pent up domestic pressures for change to emerge in a less charged international environment In addition the chapters study the historical and current evolution of these countries focusing on their success in developing long term pluralistic structures and gauging whether these recent trends are more overnight fads than long lasting advancements

Global Impact of the Portuguese Language Asela de Laguna, 2018-01-16 Within the cultural and literary context of contemporary Portugal and Western literature 1998 was unquestionably the year that Portuguese writing gained international recognition as José Saramago became the first Portuguese writer ever to receive the Nobel Prize in literature Readers who had never thought about Portuguese letters began to consume his books and most importantly opted for expanding their reading lists to include other important writers not only from Portugal but from Portuguese speaking well beyond the borders of Portugal Global Impact of the Portuguese Language is a collection of Portuguese writing that is as rich in content and broad in scope as the diversity of its topics and writing modes of its contributors The book is divided into three major parts Part 1 Different Cultural Perspectives of Portuguese Writing contains thirteen chapters in which the first and

opening one Portugal The New Frontier ably sets the stage for the book by examining from a cultural perspective how Portugal a peripheral country in the new world system serves as a microcosm of the problems of cultural intercommunication in today s world Subsequent chapters are grouped in three categories The Voices of the Writers Critical Approaches to Cames and Fictionalizing the Nation Part 2 Portuguese Language and Literature Outside Portugal comprises one section devoted to the Portuguese language in Africa followed by studies about Portuguese discoveries as part of the historical process of remembering and forging one s identity and finally a comprehensive historical development of Portuguese writing both in Portuguese and English in the United States Part 3 Portuguese Literature and Criticism Available in English Suggested Readings details the recent literary happenings which point to a possible renaissance in Portuguese literary production The concluding part of this volume offers a short comprehensive listing of anthologies general studies and the most popular translations of the best of Portuguese writing from Portugal and Africa This lively volume constitutes a first pioneering effort to contribute to a deepening appreciation and understanding of Portuguese writing Anyone interested in ethnic writing will find this book an invaluable education resource with which to begin an exploration of Portuguese writing in the United States Asela Rodriguez de Laguna is associate professor of Spanish and director of the Hispanic Civilization Language Studies Program She is the author of Notes on Puerto Rican Literature Images and Identities An Introduction and editor of Images and Identities The Puerto Rican in Two World Contexts *Trust in the Capacities of the People, Distrust in Elites* Kenneth Good, 2014-10-15 Democratization is a sociopolitical process and the society that may grow out of it where people make decisions on matters affecting them It is an unending struggle to win such rights and power to hold and to extend them The contending classes are essentially the poor and weak majority of the people and the elite of wealth status and power This book begins with the study of politics in democratic Athens 508 322 BCE and how it revolved around the divisions between an uneducated poor majority of citizens and a small wealthy elite All citizens were deemed equally capable of holding political office and life in democratic Athens was itself an education through the wide political experience a citizen necessarily acquired The second study is of Britain s centuries long and profoundly incomplete democratization polarizing usually the urban poor unequally against the Grandees the oligarchy and subsequent elites A third exemplifier is South Africa beginning in the 1970s 80s when two big processes were going on simultaneously an external armed struggle led by the African National Congress ANC and a path breaking domestic democratization represented by the United Democratic Front and the trade unions The democratization that emerges here is a matter of aspiration and impulse by determined men and women which fail more often than they succeed yet appear again in other times and places Two main models of democracy are in contention A representative from revolving around free elections in which competing elites get themselves elected utilizing their wealth and celebrity The liberal form achieved preeminence in Britain and the United States over some 150 years but is now under serious threat from its own dysfunctions and the alienation of its citizens from its institutions and

their elitist self serving values And there is the participatory model now being approached again since the mid 1970s in many places from Portugal Poland and Czechoslovakia to South Africa Tunisia Egypt and Iceland Many such impulses will fail but they offer hope and on the record immense satisfaction to their participants *The First Global Village* MARTIN PAGE,2011-08-01 Portugal is Europe s south western extremity washed by the Atlantic and warmed by the Mediterranean sun Alone among iberia s ancient kingdoms in its independence from Spain it is a nation about half the size of Florida with two thirds the population Yet over centuries it has influenced the lives of the rest of us far more than many much larger and more powerful countries Lisbon rising Pedro Ramos Pinto,2015-11-01 Lisbon rising explores the role of a widespread urban social movement in the revolutionary process that accompanied Portugal s transition from authoritarianism to democracy It is the first in depth study of the widest urban movement of the European post war period an event that shook the balance of Cold War politics by threatening the possibility of revolution in Western Europe Using hitherto unknown sources produced by movement organisations themselves it challenges long established views of civil society in Southern Europe as weak arguing that popular movements had an important and autonomous role in the process that led to democratisation inviting us to rethink the history and theories of transitions in the region in ways that account for popular agency Lisbon rising will be of interest not only to students of twentieth century European history but across disciplines to students of democratisation social movements and citizenship in political science and sociology **Barbarism and Civilization** Bernard Wasserstein,2009 History
