Search Information Gathering For The Mass Media:

Web Search Amanda Spink, Michael Zimmer, 2008-09-16 The inspiration for this book emerged from the editors participation in a panel discussion on Web search engines at an annual meeting of the Association of Internet Researchers This multidisciplinary panel of Web search researchers revealed the diversity of scholars interested in Web searching coupled with a broad range of questions attitudes and approaches It became clear that more cross fertilization was necessary between the disciplines to ensure Web search engines the entities and Web searching the user behavior received the thorough scholarly attention they deserved This book is a result of that realization and an important first step in achieving new levels of awareness and collaboration across disciplines The book represents a core theme within the intellectual pursuits of the editors The first editor Spink is an information scientist who has worked with taught and has researched the informational dimensions of Web searching since 1997 The second editor Zimmer is a scholar of culture and communication who focuses on the political and ethical dimensions of new media and information technologies and whose dissertation research focused on the value related consequences of the quest for the perfect search engine *Understanding Sponsored Search* Jim Jansen, 2011-07-25 This book addresses the underlying foundational elements both theoretical and methodological of sponsored search As such the contents are less affected by the ever changing implementation aspects of technology Rather than focusing on the how this book examines what causes the how Why do certain keywords work while others do not Why does that ad work well when others that are similar do not Why does a key phrase cost a given amount Why do we measure what we do in keyword advertising This book speaks to that curiosity to understand why we do what we do in sponsored search The content flows through the major components of any sponsored search effort regardless of the underlying technology or client or product The book addresses keywords ads consumers pricing competitors analytics branding marketing and advertising integrating these separate components into an incorporated whole The focus is on the critical elements with ample illustrations and with enough detail to lead the interested reader to further inquiry

Journalism Jo A. Cates, 2004-05-30 Journalism A Guide to the Reference Literature is a critically annotated bibliographic guide to print and electronic sources in print and broadcast journalism The first edition was published in 1990 the second in 1997 It has been described as one of the critical reference sources in journalism today and it is a key bibliographic guide to the literature Choice magazine called it a benchmark publication for which there are no comparable sources The format is similar to the second edition What makes this edition significantly different is the separation of Commercial Databases and Internet Resources Commercial Databases includes standard fee based resources The new chapter on Internet sources features Web based resources not included in the commercial databases chapter as well as portals other online files listservs newsgroups and Web logs blogs All chapters have been revised and there are significant revisions in Directories Yearbooks and Collections Miscellaneous Sources Core Periodicals Societies and Associations and Research Centers and Archives The

second edition has 789 entries The third edition contains almost 1 000 entries James Carey of Columbia University who provided the foreword for the first two editions has updated his foreword for this edition The Newspapers Handbook Richard Keeble,2006-06-28 The Newspapers Handbook is the first comprehensive guide to the job of the newspaper reporter It offers advice on a range of different types of newspaper writing looks at how newspapers cover events and shows how reporting styles can differ in mainstream and non mainstream newspapers In this new edition Richard Keeble explores the theoretical moral and political dimensions of a journalist s job and examines changing newspaper ownership structures and recent ethical controversies Search Engine Optimization Andreas Veglis,Dimitrios Giomelakis,2021-02-24 This Special Issue book focuses on the theory and practice of search engine optimization SEO It is intended for anyone who publishes content online and it includes five peer reviewed papers from various researchers More specifically the book includes theoretical and case study contributions which review and synthesize important aspects including but not limited to the following themes theory of SEO different types of SEO SEO criteria evaluation search engine algorithms social media and SEO and SEO applications in various industries as well as SEO on media websites The book aims to give a better understanding of the importance of SEO in the current state of the Internet and online information search Even though SEO is widely used by marketing practitioners there is a relatively small amount of academic research that systematically attempts to capture this phenomenon and its impact across different industries Thus this collection of studies offers useful insights as well as a valuable resource that intends to open the door for future SEO related research Effective Risk Communication Joseph Arvai,Louie Rivers III,2013-10-30 There are two questions often asked of risk communication what has been learned from past work and what is needed to push the field forward Drawing on the experience of leading risk researchers and practitioners Effective Risk Communication focuses on answering these questions The book draws together new examples of research and practice from contexts as diverse as energy generation human health nuclear waste climate change food choice and social media This book treats risk communication as much more than the interchange of risk information between experts and non experts rather it aims to emphasise the diversity in viewpoints and practices In each specially commissioned chapter the authors reflect on the theoretical and applied underpinnings of their best projects and comment on how their approach could be used effectively by others Building upon each other the chapters will provoke new discussion and action around a discipline which many feel is neither meeting important needs in practice nor living up to its potential in research Through a more careful examination of the work already done in risk communication the book will help develop better more reflective practice for the future Mass Media Research Roger D. Wimmer,Joseph R. Dominick,1997 This text effectively presents both principles and techniques of statistics and research methods in a totally mass media oriented context The text presents the research process and enables students to understand analysis and reports from secondary sources Advanced Database Systems For Integration Of Media And User Environments '98: Advanced

Database Research Yahiko Kambayashi, Akifumi Makinouchi, Yoshifumi Masunaga, Shunsuke Uemura, Katsumi Tanaka, 1998-03-31 Search Strategies in Mass Communication Jean W. Ward, Kathleen A. Hansen, 1993 Activists in the Data Stream Alice Mattoni, Diego Ceccobelli, 2024-05-02 Available Open Access digitally under CC BY ND licence This book pulls back the curtain on the link between activism media and technology in the quiet times of politics when people are not protesting Introducing the novel concept of the data stream it explores the intricate ways in which activists interact daily with various types of data and how they navigate the impact of digitalization and datafication on today's grassroots politics Through rich empirical data from Greece Spain and Italy **Activists in the Data Stream** makes a nuanced contribution to our understanding of activists daily political engagement in an ever changing media and political landscape **Society and the Internet** Mark Graham, William H. Dutton, 2019-07-24 How is society being reshaped by the continued diffusion and increasing centrality of the Internet in everyday life and work **Society and the Internet** provides key readings for students scholars and those interested in understanding the interactions of the Internet and society This multidisciplinary collection of theoretically and empirically anchored chapters addresses the big questions about one of the most significant technological transformations of this century through a diversity of data methods theories and approaches Drawing from a range of disciplinary perspectives Internet research can address core questions about equality voice knowledge participation and power By learning from the past and continuing to look toward the future it can provide a better understanding of what the ever changing configurations of technology and society mean both for the everyday life of individuals and for the continued development of society at large This second edition presents new and original contributions examining the escalating concerns around social media disinformation big data and privacy Following a foreword by Manuel Castells the editors introduce some of the key issues in Internet Studies The chapters then offer the latest research in five focused sections The Internet in Everyday Life Digital Rights and Human Rights Networked Ideas Politics and Governance Networked Businesses Industries and Economics and Technological and Regulatory Histories and Futures This book will be a valuable resource not only for students and researchers but for anyone seeking a critical examination of the economic social and political factors shaping the Internet and its impact on society **The Search** Lauren Kessler, Duncan McDonald, 1992 Takes an upbeat approach to discovering the information that mass media professionals require whether in public relations advertising broadcast or news reporting It is intended to be of interest to students of journalism and mass communication newswriting and reporting *The Ethics of Coercion in Mass Casualty Medicine* Griffin Trotter, 2007-03-01 Disasters both natural and manufactured provide ample opportunities for official coercion Authorities may enact quarantines force evacuations and commandeer people and supplies all in the name of the public's health When might such extreme actions be justified and how does a democratic society ensure that public officials exercise care and forethought to avoid running roughshod over human rights In *The Ethics of Coercion in Mass Casualty Medicine* Griffin Trotter explores these fundamental questions with

skepticism debunking myths in pursuit of an elusive ethical balance between individual liberties and public security Through real life and hypothetical case studies Trotter discusses when forced compliance is justified and when it is not how legitimate force should be exercised and implemented and what societies can do to protect themselves against excessive coercion The guidelines that emerge are both practical and practicable Drawing on core concepts from bioethics political philosophy public health sociology and medicine this timely book lays the groundwork for a new vision of official disaster response based on preventing and minimizing the need for coercive action
