Tappenden, 2016-07-29 Explore the embodied foundations of Paul's resurrection ideals It is commonly recognized that Paul's resurrection ideals are bodily ideals though this dictum is usually configured along literal and metaphorical lines The realism of future resurrected bodies is disconnected from the metaphoricity of bodily transformation in the present Drawing on cognitive linguistics this fresh and innovative study addresses this problem By eschewing the opposition of metaphor and realism Tappenden explores the concepts and metaphors Paul uses to fashion notions of resurrection and the uses to which those notions are put Rather than asserting resurrection as a disembodied cognicentric proposition this book illuminates the body's central role in shaping and grounding the apostle's thought and writings Features Close examination of Paul's letters within multiple interlocking cultural contexts Provides a novel and fresh approach to assessing coherence across the undisputed letters Addresses the materialist nature of early Christian and Judean resurrection ideals without compromising the metaphoricity of those ideals

Afterlife and Resurrection Beliefs in the Apocrypha and Apocalyptic Literature Jan Aage Sigvartsen, 2019-09-19 Jan A Sigvartsen seeks to examine the immense interest in life after death and speculation about the fates awaiting both the righteous and the wicked that proliferated in the Second Temple period In this volume Sigvartsen explores the Apocrypha and the apocalyptic writings in the Pseudepigrapha He identifies the numerous afterlife and resurrection beliefs and presents an analysis that enables readers to easily understand and compare the wide ranging beliefs regarding the afterlife that these texts hold A careful reading of these resurrection passages including passages appearing in Sirach Maccabees the Sibylline Oracles and the Ezra texts reveals that most of the distinct views on life after death regardless of their complexity show little evidence of systematic development relational to one another and are often supported by several key passages or shared motifs from texts that later became a part of the TaNaKh Sigvartsen also highlights the factors that may have influenced the development of so many different resurrection beliefs including anthropology the nature of the soul the scope of the resurrection the number and function of judgments and the final destination of the righteous and the wicked Sigvartsen's study provides a deeper understanding of how the TaNaKh was read by different communities during this important period and the role it played in the development of the resurrection belief a central article of faith in both Christianity and Rabbinic Judaism **The history of an idol: its rise, reign, and overthrow** History, 1849 *The Rise of the Arabic Book* Beatrice

Gruendler,2020-10-13 The little known story of the sophisticated and vibrant Arabic book culture that flourished during the Middle Ages During the thirteenth century Europe s largest library owned fewer than 2 000 volumes Libraries in the Arab world at the time had exponentially larger collections Five libraries in Baghdad alone held between 200 000 and 1 000 000 books each including multiple copies of standard works so that their many patrons could enjoy simultaneous access How did the Arabic codex become so popular during the Middle Ages even as the well established form languished in Europe Beatrice Gruendler s *The Rise of the Arabic Book* answers this question through in depth stories of bookmakers and book collectors stationers and librarians scholars and poets of the ninth century The history of the book has been written with an outsize focus on Europe The role books played in shaping the great literary cultures of the world beyond the West has been less known until now An internationally renowned expert in classical Arabic literature Gruendler corrects this oversight and takes us into the rich literary milieu of early Arabic letters *Alcuin and the Rise of the Christian Schools* Andrew Fleming West,1893

Humanity's Rise to Superdominance, the Global Ecological Crisis, and the Way Forward for Education Adam C. Scarfe, 2022-12-01 This book pinpoints the evolutionary connection between the global ecological crisis and transgenerational learning and education As Julian Huxley 1887 1975 described the cumulative passing down of knowledge skills and ideas by one generation to the next over eons of time which has been afforded by the advent of complex languages in the evolutionary past is chiefly responsible for humanity s planetary superdominance However given that the drive of the human species to increase its control over the natural world has today run up against ecological limits there is an evolutionary existential choice to be made in relation to the ultimate purposes of formal education Should humanity double down on the anthropocentric humanist project of superdominance including the goals of unlimited economic growth development and scientific and technological progress Alternatively should a biocentric anti humanist and or postmodernist deconstruction of formal education take place Or should a holistic organicist orientation emphasizing biological wisdom help to shape its future As this book shows the answers to these philosophical questions on the parts of educators prospective teachers and learners will going forward play a key role in deciding the evolutionary trajectories of all life forms on the planet
