**PSYCHOLOGICAL SUPPORT BY COGNITIVE BEHAVIORAL THERAPY FOR XERODERMA PIGMENTOSUM** Edenilson Brandl, In a world where the complexities of genetic disorders are increasingly recognized Xeroderma Pigmentosum XP stands out as a profound challenge not only due to its physical manifestations but also for the psychological toll it takes on those affected XP is a rare genetic condition characterized by extreme sensitivity to ultraviolet UV rays

leading to a heightened risk of skin cancers and other related health issues. However, the impact of this disorder extends far beyond the physical; it often results in profound psychological distress, including anxiety, depression, and social isolation. This book aims to bridge the gap between the biological realities of Xeroderma Pigmentosum and the psychological support that can be offered through Cognitive Behavioral Therapy (CBT). By integrating the latest findings in genetics, epigenetics, and behavioral science, this text seeks to provide a comprehensive resource for clinicians, caregivers, and individuals living with XP. The journey through Xeroderma Pigmentosum is not merely about managing symptoms; it is about fostering resilience, self-acceptance, and emotional well-being. This book explores various facets of psychological support, offering practical strategies and therapeutic tools that can empower individuals to navigate the complexities of living with a genetic disorder. As we delve into topics such as trauma, genetic counseling, and personalized therapeutic approaches, it is my hope that readers will find solace and strength. This work is designed not only to educate but also to inspire hope and encourage a proactive approach to mental health. I would like to extend my gratitude to the countless researchers, clinicians, and individuals who have shared their insights and experiences, enriching this book with their knowledge. Their contributions remind us that while genetic disorders like Xeroderma Pigmentosum present significant challenges, they also provide opportunities for growth, understanding, and compassion. Thank you for embarking on this journey with me. Together, let us strive to illuminate the path toward psychological support and well-being for those affected by Xeroderma Pigmentosum.
