John Elliot Bingham

Looking At China:

China Walter F. Mondale, 1979 **Looking for Balance** Steve Chan, 2013-07-15 Debate surrounding China's rise and the prospects of its possible challenge to America's preeminence has focused on two questions whether the United States should contain or engage China and whether the rise of Chinese power has inclined other East Asian states to balance against Beijing by alignment with the United States or ramping up their military expenditures By drawing on alternative theoretic approaches most especially balance of threat theory political economic theory and theories of regime survival and economic interdependence Steve Chan is able to create an explanation of regional developments that differs widely from the traditional strategic vision of national interest He concludes that China's primary aim is not to match U.S. military might or the foreign policy influence that flows from that power and that its neighbors are not balancing against its rising power because in today's guns versus butter fiscal reality balancing policies would entail forfeiting possible gains that can accrue from cooperation economic growth and the application of GDP to nonmilitary ends Instead most East Asian countries have collectively pivoted to a strategy of elite legitimacy and regime survival based on economic performance *Looking at China* Jillian Powell, 2007-07-01 Introduces China including the geography people education rural and urban life housing food work and amusements and provides other information about the country **Look Again at China** Willis Church Lamott, 1948 **China's Millions**, 1900 Engineers and Engineering, 1920 *Looking Toward Sunset*, 1883 China Charts the World Fred W. Drake, 2020-03-17 An analysis of Ying huan chih lueh a work on world geography written by the Chinese official Hsu Chi-y and published in 1848 Provides an account of Hsu's life and career and includes a translation of much of Ying huan chih lueh as well **The Urban Code of China** Dieter Hassenpflug, 2012-12-13 When reading the Chinese city which this book sets out to do it is not the well known cities such as Beijing Shanghai and Xi'an that are in the focus of attention but rather the essentially Chinese of the Chinese city those characteristics or attributes that are more or less shared by all Chinese cities The spotlight is on their spatial grammar their syntax in short their code Only by deciphering their common traits a view to the underlying structure of Chinese cities is opened and we can begin to reasonably evaluate and classify the diversity of impressions Deciphering the code of the Chinese city also enables the author to read new Chinese towns designed by Western architects Thus readers are provided with valuable insight on China's booming urbanization and urban development **An appeal for China. Two letters, etc** John Angell James, 1879 My First Girlfriend Nature Satyendra Sonkar, 2017-01-15 The author's first girlfriend nature is the first part of the book He is explaining the beauty of nature The beauty of nature is too beautiful and is never understood by the stupid humans Nature is being polluted by human beings Too much increase of the earth's temperature is a very critical situation for human beings The ice glaciers are melting due to global warming Forests rivers and seas are destroyed by humans alone The beautiful nature is weeping many times but nature can get angry and destroy everything in a second The author warns us that it may

be 2099 and the entire country may be covered by sea or big earthquakes may occur These predictions have been made by some scientists In modern times love and humanity are dying Nature is weeping and upset while the humans are fighting each other The conditions are not good for surviving on the earth His philosophy is to change the human nature and love the beautiful nature The best and most beautiful things in the world cannot be seen or even touched they must be felt with the heart In the second part of the book the name of the story is Anunnaki They came from heaven It deals with the real story of human life in the 5000 BC how human race came on earth The author also tries to explain why the Anunnaki is disappeared This story is too mysterious The history of science and technology and philosophy are used in his books The Anunnaki came to earth and they spread more knowledge science and technology and provided good culture The humans gained too much from them The Anunnaki had long wings and flew in the sky The Anunnaki is the most thrilling topic The new SUPERHERO COMES IN INDIA IT MAY BE 2099 WHEN THE ANUNNAKI COMES BACK TO EARTH **Perspectives on Modern China**

Kenneth Lieberthal,1991 The conveners the editors of this book of the September 1989 Four Anniversaries China Conference in Annapolis asked the contributors to look back from that point in time to consider four major events in modern Chinese history in the perspective of the rapid changes that were shaping the Chinese society economy polity and sense of place in the world in the 1980s a time when China was making rapid strides toward becoming more integrated with the outside world With contributions by distinguished scholars in the field the four anniversaries considered are the High Qing the May Fourth Movement forty years of communism in China and ten years of the Deng era **Passage to China** John Elliot

Bingham,1842 *The China Review, Or, Notes and Queries on the Far East* Nicholas Belfield Dennys,Ernest John Eitel,William C. Barlow,James Dyer Ball,1875 **Narrative of the Expedition to China, from the Commencement of the War to the Present Period; with Sketches of the Manners and Customs of that Singular and Hitherto Almost Unknown Country** J. Elliot Bingham,1842 **The China Review, Or, Notes and Queries on the Far East** ,1874
