Manet Manette Carol M. Armstrong, Edouard Manet, 2002-01-01 Manet a founding father of modernism is one of the towering figures of 19th century art In this volume Carol Armstrong looks closely at Manet's works to uncover a view not only of the artist but also of modernity itself As she places his art within frameworks of colour the feminine Other the Manette in Manet and consumerism Armstrong seeks to expand and revise our understanding of this artist as a painter of modern life

Perspectives on Manet Therese Dolan, 2017-07-05 Bringing forth fresh perspectives on Manet's art by established scholars this volume places this compelling and elusive artist's painted *uvre* within a broader cultural context and links his artistic preoccupations with literary and musical currents Rather than seeking consensus on his art through one methodology or focusing on one crucial work or period this collection investigates the range of Manet's art in the context of his time and considers how his vision has shaped subsequent interpretations Specific essays explore the relationship between Manet and Whistler Emile Zola's attitude toward the artist Manet's engagement with moral and ethical questions in his paintings and the heritage of Charles Baudelaire and Clement Greenberg in critical responses to Manet Through these and other analyses this volume illuminates the scope of Manet's career and indicates the crucial position the artist held in generating a modernist avant garde aesthetic

"Rival Sisters, Art and Music at the Birth of Modernism, 1815-1915" James H. Rubin, 2017-07-05 Introducing the concept of music and painting as rival sisters during the nineteenth century this interdisciplinary collection explores the productive exchange from rivalry to inspiration to collaboration between the two media in the age of Romanticism and Modernism The volume traces the relationship between art and music from the opposing claims for superiority of the early nineteenth century to the emergence of the concept of synesthesia around 1900 This collection puts forward a more complex history of the relationship between art and music than has been described in earlier works including an intermixing of models and distinctions between

approaches to them Individual essays from art history musicology and literature examine the growing influence of art upon music and vice versa in the works of Berlioz Courbet Manet Fantin Latour Rodin Debussy and the Pre Raphaelites among other artists

Marketing Modernism in Fin-de-Siècle Europe Robert Jensen, 2022-02-08 In this fundamental rethinking of the rise of modernism from its beginnings in the Impressionist movement Robert Jensen reveals that market discourses were pervasive in the ideological defense of modernism from its very inception and that the avant garde actually thrived on the commercial appeal of anti commercialism at the turn of the century The commercial success of modernism he argues depended greatly on possession of historical legitimacy The very development of modern art was inseparable from the commercialism many of its proponents sought to transcend Here Jensen explores the economic aesthetic institutional and ideological factors that led to its dominance in the international art world by the early 1900s He emphasizes the role of the emerging dealer gallery market and of modernist art historiographies in evaluating modern art and legitimizing it through the formation of a canon of modernist masters In describing the canon building of modern dealerships Jensen considers the new ideological dealer and explores the commercial construction of artistic identity through such rhetorical concepts as temperament and independent art and through such institutional structures as the retrospective His inquiries into the fate of the juste milieu a group of dissidents who saw themselves as true heirs of Impressionism and his look at a new form of art history emerging in Germany further expose a linear dealer oriented history of modernist art constructed by or through the modernists themselves

Trauma and Visuality in Modernity Lisa Saltzman, Eric M. Rosenberg, 2006 Essays exploring the role of trauma in modern art

Manet Édouard Manet, 2011 Obviously unique erotic and political highly autobiographical at times ironic and always turned toward the public space Manet's art was also playful To gamble to take risks and to collect the winnings if possible all three things were vital to this man of great ambition The former sailor navigated by sight always in open waters No retreat no safe haven no evasion Manet feared his doubts less than he feared failure and routine To become tied down to some formula or particular genre would have been for him the worst way of giving up A revolutionary certainly a history painter in his own way he was above all a Salon painter ready to do battle with the jury and the public so as to impose the Modern into great art

Modernism's History Bernard Smith, 1998 Encompassing movements from post impressionism to post modernism eminent and widely published art historian Bernard Smith has written a sweeping history a reformulation of art history in the twentieth century

The Truth Is Always Grey Frances Guerin, 2018-01-30 Changing how we look at and think about the color grey Why did many of the twentieth century's best known abstract painters often choose grey frequently considered a noncolor and devoid of meaning Frances Guerin argues that painters including Jasper Johns Cy Twombly Agnes Martin Brice Marden Mark Rothko and Gerhard Richter select grey to respond to a key question of modernist art What is painting By analyzing an array of modernist paintings Guerin demonstrates that grey has a unique history and a legitimate identity as a color She traces its use by painters as far back as

medieval and Renaissance art through Romanticism to nineteenth and twentieth century modernism to show how grey is the perfect color to address the questions asked by painting within art history and to articulate the relationship between painting and the historical world of industrial modernity A work of exceptional erudition breadth and clarity presenting an impressive range of canonical paintings across centuries as examples The Truth Is Always Grey is a treatise on color that allows us to see something entirely new in familiar paintings and encourages our appreciation for the innovation and dynamism of the color grey

Writing Back to Modern Art Jonathan Harris, 2005-10-09 Here for the first time is a full length study of the critical modernisms of the three leading art writers of the second half of the twentieth century which helps us build a better understanding of the development of modern art writing and its relation to the post modern in art and society since the 1970s Focusing on canonical modern artists such as Manet Cezanne Picasso and Pollock this book provides an important understanding of writing and criticism in modern art for all students and scholars of art theory and art history Mainstay issues discussed include aesthetic evaluation subjectivity and meaning in art and art writing Jonathan Harris examines key discourses and identifies points of significant overlap as well as sharp disjunction between the critics Developing the notions of good and bad complexity in modernist criticism *Writing Back to Modern Art* creates ways for us to think outside of these discourses of value and meaning and helps us to look at the place that art writing holds in the latter twentieth century and beyond

Global Mandatory Fair Use Tanya Aplin, Lionel Bently, 2020-11-05 In a path breaking work Tanya Aplin and Lionel Bently make the case that the quotation exception in Article 10 of the Berne Convention constitutes a global mandatory fair use provision It is global they argue because of the reach of Berne qua Berne and qua TRIPS and its mandatory nature is apparent from the clear language of Article 10 and its travaux It relates to use that is not limited by type of work type of act or purpose and it is fair use because the work must be made available to the public with attribution and the use must be proportionate and consistent with fair practice By explaining the contours of global mandatory fair use and thus displacing the three step test as the dominant international copyright norm governing copyright exceptions this book creates new insights into how national exceptions should be framed and interpreted

Manet and the Family Romance Nancy Locke, 2001 douard Manet s paintings have long been recognized for being visually compelling and uniquely recalcitrant While critics have noted the presence of family members and intimates in paintings such as *Le D jeuner sur l herbe* Nancy Locke takes an unprecedented look at the significance of the artist s family relationships for his art Locke argues that a kind of mythology of the family or Freudian family romance frequently structures Manet s compositional decisions and choice of models By looking at the representation of the family as a volatile mechanism for the development of sexuality and of repression conflict and desire Locke brings powerful new interpretations to some of Manet s most complex

works Locke considers for example the impact of a father son drama rooted in a closely guarded family secret the adultery of Manet's pre and the status of Léon Leenhoff Her nuanced exploration of the implications of this story that Manet in fact married his father's mistress makes us look afresh at even well known paintings such as Olympia This book sheds new light on Manet's infamous interest in gypsies street musicians and itinerants as Locke analyzes the activities of Manet's father as a civil judge She also reexamines the close friendship between Manet and the Impressionist painter Berthe Morisot who married Manet's brother Morisot becomes the subject of a series of meditations on the elusiveness of the self the transience of identity and conflicting concerns with appearances and respectability Manet and the Family Romance offers an entirely new set of arguments about the cultural forces that shaped these alluring paintings

Photography and Its Violations John Roberts, 2014-10-14 Theorists critique photography for objectifying its subjects and manipulating appearances for the sake of art In this bold counterargument John Roberts recasts photography's violating powers of disclosure and aesthetic technique as part of a complex social ontology that exposes the hierarchies divisions and exclusions behind appearances The photographer must arrive unannounced and get in the way of the world Roberts argues committing photography to the truth claims of the spectator over the self interests and sensitivities of the subject Yet even though the violating capacity of the photograph results from external power relations the photographer is still faced with an ethical choice whether to advance photography's truth claims on the basis of these powers or to diminish or veil these powers to protect the integrity of the subject Photography's acts of intrusion and destabilization then constantly test the photographer at the point of production in the darkroom and at the computer especially in our 24 hour digital image culture In this game changing work Roberts refunctions photography's place in the world politically and theoretically restoring its reputation as a truth producing medium

The Invention of the Model Susan Waller, 2017-07-05 Although mastery of the representation of the human figure was central to art making as early as the fifteenth century in Europe in the nineteenth century French imagination the artist's model became identified as a distinct social type and cultural trope This study of the artist's model in Paris between 1830 and 1870 incorporates three histories a social history of professional models a cultural history of models as social types and an art history of representations of the model in elite and popular visual culture It takes as its starting point the artist model transaction demonstrating that stereotypes of the model that figured in the public imagination were framed both by gender and ethnicity the book develops a nuanced typology of different types of models Interwoven with the analysis of the constructed identities of models are accounts of the lives of particular models and the histories of the urban population groups from which they emerged *The Invention of the Model Artists and Models in Paris 1830-1870* is an adept exploration of a major issue in nineteenth century art which will be of interest not only to art historians but also to social and French cultural historians

Laugh Lines Julia Langbein, 2022-02-24 *Laugh Lines Caricaturing Painting in Nineteenth Century France* is the first major study of Salon caricature a kind of graphic art criticism in which press artists drew comic versions of

contemporary painting and sculpture for publication in widely consumed journals and albums Salon caricature began with a few tentative lithographs in the 1840s and within a few decades no Parisian exhibition could open without appearing in warped incisive and hilarious miniature in the pages of the illustrated press This broad survey of Salon caricature examines little known graphic artists and unpublished amateurs alongside major figures like douard Manet puts anonymous jokesters in dialogue with the essays of Baudelaire and holds up the material qualities of a 10 centime album to the most ambitious painting of the 19th century This archival study unearths colorful caricatures that have not been reproduced until now drawing back the curtain on a robust culture of comedy around fine art and its reception in 19th century France "Manet, Wagner, and the Musical Culture of Their Time " Therese Dolan, 2017-07-05 How did the tumult caused by German composer Richard Wagner result in the first modernist painting In the first full length book dedicated to the study of Edouard Manet and music art historian Therese Dolan demonstrates that the 1862 painting Music in the Tuileries represents the progressive musical culture of his time heretofore read by scholars predominantly through the words of Charles Baudelaire Dolan sees in this painting s radical style the conceptual shift to modernism in both painting and music a transition that she convincingly argues received a strong impetus from Manet s Music in the Tuileries and Wagner s controversial Tannh er which premiered the previous year Supplemental to analysis of the painting Dolan incorporates discussion of texts by Theophile Gautier Champfleury and Baudelaire who are represented in the painting This book incorporates studies of the major artistic literary and musical figures of nineteenth century France It represents an important contribution to an understanding of French culture in the third quarter of the nineteenth century a period of intense literary artistic and musical activity that formed the crucible for modernism *Painting and the Turn to Cultural Modernity in Spain* Andrew Ginger, 2007 Cultural modernity has habitually been defined as a focus on the means of representation themselves as opposed to art that imitates external reality or expresses its maker s inner life The crucial moment is usually considered the emergence of Edouard Manet in mid nineteenth century France and the features of French developments have been seen as defining terms in the theory of modernity However recent art and cultural history have often spoken of plural modernities distinct from the pattern set in France For the first time this study in cultural history explores how Spanish culture took a radical turn toward the medium of representation itself in the 1850s and early 1860s It argues that this happened in a way that is critically at odds with many fundamental theoretical suppositions about modernity
