Risen Indeed Lessons Of Faith From The U S S R:

Risen indeed : lessons in faith from the USSR Michael Bourdeaux,1987 **The Plot to Kill God** Paul

Froese,2008-08-06 The story of the survival of religion in the Soviet Union is one of the great surprises of the end of the twentieth century Indeed it is so surprising that many social scientists write it off attribute it to cultural nationalism or ignore it It is assumed that religion simply was given a temporary reprieve and would shortly succumb to secularization Professor Froese demolishes this assumption Andrew Greeley author of The Catholic Imagination The Plot to Kill God is refreshingly creative in bringing evidence from a neglected but hugely important case to bear on thinking through social scientific theories of religion This is an important contribution to a field greatly in need of just this kind of solid historical case analysis Christian Smith University of Notre Dame A wonderful book that will break the hearts of Richard Dawkins and all the other angry atheists After more than 70 years of intensive educational efforts and brutal persecution of religion there were no fewer believers in Russia than in the United States Rodney Stark Scientific socialism in communist countries turned out to be a hollow faith incapable of replacing more traditional religions Paul Froese beautifully shows why and how this provides us with useful lessons about the continuing power of religion today Daniel Chirot University of Washington Froese compellingly tests many theories about the causes of religious belief strength and resurgence The Plot to Kill God highlights the close link between human nature and religious faith thus making a broad argument about the anthropological foundation of religion while also using the tools of social science to advance our knowledge concepts and theories about religion and society Margarita Mooney University of North Carolina at Chapel Hill **And God Created Lenin** Paul Gabel,2010-10-04 This book examines in depth the conflict between Lenin s logic driven efforts to stamp out religion and the churches passionate attempts to save themselves from obliteration It looks at both sides objectively and admits that they both presented strong cases In this thoroughly researched yet accessible study historian Paul Gabel offers a new understanding of the only effort in world history to upset the universality of religion Besides the main conflict between the Russian Orthodox Church and the atheist state Gabel also considers the tensions that this campaign against religion caused within the Communist Party In addition he discusses the bitter hatred dividing the Orthodox factions that refused cooperation with the government from those that tried to adapt the church to communism Was the failure of Soviet communism to eradicate religion simply a matter of practical miscalculation or was this effort in light of the persistence of religion throughout history ultimately unrealistic and doomed from the start This is the key question that Gabel s fascinating insightful narrative attempts to answer [The Last Man in Russia](#) Oliver Bullough,2013-04-30 Russia is dying from within Oligarchs and oil barons may still dominate international news coverage but their prosperity masks a deep rooted demographic tragedy Faced with staggering population decline and near certain economic collapse driven by toxic levels of alcohol abuse Russia is also battling a deeper sickness a spiritual one born out of the country s long totalitarian experiment In The Last Man in Russia award winning

journalist Oliver Bullough uses the tale of a lone priest to give life to this national crisis Father Dmitry Dudko a dissident Orthodox Christian was thrown into a Stalinist labor camp for writing poetry Undaunted on his release in the mid 1950s he began to preach to congregations across Russia with little concern for his own safety At a time when the Soviet government denied its subjects the prospect of advancement and turned friend against friend and brother against brother Dudko urged his followers to cling to hope He maintained a circle of sacred trust at the heart of one of history's most deceitful systems But as Bullough reveals this courageous group of believers was eventually shattered by a terrible act of betrayal one that exposes the full extent of the Communist tragedy Still Dudko's dream endures Although most Russians have forgotten the man himself the embers of hope that survived the darkness are once more beginning to burn Leading readers from a churchyard in Moscow to the snow blanketed ghost towns of rural Russia and from the forgotten graves of Stalin's victims to a rock festival in an old gulag camp *The Last Man in Russia* is at once a travelogue a sociological study a biography and a *cri de coeur* for a dying nation one that Bullough shows might yet be saved *The Dangerous God* Dominic Erdozain, 2017-10-02

At the heart of the Soviet experiment was a belief in the impermanence of the human spirit souls could be engineered conscience could be destroyed The project was in many ways chillingly successful But the ultimate failure of a totalitarian regime to fulfill its ambitions for social and spiritual mastery had roots deeper than the deficiencies of the Soviet leadership or the chaos of a command economy Beneath the rhetoric of scientific communism was a culture of intellectual and cultural dissidence which may be regarded as the prehistory of perestroika This volume explores the contribution of Christian thought and belief to this culture of dissent and survival showing how religious and secular streams of resistance joined in an unexpected and powerful partnership The essays in *The Dangerous God* seek to shed light on the dynamic and subversive capacities of religious faith in a context of brutal oppression while acknowledging the often collusive relationship between clerical elites and the Soviet authorities Against the Marxist notion of the ideological function of religion the authors set the example of people for whom faith was more than an opiate against an enduring mythology of secularization they propose the centrality of religious faith in the intellectual political and cultural life of the late modern era This volume will appeal to specialists on religion in Soviet history as well as those interested in the history of religion under totalitarian regimes

British Human Rights Organizations and Soviet Dissent, 1965-1985 Mark Hurst, 2016-05-05 In the latter half of the 20th century a number of dissidents engaged in a series of campaigns against the Soviet authorities and as a result were subjected to an array of cruel and violent punishments A collection of like minded activists in Britain campaigned on their behalf and formed a variety of organizations to publicise their plight *British Human Rights Organizations and Soviet Dissent 1965-1985* examines the efforts of these activists exploring how influential their activism was in shaping the wider public awareness of Soviet human rights violations in the context of the Cold War Mark Hurst explores the British response to Soviet human rights violation drawing on extensive archival work and interviews with key individuals from the period This book examines

the network of human rights activists in Britain and demonstrates that in order to be fully understood the Soviet dissident movement needs to be considered in an international context

Freedom of Conscience in (Post)Soviet Space Julie K. deGraffenried, Michael Long, Xenia Dennen, 2025-08-15 Freedom of Conscience in Post Soviet Space a collection of original essays edited by Julie K deGraffenried Michael Long and Xenia Dennen is inspired by the work of Michael Bourdeaux the holdings of the Keston Archive and continuing questions of freedom of conscience Ranging from England to Siberia and moving chronologically from 1917 to the twenty first century this book reveals the unique organization and methodology behind the Keston s collection of materials and the ways those in the West thought about religion and communism during the Cold War including the connection between religious liberty and human rights The essays demonstrate the depth and breadth of current research on religion in communist and postcommunist contexts a much needed corrective to contemporary political uses of religious freedom Bourdeaux s activism and preservation of materials influenced many fields of study as reflected by contributing authors varied disciplines history theology sociology languages and literature A preface by the theologian and former Archbishop of Canterbury Rowan Williams comments on Michael Bourdeaux s life and significance

Reflections on the Gulag Elena Dundovich, Francesca Gori, Emanuela Guercetti, 2003

The Faces of Janus A. James Gregor, 2004-03-04 Attempting to understand the catalogue of horrors that has characterised much of twentieth century

history Western scholars generally distinguish between violent revolutions of the right and the left Fascist regimes are assigned to the evil right Marxist Leninist regimes to the benign left But this distinction has left us without a coherent understanding of the revolutionary history of the twentieth century contends A James Gregor in this insightful book He traces the evolution of Marxist theory from the 1920s through the 1990s and argues that the ideology of Marxism Leninism devolved into fascism Fascist regimes and Communist regimes both anti democratic ideocracies are far more closely related than has been recognised Employing wide ranging primary source materials in Italian German Russian and Chinese the book opens with an examination of the first standard Marxist interpretation of Mussolini s fascism in the early 1920s and proceeds through the emergence of fascist phenomena in post Communist Russia A clearer understanding of the relation between fascism and communism provides a sharper lens through which to view twentieth century history as well as the present and future politics of Russia Communist China and other non democratic states Gregor concludes

The Sword and the Shield Christopher Andrew, 2000-08-29 The Sword and the Shield is based on one of the most extraordinary intelligence coups of recent times a secret archive of top level KGB documents smuggled out of the Soviet Union which the FBI has described after close examination as the most complete and extensive intelligence ever received from any source Its presence in the West represents a catastrophic hemorrhage of the KGB s secrets and reveals for the first time the full extent of its worldwide network Vasili Mitrokhin a secret dissident who worked in the KGB archive smuggled out copies of its most highly classified files every day for twelve years In 1992 a U S ally succeeded in exfiltrating the KGB officer and his entire archive out of Moscow The archive covers the entire period from the Bolshevik Revolution to the 1980s and includes revelations concerning almost every country in the world But the KGB s main target of course was the United States Though there is top secret material on almost every country in the world the United States is at the top of the list As well as containing many fascinating revelations this is a major contribution to the secret history of the twentieth century Among the topics and revelations explored are The KGB s covert operations in the United States and throughout the West some of which remain dangerous today KGB files on Oswald and the JFK assassination that Boris Yeltsin almost certainly has no intention of showing President Clinton The KGB s attempts to discredit civil rights leader in the 1960s including its infiltration of the inner circle of a key leader The KGB s use of radio intercept posts in New York and Washington D C in the 1970s to intercept high level U S government communications The KGB s attempts to steal technological secrets from major U S aerospace and technology corporations KGB covert operations against former President Ronald Reagan which began five years before he became president KGB spies who successfully posed as U S citizens under a series of ingenious disguises including several who attained access to the upper echelons of New York society

The International Politics of Eurasia: v. 3: The Politics of Religion in Russia and the New States of Eurasia S. Frederick Starr, Karen Dawisha, 2016-06-16 First Published in 2015 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states

Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The contributors were chosen not only for their recognized expertise but also to ensure a stimulating diversity of perspectives and a dynamic mix of approaches This is Volume 3 The Politics of Religion in Russia and the New States of Eurasia [A Long Walk To Church](#) Nathaniel

Davis, 2018-10-08 Making use of the formerly secret archives of the Soviet government interviews and first hand personal experiences Nathaniel Davis describes how the Russian Orthodox Church hung on the brink of institutional extinction twice in the past sixty five years In 1939 only a few score widely scattered priests were still functioning openly Ironically Hitler's invasion and Stalin's reaction to it rescued the church and parishes reopened new clergy and bishops were consecrated a patriarch was elected and seminaries and convents were reinstituted However after Stalin's death Khrushchev resumed the onslaught against religion Davis reveals that the erosion of church strength between 1948 and 1988 was greater than previously known and it was none too soon when the Soviet government changed policy in anticipation of the millennium of Russia's conversion to Christianity More recently the collapse of communism has created a mixture of dizzying opportunity and daunting trouble for Russian Orthodoxy The newly revised and updated edition addresses the tumultuous events of recent years including schisms in Ukraine Estonia and Moldova and confrontations between church traditionalists conservatives and reformers The author also covers battles against Greek Catholics Roman Catholics Protestant evangelists and pagans in the south and east the canonization of the last Czar the church's financial crisis and hard data on the slowing Russian orthodox recovery and growth Institutional rebuilding and moral leadership now beckon between promise and possibility **The Handbook of COURAGE** Apor, Balázs, Apor, Péter, Horváth, Sándor, 2018-11-27 The COURAGE

Handbook ushers its reader into the world of the compellingly rich heritage of cultural opposition in Eastern Europe It is intended primarily to further a subtle understanding of the complex and multifaceted nature of cultural opposition and its legacy from the perspective of the various collections held in public institutions or by private individuals across the region Through its focus on material heritage the handbook provides new perspectives on the history of dissent and cultural non conformism in the former socialist countries of Central Eastern and Southeastern Europe The volume is comprised of contributions by over 60 authors from a range of different academic and national backgrounds who share their insights into the topic It offers focused discussions from comparative and transnational perspectives of the key themes and prevailing forms of opposition in the region including non conformist art youth sub cultures intellectual dissent religious groups underground rock avantgarde theater exile traditionalism ethnic revivalism censorship and surveillance The handbook provides its reader with a concise synthesis of the existing scholarship and suggests new avenues for further research

Living in the Eighth Day Steven Underdown, 2018-08-02 I came that you may have life and have it in all its fullness John 10 10 In this book Revd Dr Steven Underdown presents the paschal mystery the passion death and resurrection of Jesus

as the means by which the Son first realized that utter fullness of life which God had always intended for humankind He also argues that it is only in and through the paschal mystery that human beings find their fulfillment Only insofar as someone is open to be given in love is that person open to receive fullness of new life The book explores some of the ways by which under God's grace the church can establish patterns of life and worship which will enable growth into the paschal mystery It focuses in particular on a weekly pattern of life established in various parish and monastic communities in which every week is celebrated as a kind of Holy Week in miniature This pattern termed the Pattern of the Week is seen as providing a context for life giving response to the divine initiative

T&T Clark Handbook of Suffering and the Problem of Evil Matthias Grebe, Johannes Grössl, 2023-07-13 This wide ranging work provides an extensive exploration of the theology of theodicy asking questions such as should all instances of suffering necessarily be understood as evil Why would an omnipotent and benevolent God allow or perpetrate evil Is God unable or unwilling to reduce human and non human suffering on Earth Does humanity have the capacity to exercise a moral evaluation of God's motives and intentions Conventional disciplinary boundaries have tended to separate theological approaches to these questions from philosophical ones This volume aims to overcome these boundaries by including biblical Part I historical Part II doctrinal Part III philosophical Part IV and pastoral interreligious perspectives and alternative intersections Part V on theodicy Authors include thinkers from analytic and continental traditions multiple Christian denominations and other religions and both established and younger scholars providing a full variety of approaches What unites the essays is an attempt to answer these questions from the perspective of biblical testimony historical scholarship modern theological and philosophical thinking about the concept of God non Christian religions science and the arts The result is a combination of in depth analysis and breadth of scope making this a benchmark work for further studies in the theology of suffering and evil
