has collaborated with two marketing experts from Asia Hermawan Kartajaya from Indonesia and Hooi Den Huan from Singapore to publish a book on Marketing for Competitiveness Asia to the World In the Age of Digital Consumers This book argues that marketing is no longer just vertical but has encompassed a new more horizontal paradigm In addition to many new concepts and frameworks this book includes a plethora of real world examples from various countries in Asia which will help to shed light on how companies both Asian and global compete in Asia Useful lessons can be drawn by all businesses in the world on how to win the mind heart and spirit of the Asian consumer digital and non digital
