Women of Power Torild Skard,2015-03-09 At a time when a woman Angela Merkel is arguably the most powerful leader in Europe and another Hilary Clinton continues to be at the center of the US political stage it seems that women have broken through the glass ceiling and begun to populate the highest offices of the political world *Women of Power* is a testament to that accomplishment offering the most comprehensive overview of female presidents and prime ministers to date Looking at over fifty countries and over seventy women leaders since 1960 Torild Skard herself an experienced politician examines how and why these women rose to the top and what their leadership has meant for women s empowerment throughout the latter half of the twentieth century Skard examines the achievements and life stories of the world s female leaders up to the current era She offers nuanced portraits that draw on a number of materials including many interviews that she conducted herself All of the women discussed are organized by both chronology and geography and Skard includes a number of helpful chapters that provide an overview and assessment of how different women leaders have come to power in different regions Overall the book provides a fascinating account of women s empowerment as it has manifested itself at the very top of the political hierarchy

On Top of the World Bruce O. Solheim,2000-01-30 An examination of the political and social characteristics particular to Scandinavia which have made women s rise to power more rapid than in other regions of the world this study also explores how the resulting election of women has provided valuable evidence of the impact of women leaders and their leadership style Solheim begins with a critical survey of feminist scholarship regarding the equality difference debate and the application of such research on the position of women in international politics He concludes in this respect that leadership style may have less to do with gender than one might initially suspect Archival research and interviews with women in leadership roles provide the reader with a closer look at the Scandinavian system a view that will challenge gender stereotypes around the world *On Top of the World* explores the Nordic political systems in great detail and analyzes systemic factors such as multi party electoral systems and consensus seeking cultural institutions which contribute to the rise of so many women leaders Solheim compares and contrasts the political rise of two Nordic women leaders to power and influence and for the purpose of cross cultural comparison one woman leader from the developing world A final chapter ties together the theoretical framework and the case studies to suggest a direction for future research

Democracy and Development R.C. Bhardwaj, K. Vijayakrishnan, 2018-10-26 Published in 1998 The question of whether democracy and development are allies or adversaries has long been debated and with the triumph of the democratic spirit worldwide the relationship between democracy and development has once again come to attract much attention globally The collapse of the Soviet Union and the developments in Eastern Europe led to considerable rethinking in political circles on the efficacy of the economic policies pursued in those countries and the long term viability of political systems prevalent there Elsewhere several newly industrialized countries are striving to consolidate their gains though there are differing perceptions of whether their politics conform to the classical framework of democracy or not In a remarkable turn around some other countries have initiated measures for economic reforms and structural adjustment setting aside their earlier approaches towards economic management In short the last decades of this millennium have witnessed meaningful efforts worldwide on

forging a new partnership between democracy and development In February 1996 the Commonwealth Parliamentary Association jointly organized a conference entitled Parliamentary Democracy and Development Allies or Adversaries with the Wilton Park an international agency of the British Commonwealth and Foreign Office in Wilton House West Sussex United Kingdom The week long conference brought together parliamentarians diplomats administrators political scientists economists and specialists from all over the world The participants shared their views and experiences on diverse aspects of the main theme This publication presents an essentially parliamentary perspective on the correlation between democracy and development based on the discussions at the Wilton Park conference and in the light of current thinking on the subject matter

Gendering Legislative Behavior

Tiffany D. Barnes, 2016-06-30 In democracies power is obtained via competition Yet as women gain access to parliaments in

record numbers worldwide collaboration appears to be on the rise This is puzzling why if politicians can secure power through competition would we observe collaboration in Congress Using evidence from 200 interviews with politicians from Argentina and a novel dataset from 23 Argentine legislative chambers over an 18 year period *Gendering Legislative Behavior* reexamines traditional notions of competitive democracy by evaluating patterns of collaboration among legislators Although only the majority can secure power via competition all legislators particularly those who do not have power can influence the policy making process through collaboration Tiffany D Barnes argues that as women have limited access to formal and informal political power they collaborate more than men to influence policy making Despite the benefits of collaboration patterns of collaboration vary among women because different legislative contexts either facilitate or constrain women s collaboration

Gender Justice, Development, and Rights Maxine Molyneux, Shahra Razavi, 2002-11-07 Recent years have seen a shift in the international development agenda in the direction of a greater emphasis on rights and democracy While this has brought many positive changes in women s rights and political representation in much of the world these advances were not matched by increases in social justice Rising income inequalities coupled with widespread poverty in many countries have been accompanied by record levels of crime and violence Meanwhile the global shift in the consensus over the role of the state in welfare provision has in many contexts entailed the down sizing of public services and the re allocation of service delivery to commercial interests charitable groups NGOs and households *Gender Justice Development and Rights* reflects on this ambivalent record and on the significance accorded in international development policy to rights and democracy in the post Cold War era Key items on the contemporary policy agenda neo liberal economic and social policies democracy and multiculturalism are addressed here by leading scholars and regional specialists through theoretical reflections and detailed case studies Together they constitute a collection which casts contemporary liberalism in a distinctive light by applying a gender perspective to the analysis of political and policy processes Case studies from Latin America sub Saharan Africa Middle East East Central Europe South and South east Asia contribute a cross cultural dimension to the analysis of contemporary liberalism the dominant value

system in the modern world and how it exists and is resisted in developing and post transition societies *Democratization and Women's Grassroots Movements* Jill M. Bystydzienski, Joti Sekhon, 1999-07-22 Case studies examining the connections between women's local level political and social actions and the development of democratic systems The book illustrates how community based actions programs and organizations that allow women to determine their lives and participate in decision making contribute to the creation of a civil society and thus enhance democracy The case studies show how participation in grassroots movements promotes women's involvement in their organizations communities and in societal institutions as it influences state policy and empowers women in personal relationships **Mama Miti** Donna Jo Napoli, 2012-05-08 NAACP Image Award Nominee In a word stunning Kirkus Reviews starred review Through artful prose and beautiful illustrations Donna Jo Napoli and Kadir Nelson tell the true story of Wangari Muta Maathai known as Mama Miti who in 1977 founded the Green Belt Movement an African grassroots organization that has empowered many people to mobilize and combat deforestation soil erosion and environmental degradation Today more than 30 million trees have been planted throughout Mama Miti's native Kenya and in 2004 she became the first African woman to win the Nobel Peace Prize Wangari Muta Maathai has changed Kenya tree by tree and with each page turned children will realize their own ability to positively impact the future

Transitions Environments Translations Joan W. Scott, Cora Kaplan, Debra Keates, 2013-10-18 The essays in *Transitions Environments Translations* explore the varied meanings of feminism in different political cultural and historical contexts They respond to the claim that feminism is Western in origin and universalist in theory and to the assumption that feminist goals are self evident and the same in all contexts Rather than assume that there is a blueprint by which to measure the strength or success of feminism in different parts of the world these essays consider feminism to be a site of local national and international conflict They ask What is at stake in various political efforts by women in different parts of the world What meanings have women given to their efforts What has been their relationship to feminism as a concept and as an international movement What happens when feminist ideas are translated from one language one political context to another

The Inclusion Calculation Melody E. Valdini, 2019-08-30 What role do men play in women's political representation When and why do they support more inclusivity for women in office Given that all political parties today have men in a majority of leadership positions male gatekeepers play a key part in women's representation So how are they responding to the increasing numbers of women who are seeking leadership roles in politics In *The Inclusion Calculation* Melody E Valdini examines women's inclusion from the perspective of men in power and offers a novel approach to understanding differences in women's descriptive representation This book argues that men facilitate women's entry into politics when women's presence promises to benefit public perception of a party and therefore benefit male party leaders One particularly disturbing implication of this argument is that leaders can increase the number of women in office as a quick and simple substitute for addressing real systemic failures in party organization Valdini tests her hypotheses by looking at several

political contexts around the world the degree to which parties run more women after a corruption scandal the number of women who are actually elected at such times the adoption of gender quotas and the appointment of women legislators in authoritarian regimes Her findings suggest that we cannot yet celebrate recent increases in the number of women in office as a sign that we are nearing broad acceptance of gender equality Further these findings also suggest that one should question the tendency of scholars and international organizations to use women s presence in office as a measurement of good governance as well as the tendency to encourage women to simply lean in to advance their careers While it is certainly valuable to encourage women to run for office it is equally important to understand the motivations of male power holders To that end this book examines how men strategically feminize their political parties or government to retain control demonstrating that a woman s selection as a candidate often depends on a man s perception of her value
