Corporate Finance: Theory and Practice in Emerging Economies Sunil Mahajan, 2020-12-03 The book introduces corporate finance to first year students in business schools Basic subjects such as marketing human resources and finance are all fundamental to the learning of a business manager A book on these subjects must emphasise learning that is conceptual in nature and at the same time application oriented This book attempts to achieve this in a manner that is comprehensive and shorn of complexity It examines the practice of finance without diluting theory and conceptual knowledge Corporate finance is necessarily quantitative in nature and the book duly places emphasis on that aspect It ensures the primacy of ideas and concepts utilising numbers as supportive elements

Bayesian Risk Management Matt Sekerke, 2015-08-19 A risk measurement and management framework that takes model risk seriously Most financial risk models assume the future will look like the past but effective risk management depends on identifying fundamental changes in the marketplace as they occur Bayesian Risk Management details a more flexible approach to risk management and provides tools to measure financial risk in a dynamic market environment This book opens discussion about uncertainty in model parameters model specifications and model driven forecasts in a way that standard statistical risk measurement does not And unlike current machine learning based methods the framework presented here allows you to measure risk in a fully Bayesian setting without losing the structure afforded by parametric risk and asset pricing models Recognize the assumptions embodied in classical statistics Quantify model risk along multiple dimensions without backtesting Model time series without assuming stationarity Estimate state space time series models online with simulation methods Uncover uncertainty in workhorse risk and asset pricing models Embed Bayesian thinking about risk within a complex organization Ignoring uncertainty in risk modeling creates an illusion of mastery and fosters erroneous decision making Firms who ignore the many dimensions of model risk measure too little risk and end up taking on too much Bayesian Risk Management provides a roadmap to better risk management through more circumspect measurement with comprehensive treatment of model uncertainty

Risk Transfer Derivatives In Theory And Practice : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
