**Annual Review of United Nations Affairs 2009/2010 VOLUME I** Joachim Muller, Karl P. Sauvant, 2011-04-15 a The set generally Since the publication of its first edition in 1950 the Annual Review of United Nations Affairs has stood as the authoritative resource for scholars students and practitioners researching the latest developments of that august body From the insightful introduction prepared each year by a distinguished expert on UN affairs to the full text presentation of reports and resolutions and the helpful subject index ARUNA provides a practical tour of each year s U N actions and debates The expert selection of documents by Joachim Muller and Karl Sauvant and the topic based organization of those documents make any researcher s task much easier than

the vast searching sorting and pruning required by the UN's website. The series' topic-based organization of the materials and subject index lend invaluable guidance to all researchers. ARUNA presents comprehensive documentation of the work of the UN on an annual basis starting in September of each year with the beginning of the regular sessions of the General Assembly. Coverage of the UN's key organs is provided including the General Assembly, the Security Council, the Economic and Social Council (ECOSOC), the International Court of Justice and the UN Secretariat. In addition, selected reports of intergovernmental bodies and expert groups are included. Solely official UN documentation is used. ARUNA occupies a special place in the publications on the work of the UN as it allows readers to obtain an overview of the principal developments in its key organs. This makes it an important reference source for policy makers and academic researchers. b

The 2009/2010 volumes. This year's edition continues to focus on the world financial crisis and the reaction of the United Nations and the international financial system to that crisis. The Overview to this year's edition, written by Joachim Müller and Karl Sauvant, examines the changing role of the United Nations and explores ways in which the management of the financial crisis has impacted that role. The Introduction to this year's edition also examines the effects of this crisis; this Introduction is drawn from the Report of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System as well as a slightly edited version of a Preface to that report written by Professor Joseph E. Stiglitz. The Introduction discusses the findings of the Commission and proposes the creation of a new institution, a Global Economic Coordination Council, which would be supported by an International Panel of Experts with ageographically diverse membership that would represent the interests of emerging and developing countries as well as those of developed countries. Dr. Joseph E. Stiglitz, who served as Chairman of the Commission and wrote the Preface to the Commission's Report, holds joint professorships at Columbia University's Economics Department and its Business School. He is also Co-founder and Co-President of the Initiative for Policy Dialogue. From 1997 to 2000, he was the World Bank's Senior Vice President for Development Economics and Chief Economist. From 1995 to 1997, he served as Chairman of the U.S. Council of Economic Advisers and as a member of President Clinton's cabinet. From 1993 to 1995, he was a member of the Council of Economic Advisers. He was previously a professor of economics at Stanford, Princeton, Yale, and All Souls College. Dr. Stiglitz is also a leading scholar of the economics of the public sector and was awarded the Nobel Prize in Economics in 2001, in addition to the American Economic Association's biennial John Bates Clark Award in 1979. His recent publications include *Freefall: America, Free Markets, and the Sinking of the World Economy* (2010), *Making Globalization Work* (2006), *Fair Trade for All* (2005), and *Globalization and its Discontents* (2002). The 2009/2010 volumes of ARUNA therefore also devote considerable attention to the financial crisis as well as other international crises. Among the documents in the 2009/2010 volumes are the complete General Assembly resolutions as well as the Report and Resolutions of the Security Council and the Economic and Social Council (ECOSOC). Annual Reports of note include reports of the United Nations Children's Fund (UNICEF), the UN

Development Programme and UN Population Fund the UN High Commissioner for Human Rights the UN High Commissioner for Refugees the UN Relief and Works Agency for Palestine Refugees in the Near East and the World Food Programme Mr Muller and Dr Sauvant have also selected progress reports on key peacekeeping peace building and political missions including those for Afghanistan the Democratic Republic of the Congo Haiti Iraq the Middle East Sudan and West Africa c Volume I this volume This volume contains the following Note ARUNA 2009 2010 Overview The United Nations Year 2009 2010 Shift from center stage Joachim Muller and Karl P Sauvant Introduction The United Nations and the international financial crisis Extracts from the final report produced by the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System as well as from a preface written by Joseph E Stiglitz Calendar of Conferences and Meetings of the United Nations 15 September 2009 to 16 September 2010 List of Abbreviations Chapter 1 General Assembly Sixty fourth Session 1 Statement to the General Assembly by Mr Ali Abdussalam Treki President of the General Assembly following the opening of the sixty fourth session A 64 PV1 15 September 2009 2 Agenda of the sixty fourth session of the General Assembly A 64 251 18 September 2009 and Add 1 1 December 2009 3 Resolutions Adopted by the General Assembly at Its Sixty fourth Session Resolutions 64 1 through 64 103 d Guest Authors of previous years editions Each annual edition of ARUNA is introduced by a Guest Author a distinguished expert on UN affairs who highlights the outstanding themes of the year in review Together with an overview provided by the editors this introduction is intended to facilitate access to the material and above all to make it easier for users of ARUNA to see the forest for the trees This year's ARUNA includes excerpts from the Report of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System 21 Sept 2009 and from a slightly edited version of a Preface to that report written by Professor Joseph E Stiglitz However the roster of distinguished experts who have contributed this introduction in the past is also worthy of mention Jose Antonio Ocampo ARUNA 2008 2009 edition Professor Jose Antonio Ocampo is Co President of the Initiative for Policy Dialogue He is also Professor in the School of International and Public Affairs and Fellow of the Committee on Global Thought at Columbia University Professor Ocampo previously held the positions of Under Secretary General of the United Nations for Economic and Social Affairs Executive Secretary of the United Nations Economic Commission for Latin America and the Caribbean and Minister of Finance Agriculture and Planning of Colombia In 2009 he was a member of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System Professor Ocampo is also the author of numerous books and articles on macroeconomics policy and theory economic development international trade and economic history His recent publications include Stability with Growth Macroeconomics Liberalization and Development with Joseph E Stiglitz Shari Spiegel Ricardo French Davis and Deepak Nayyar New York Oxford University Press 2006 Jeffrey D Sachs ARUNA 2007 2008 edition Professor Jeffrey D Sachs is Director of the Earth Institute at Columbia University and

Special Advisor to the Secretary General of the UN on the Millennium Development Goals Professor Sachs's introduction to ARUNA 2007 2008 was titled Towards a New Global Protocol on Climate Change in which he argued that solving the climate change problem will demand four steps: scientific consensus, public awareness, the development of alternative technologies and a global framework for action. He dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the Kyoto Protocol. Professor Sachs argued that climate change crises can only be solved through the goals, leadership and treaty mechanisms of the UN. Edward C. Luck, ARUNA 2006 2007 edition. Professor Edward C. Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy. From 1984 to 1994 he served as President and Chief Executive Officer of the UN Association of the USA. UNA USA Professor Luck's introduction to ARUNA 2006 2007 covered The responsible sovereign and the responsibility to protect in which he addressed the scope and content of what was agreed at the 2005 World Summit, the implications of the responsibility to protect (RtoP) for notions of state sovereignty and some of the conceptual, architectural and policy challenges then facing UN Secretary General Ban Ki-moon's commitment to operationalizing the responsibility to protect and translating it from words to deeds. Louise Frechette, ARUNA 2005 2006 edition. Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance Innovation, Waterloo, Ontario. Until March 2006 she was the first Deputy Secretary General of the UN; before that she was Permanent Representative of Canada to the UN. **International Law of Sharks** Erika J. Techera, Natalie Klein, 2017-04-18. In International Law of Sharks, Erika J. Techera and Natalie Klein provide an in-depth analysis of the current legal frameworks that relate to these important species. The authors offer ways in which to overcome obstacles that prevent existing laws from working better and identify best practice global governance options while highlighting opportunities for legal reform. Scientific evidence indicates that sharks play a critical role in maintaining marine ecosystem health, yet current governance regimes have not been effective and many shark species continue to diminish. In this context, effective laws are critical to improve sharks' conservation status. This volume also explores the broader relevance of oceans governance by identifying appropriate legal frameworks and regulatory mechanisms that balance conservation and utilisation of marine species in general.

**Red Sea Sharks** Jeremy Stafford-Deitsch,1999 A comprehensive guide to the sharks of the Red Sea It contains information under the following headings sharks and divers where are sharks found on Red Sea coral reefs how likely is a diver to see a shark on a Red Sea reef are the sharks seen on reefs confined to reefs is a shark doomed to swim or sink can sharks rest on the bottom sensory mechanisms reproduction and development sharks and their escorts conservation does the great white shark occur in the Red Sea diving with sharks danger and diet warning signs attacking to feed attacks on divers time of day does size matter feeding sharks sharks and marine mammals when things go wrong safety tips

*Chondrichthyes* Luis Fernando Rodrigues-Filho,João Bráullio De Luna Sales,2017-12-20 Chondrichthyes are a group of cartilaginous fish where we have sharks rays and chimeras as members This group plays an important role in aquatic ecology as they act as predators throughout the food chain e g sharks However many populations of Chondrichthyes are threatened by several factors increased direct fishing high mortality rate as accompanying fauna marine pollution habitat destruction etc These declines are evident in many parts of the world and have come to the attention of scientists conservation organizations the media and the general public Fisheries legislation regulating international fisheries markets has been amended to provide greater protection for this group along with other species of fish However little is known about these species which reinforces the importance of studies in order to have a better understanding of the elasmobranch stocks as well as to identify the influences of the anthropic action of fishing In response to knowledge on the low sustainability of cartilaginous fish fisheries on a global scale FAO has developed an international plan of action for the management and conservation of these fish with the aim of developing and implementing national plans of action to ensure management and conservation of these stocks having as main recommendation the collection of information about the Chondrichthyes especially the sharks Even so this group is little known in terms of biodiversity ecology behavior and a host of other characteristics relevant to this taxon which is very worrying Chondrichthyes Multidisciplinary Approach attempts to portray to the readers up to date information on Chondrichthyes to promote an overview of the current taxon serving as an indispensable source of access to more accurate and detailed information on shark rays and chimeras      **Science, Information, and Policy Interface for**

**A Fishery Manager's Guidebook** Kevern L. Cochrane, Serge M. Garcia, 2009-06-15 Co published with the Food and Agriculture Organization of the United Nations Fisheries management is the process that has evolved to try to ensure that fisheries operate in a manner that provides the immediate benefits in a sustainable manner The widely accepted goal is that the full range of benefits should not only be available for this generation but for generations to come Fisheries management has been successful in some cases but there have also been many many cases of failure This volume is intended to contribute to improving this unsatisfactory state by addressing the widespread need for information and guidance on the broad and often complex task of fisheries management It is an updated and expanded edition of the first version of A fishery manager's guidebook which was published as a FAO Fisheries Technical Paper in 2002 The major part of this new edition is divided into five parts intended to cover the range of concerns tools and techniques essential to the modern fisheries manager whether that manager is an individual or a formal or informal group Following the Introduction Part I examines the primary dimensions of fisheries biological ecological social and economic Part II looks at the legal and institutional characteristics of fisheries Part III explores the tools that fishery managers have to achieve the objectives expected from a fishery Part IV discusses the role of scientific information of indicators and reference points Part V moves into implementation of fisheries management and includes a chapter on special considerations in small scale fisheries This landmark publication is aimed at fishery managers and scientists All libraries in research establishments and universities where fisheries and aquatic sciences are studied and taught will need copies of this important volume Fisheries around the world make essential contributions to human well being including the provision of basic food supplies employment recreational opportunities foreign currency and others providing benefits to hundreds of millions of people Despite these benefits our record of managing fisheries so that the benefits can be sustained has been poor at best and most fisheries around the world are experiencing serious ecological social or economic problems and usually all three Today there is global concern about the state of fishery resources and aquatic ecosystems their resilience to future stresses such as climate change and their ability to continue to provide benefits

Annual Review of United Nations Affairs 2008/2009 Joachim Müller, Karl P. Sauvant, 2010-04-15 Since the publication of its first edition in 1950 the Annual Review of United Nations Affairs has stood as the authoritative resource for scholars students and practitioners researching the latest developments of that august body From the insightful introduction prepared each year by a distinguished expert on UN affairs to the full text presentation of reports and resolutions and the helpful

subject index ARUNA provides a practical tour of each year's UN actions and debates. The expert selection of documents by Joachim Müller and Karl Sauvant and the topic-based organization of those documents make any researcher's task much easier than the vast searching, sorting and pruning required by the UN's website. The series' topic-based organization of the materials and subject index lend invaluable guidance to all researchers. ARUNA presents a comprehensive documentation of the work of the UN on an annual basis starting in September of each year with the beginning of the regular sessions of the General Assembly. Coverage of the UN's key organs is provided including the General Assembly, the Security Council, the Economic and Social Council, ECOSOC, the International Court of Justice and the UN Secretariat. In addition, selected reports of intergovernmental bodies and expert groups are included. Solely official UN documentation is used. ARUNA occupies a special place in the publications on the work of the UN; it allows readers to obtain an overview of the principal developments in its key organs. This makes it an important reference source for policy makers and academic researchers. The highlight of this year's edition is the introductory essay written by the highly esteemed José Antonio Ocampo, who is Professor of Professional Practice in International and Public Affairs, Director of the Program in Economic and Political Development at the School of International and Public Affairs and Fellow of the Committee on Global Thought, Columbia University. Professor Ocampo previously held the positions of Under Secretary General of the United Nations for Economic and Social Affairs, Executive Secretary of the United Nations Economic Commission for Latin America and the Caribbean and Minister of Finance of Colombia. In 2009 he was a member of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System. Professor Ocampo is also the author of numerous books and articles on macroeconomics, policy and theory, economic development, international trade and economic history. His recent publications include *Stability with Growth: Macroeconomics, Liberalization and Development* with Joseph E. Stiglitz, Shari Spiegel, Ricardo Ffrench Davis and Deepak Nayyar (New York: Oxford University Press, 2006). Professor Ocampo, relying on his expertise as a policy economist and his own considerable experience working on economic issues at the United Nations, has written an incisive introductory essay focusing on the United Nations and the global economic crisis. Professor Ocampo's essay examines the history of the economic policy recommendations of UN institutions and concludes that they have often been more far-sighted and accurate than those of the Bretton Woods Institutions, including the World Bank and the International Monetary Fund. He applies this analysis in particular to the recent global financial crisis and shows how the Monterrey Consensus of 2002, which once again made the UN a forum for global economic issues, gave serious consideration to the concerns of developing countries and set many goals that might have helped to stave off the global financial crisis if they had been more actively pursued. Professor Ocampo also examines the UN's role in the wake of the global financial meltdown, particularly with regard to the Doha follow-up Conference and the Commission of Experts on Reforms of the International Monetary and Financial System convened by the General Assembly and led by Joseph Stiglitz. In spite of some

resistance to these initiatives from the United States and other developed countries Professor Ocampo advocates in this essay for a more influential role for the UN's institutions in global financial reform especially in light of their superior track record in anticipating economic problems resulting from the inherent tendency of financial markets to experience boom bust cycles The 2008 2009 volumes of ARUNA therefore also devote considerable attention to the financial crisis as well as other international crises Among the documents in the 2008 2009 volumes are the complete General Assembly resolutions as well as the Report and Resolutions of the Security Council and the Economic and Social Council ECOSOC Annual Reports of note include reports of the United Nations Children's Fund UNICEF the UN Development Programme and UN Population Fund the UN High Commissioner for Human Rights the UN High Commissioner for Refugees the UN Relief and Works Agency for Palestine Refugee in the Near East and the World Food Programme Mr Muller and Dr Sauvant have also selected progress reports on key peacekeeping peace building and political missions including those for Afghanistan the Democratic Republic of the Congo Haiti Iraq Kosovo the Middle East Somalia Sudan and West Africa Each annual edition of ARUNA is introduced by a Guest Author a distinguished expert on UN affairs who highlights the outstanding themes of the year in review Together with an overview provided by the editors this introduction is intended to facilitate access to the material and above all to make it easier for users of ARUNA to see the forest for the trees As has been mentioned above ARUNA is fortunate this year to have Jose Antonio Ocampo as the author of its introduction but the roster of distinguished experts who have contributed this introduction in the past is also worthy of mention Jeffrey D Sachs ARUNA 2007 2008 edition Professor Jeffrey D Sachs is Director of the Earth Institute at Columbia University and Special Advisor to the Secretary General of the UN on the Millennium Development Goals Professor Sachs's introduction to ARUNA 2007 2008 was titled Towards a New Global Protocol on Climate Change in which he argued that solving the climate change problem will demand four steps scientific consensus public awareness the development of alternative technologies and a global framework for action He dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the Kyoto Protocol Professor Sachs argued that climate change crises can only be solved through the goals leadership and treaty mechanisms of the UN Edward C Luck ARUNA 2006 2007 edition Professor Edward C Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy From 1984 to 1994 he served as President and Chief Executive Officer of the UN Association of the USA UNA USA Professor Luck's introduction to ARUNA 2006 2007 covered The responsible sovereign and the responsibility to protect in which he addressed the scope and content of what was agreed at the 2005 World Summit the implications of the responsibility to protect RtoP for notions of state sovereignty and some of the conceptual architectural and policy challenges then facing UN Secretary General Ban Ki moon's commitment to operationalizing the responsibility to protect and translating it from words to deeds Louise Frechette ARUNA 2005 2006 edition Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance
