Knowledge and Project Management Meliha Handzic, Antonio Bassi, 2017-02-23 This book argues that by integrating effective knowledge management KM with project management PM the overall project success rate can be improved significantly It brings together the latest ideas and research on shared approaches to improve performance based on the research and experience of academics and practitioners The structured collection of articles presents novel theoretical approaches and clear empirical evidence of the value of integrating the two distinct fields It enables readers to better understand the need to merge KM with PM and appreciate the benefits It also offers researchers an idea of what lies ahead and how to get there and helps practitioners develop more suitable KM solutions for successful project outcomes

ECKM2014-Proceedings of the 15th European conference on Knowledge Management Carla Vivas,2014-10-01

The world economy in which we are living poses challenges that lead to a realization that more of the same will be difficult to sustain. This provides an illustration that in order to create new or modified knowledge practices strengthen customer relationships and thus positively influence customer satisfaction organizations must be flexible in configuring combining knowledge and knowledge structures in a way that is appropriate for delivering value to the customer. It must simultaneously develop effective strategies for updating the knowledge of its staff members necessary for underpinning the creation and delivery of appropriate knowledge services. Thus unlearning forgetting becomes a critical means for organizational success. The ECKM community of scholars has already initiated dialogue that links its particular strengths to innovation issues. This conference aims to further that dialogue by attracting leading edge work that leverages the ECKM community's in depth understanding of learning and unlearning to better understand knowledge management. Our aim is to stimulate breakthrough research streams linking learning unlearning and knowledge management. How can organizations tailor use and extend techniques and tools from knowledge management for improving their business practices and processes. Building upon existing work on knowledge management KM and organizational learning the conference will promote interdisciplinary approaches from computer science and information systems business management and organization science as well as cognitive science. Emphasis will be put on systematic learning from experience KM tools and KM success factors. A special interest belongs to knowledge management initiatives which are lightweight i.e. do not place considerable additional burden on users and KM experts allow an incremental adoption i.e. do not require large up front investment before any return of investment is at least visible and are flexible regarding frequent changes in experts and topics. Continuing the success of the ECKM conference series since 2000 the 2015 conference will provide an international communication forum bringing together academia and industry for discussing the progress made and addressing the challenges faced by continuous learning in knowledge intensive organizations.

Recent Library Additions ,1992 Project Scheduling Jan

Weglarz,2012-12-06 Project scheduling problems are generally speaking the problems of allocating scarce resources over time to perform a given set of activities. The resources are nothing other than the arbitrary means which activities complete for. Also the activities can have a variety of interpretations. Thus project scheduling problems appear in a large spectrum of real world situations and in consequence they have been intensively studied for almost forty years. Almost a decade has passed since the multi author monograph R Slowinski 1 W glarz eds Advances in Project Scheduling Elsevier 1989 summarizing the state of the art across project scheduling problems was published. Since then considerable progress has been made in all directions of modelling and finding solutions to these problems. Thus the proposal by Professor Frederick S Hillier to edit a handbook which reports on the recent advances in the field came at an exceptionally good time and motivated me to accept the challenge. Fortunately almost all leading experts in the field have accepted my invitation and

presented their completely new advances often combined with expository surveys Thanks to them the handbook stands a good chance of becoming a key reference point on the current state of the art in project scheduling as well as on new directions in the area The contents are divided into four parts The first one dealing with classical models exact algorithms is preceded by a proposition of the classification scheme for scheduling problems **The Cumulative Book Index** ,1996 A world list of books in the English language *Byte* ,1992 **TOP SECRET Resumes & Cover Letters, the Third Edition Ebook** Steven Provenzano CPRW/CEIP,2012 As seen on in CNBC CNN WGN The Wall Street Journal and endorsed by The Chicago Tribune the new edition of Top Secret Resumes is now the complete career marketing tool for all job seekers This is the only book of its kind that includes a free consultation by the author Includes more than 100 high impact Resumes and Cover Letters for virtually all professions 250 8 5 x 11 pages total Bonus includes tips on effective LinkedIn Profiles Networking Career Marketing Interviewing and Online Resources Covers Executive Positions Technical Non Technical Management Engineering IT Software Hardware design Sales and Marketing Teachers Nurses HR Public Relations and more many with documented results Steven Provenzano s books have sold more than 100 000 copies and remain essential guides for serious job seekers He has written more than 5000 resumes for clients worldwide for over 20 years and the full cost of this book is reimbursed with any resume writing service by the author at <https://www.execareers.com> *Computerworld* ,1993-01-25 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network *InfoWorld* ,1998-04-06 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Computerworld** ,1993-03-08 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Computerworld** ,1997-08-25 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network *Computerworld* ,1996-03-25 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **InfoWorld** ,2003-02-24 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects *Computerworld* ,1996-08-26 For more than 40 years Computerworld has been the leading source of technology
