Improving Schools in Difficulty Paul Clarke, 2005-04-15 For the last few years there has been wave after wave of reform aimed at improving a lot of the schools struggling at the bottom of the ladder of performance and despite what can be interpreted as best intentions the problem persists As a social problem it draws down significant sums of public money it exercises many talented people and yet time after time we find that three four maybe five years down the road after extended efforts the impact of the work diffuses and the challenges

remain doggedly evident in people's daily lives. It suggests that perhaps something is wrong in our interpretation in our analysis in our approach and our consequent measure of effect of our activity with difficult schools. **Improving Schools in Difficulty** is structured around two parts: part one examines the principles of engagement with schools in difficulty and part two looks at ways of improving the process of supporting schools in difficulty.

Creating the Conditions for School Improvement Mel Ainscow, John Beresford, Alma Harris, David Hopkins, Geoff Southworth, Mel West, 2013-12-19. First Published in 2001. This is the second edition of this school's improvement handbook of staff development activities by the IQEA Improving Education for All project. This book is not about what changes should be introduced into a school but rather about creating the conditions for supporting those changes which schools or individuals believe should be introduced. To be effective at managing change, schools and teachers need to modify the internal conditions of the school at the same time as introducing changes in teaching or curriculum. The book therefore provides ideas and materials to help colleagues in school to create such conditions and suggests a strategic approach.
