The Great Work

Thomas Berry, 2011-08-10 Thomas Berry is one of the most eminent cultural historians of our time Here he presents the culmination of his ideas and urges us to move from being a disrupting force on the Earth to a benign presence This transition is the Great Work the most necessary and most ennobling work we will ever undertake Berry s message is not one of doom but of hope He reminds society of its function particularly the universities and other educational institutions whose role is to guide students into an appreciation rather than an exploitation of the world around them Berry is the leading spokesperson for the Earth and his profound ecological insight illuminates the path we need to take in the realms of ethics politics economics and education if both we and the planet are to survive God is Green Bob Shore-Goss, 2016-10-28 At this time of climate crisis here is a practical Christian ecospirituality It emerges from the pastoral and theological experience of Reverend Robert Shore Goss who worked with his congregation by making the earth a member of the church by greening worship and by helping the church building and operations attain a carbon neutral footprint Shore Goss explores an ecospirituality grounded in incarnational compassion Practicing incarnational compassion means following the lived praxis of Jesus and the commission of the risen Christ as Gardener Jesus becomes the green face of God Restrictive Christian spiritualities that exclude the earth as an original blessing of God must expand This expansion leads to the realization that the incarnation of Christ has deep roots in the earth and the fleshly or biological tissue of life This book aims to foster ecological conversation in churches and outlines the following practices for congregations meditating on nature inviting sermons on green topics covenanting with the earth and retrieving the natural elements of the sacraments These practices help us recover ourselves as fleshly members of the earth and the network of life If we fall in love with God s creation says Shore Goss we will fight against climate change Reincarnation in Tibetan Buddhism Ruth Gamble, 2018-07-09 Reincarnation in Tibetan Buddhism examines how the third Karmapa hierarch Rangjung Dorj 1284 1339 transformed reincarnation from a belief into a lasting Tibetan institution Born the son of an itinerant low caste potter Rangjung Dorj went on to become a foundational figure in Tibetan Buddhism and a teacher of the last Mongolian emperor He became renowned for his contributions to Buddhist philosophy literature astrology medicine architecture sacred geography and manuscript production But as Ruth Gamble demonstrates his most important legacy was the transformation of the Karmapa reincarnation lineage to ensure that after his death subsequent Karmapas were able to assume power in the religious institutions he had led The inheritance model of reincarnation instituted by Rangjung Dorj changed the Tibetan Plateau s power relations which until that time had been based on family associations and created a precedent for later reincarnate institutions including that of the Dalai Lamas Drawing on Rangjung Dorj s hitherto untranslated autobiographies and autobiographical songs this book shows that his reinvention of reincarnation was a self conscious and multi faceted project made possible by Rangjung Dorj s cultural social and political standing and specific historical and geographical circumstances Exploring this combination of agency and historical coincidence this is the first full length study of the

development of the reincarnation institution **Interdisciplinary Models and Tools for Serious Games: Emerging Concepts and Future Directions** Van Eck, Richard, 2010-03-31 This book discusses the need for interdisciplinary awareness in the study of games and learning Provided by publisher *All the Colors of Life* Shirley J.
