Visscher, Andrew Finegan, Christopher O'Mahony, 2009-04-01 Evolution of Information Technology in Educational Management As the editors of this volume we are very happy to publish a selection of the papers that were presented at the eighth Conference of Working Group 3 7 of the International Federation for Information Processing which was held in July 2008 The focus of Working Group 3 7 is on ITEM Information Technology in Educational Management for more information please visit our website http item weeruw org and the theme of its 2008 conference was on the Evolution of Information Technology in Educational Management Our Working Group started its activities officially we were not an IFIP Working Group at that time in 1994 in Israel so it made sense to look at how ITEM has evolved over the years and to reflect on what its future may be The conference took place in Darwin northern Australia which even during the Australian winter is a very pleasant location for having a conference The town of Darwin was given its name by the Captain of the Beagle the ship

on which Darwin travelled when he made the investigations on which he based his Theory of Evolution who came to the area and named the town after the giant of science he admired Leadership Approaches to Negotiate Challenges in a Changing Education Landscape Leentjie van Jaarsveld, Kobus Mentz, Charl C. Wolhuter, 2020-12-31 The argumentative point of departure of this scholarly book is the common conviction of specialists in the field of education in South Africa that the national education system is not at a satisfactory level in both the academic and the public discourse Such allegations are made and frequently stronger adjectives than non satisfactory are used Results of international test series in which South Africa has participated such as the 2015 TIMSS tests confirm the negative verdicts found in the public and scholarly discourse This book aims to argue that although the lack of performance could be attributed to a multiplicity of factors one factor that can make a difference in the achievement levels obtained by learners in schools is leadership The book demonstrates that a particular problem of both the scholarly and the public discourse on education in South Africa is an overtone of defeatism or resignation blaming all ills in the education system and educational institutions on historical legacies and or contextual factors such as socio economic deprivation in the catchment areas of schools or poor resources and infrastructure This collected work was inspired by a recently published spate of articles on top performing schools including top performing schools in rural communities in which it was demonstrated that good leadership can overcome such contextual and other challenges The book unpacks the issue of leadership in South African schools from a variety of perspectives thus contributing to the development of the scholarly discourse on Educational Leadership in South Africa The target audience of the book is scholars of Educational Leadership The research reported in the chapters draw on a wide range of methodologies including empirical survey research questionnaires and interviews critical literature surveys and the comparative method Interdisciplinary Approach to Fostering Change in Schools Güneş, Ahmet Melih, Yünkül, Eyup, 2024-08-09 In today s rapidly evolving educational landscape traditional methods need help to keep pace with the dynamic needs of students and society Schools are facing unprecedented challenges in adapting to these changes leading to a growing demand for innovative approaches to education Interdisciplinary Approach to Fostering Change in Schools identifies this pressing issue It offers a comprehensive solution by harnessing the power of multidisciplinary perspectives This book understands that the complexity of modern education demands a multifaceted approach It brings together insights from diverse disciplines such as educational management technology social studies and language teaching to provide a holistic view of the challenges schools face today Importantly each chapter offers practical strategies and solutions grounded in research and real world experience This emphasis on practicality reassures educators researchers and policymakers that the book s content is not just theoretical but can be applied effectively in their professional context Managing Finance and Resources in Education Marianne Coleman, Lesley Anderson, 2000-04-14 The book provides an excellent wide and stimulating set of readings and would be useful to anyone taking forward Unit 3 or the Accelerated Route of SQH SQH

Newsletter This is a useful addition to the literature on finance and resource management in education Those whose work involves managing resources and finance in schools and colleges will find this a useful or even indispensable addition to their bookshelves whether they are heads principals or middle managers Mentoring and Tutoring This book will provide readers with knowledge and understanding of the theory and practice of managing finance resources and stakeholders in schools and colleges Written specifically for those studying for an academic qualification at Masters level in educational management it provides self study material and links to other key texts in the field The authors deal with the links between finance resources and stakeholders in the context of school and college self management Examples are drawn from international settings as well as from the United Kingdom Building on an examination of theoretical perspectives practical considerations and applications are examined in a format which encourages the reader to explore the context of their own educational institution This book is a core text for the University of Leicester MBA in Educational Management
