Look Listen Think Lower Primary:

Building Blocks for Learning Occupational Therapy Approaches Jill Jenkinson, Tessa Hyde, Saffia

Ahmad, 2008-11-20 Building Blocks for Learning Occupational Therapy Approaches is a resource book for educational staff and pediatric occupational therapists especially those new to the field. It shows how the implications of physical, psychological, social and learning difficulties impact upon children's abilities. This highly practical book will help readers recognize when a student's poor performance within the classroom is a result of a medical condition or underlying motor and perceptual deficits.

Creating Writers in the Primary Classroom Miles Tandy, Jo Howell, 2008-05-12 Teachers in English schools have now had ten years of prescriptive national literacy strategies and it is time for a new approach. This book encourages children from their early years to think of themselves as writers who have something to write and know how to write it. Creating Writers in the Primary Classroom offers an exciting and refreshing approach to teaching writing in the primary school with very practical suggestions to help build a community of writers in your school where everyone writes and loves writing. Building on the research of recent years and with whole curriculum provision, it shows teachers how to actively engage children in the writing process, excite them about what they can achieve and help all children to think of themselves as writers. The book begins with a clear analysis of what real writers really need and has chapters on working outdoors using the very best of children's literature, drama and imaginative play as well as sounds and images. It also features a chapter on practical, productive planning including two case studies that show the approaches in use at schools. Creating Writers in the Primary Classroom is packed with practical advice, games and strategies for the classroom based on the authors' successful experience as teachers and in-service providers. These new approaches will enable teachers to get their children up and moving, experiencing what writers experience, feeling what writers feel and most important of all, writing how writers write.

Meeting the Standards in Primary ICT Steve Higgins, Nick Packard, 2004-12-30 This practical guide to using ICT in the primary classroom addresses all the concerns of student teachers and provides plenty of ideas and advice on how to incorporate ICT into classroom practice on a daily basis. The authors bring together theory and practice to help prospective and new teachers acquire and develop the skills required for using ICT effectively. *Meeting the Standards in Primary ICT* is split into three sections which will help assess the readers' ICT skills, knowledge and understanding, discuss ways of incorporating ICT for teaching across the primary curriculum, help the reader to think about ICT and their own professional learning and development. This book will be an invaluable resource for all student teachers on primary training courses, lecturers and mentors supporting trainees on these courses and newly qualified teachers.
