recognises pictures of people that he shouldn't because he wasn't born yet when they were last seen. He even remembers a name. Then he meets Johann who tells him to cover his tracks. The name he remembers is of a time travelling assassin. Now Drake is in over his head because the fact that he can remember means he also has the latent gift of time travel. But that's not something to get all giddy about like discovering you're a superhero or something. First off, who's going to believe you? For goodness sake, this is real life. So begins Drake's quest to save his best friend from non-existence and stop the assassin from changing the world beyond recognition because now the assassin has murdered Johann and Drake is the only one who can stop him. It's a series of interconnected stories ranging in size from short story to novella. You'll be hooked at the end of the first as it ends in a cliffhanger that can only be resolved in the second. Drake and his friends have to clean up a mess that resulted from the first adventure. If you like time travel stories about down to earth people, this is definitely for you. Space Alliance Christopher Flores, 2017-02-24 *Space Alliance* is a science fiction book that involves four children who were destined to be soldiers. A war in deep space began to spread across the universe, a war between an organization called Space Alliance and a race called the Fallers. The Space Alliance despite everything looked for help throughout the universe and discovered Earth. When Earth was found, an alien man named Arco selected four humans who he believed are capable of helping the Space Alliance to win the war. These four humans he selected were skilled at accomplishing things that a soldier can accomplish with a few talents that each of them possess. Once they were recruited in Arco's way, they were trained during the earliest part of their lives as newborn babies. Read this story and find out if they are able to complete their training in time and win a war.

The Crossroads of Space and Time Charles, Irene Nickerson, 2015-02-13 Captain Bancroft couldn't believe this resort. The beaches were pristine. The rooms were comfortable. Everything was so relaxing. The only area off limits was the northern beaches and an area they called the trench. He asked a Mr Jones why. Mr Jones told him that since he was head of security, he would take him out to the cliffs and show him the reason. While out there, they saw a large sea bird flying over the water. That was when a large shark leaped from the water and snatched it from the air. Mr Jones pointed out that is why the northern beaches and the trench were off limits. Bancroft decided that was a good reason. The rest of the crew was just having a good time. Mrs Svedberg ran the resort like a general. The service staff seemed happy despite the fact that she seemed demanding to work for. He also was confused by the large canus that seemed to have free run of the island. Till he was told they were part of the security detail. Yet he liked what he saw. These Maximus were good at what they did. Bancroft decided he was a lucky bear. At the very least, his life would probably never be boring. He was going to be right.
