

# Managing Ethics Challenges in Social Work Organizations

Topic: Sociology | Words: 605 | Pages: 2

## Introduction

Ethics consultation in health care can significantly impact critical outcomes, such as decreasing the length of stay in an intensive care unit and increasing family and healthcare provider satisfaction. Human service professionals seek the knowledge, education, experience, and supervision necessary to ensure effectiveness when working with persons from different cultural backgrounds. Moral, cultural, and legal issues are given in the work of social workers. All those factors should necessarily align with The National Organization for Human Services (NOHS) standards especially considering the respect and inclusivity of the patients. Consultations with colleagues usually help in resolving questions and determine what role the specialist should take to help the patient. Such interprofessional interactions allow for finding creative solutions in case of untypical situations. Managing ethical challenges in social work is rather effective through the comprehensive approach including following NOHS standards, embracing inclusivity in practice, and collaborating with other professionals.

## Common Ethical Dilemmas in Social Work

### Legal Aspects

It is essential to use ethical decision-making procedures to ensure thoughtful decisions (Reamer, 2022). Despite not being legal documents, moral codes can be used to resolve concerns about the conduct of human care providers.
