Maneuvers Cynthia H. Enloe, 2000 Enloe outlines the dilemmas feminists around the globe face in trying to craft theories and strategies that support militarized women locally and internationally without unwittingly being militarized themselves

Bananas, Beaches and Bases Cynthia Enloe, 2014-05-16 In this brand new radical analysis of globalization Cynthia Enloe examines recent events Bangladeshi garment factory deaths domestic workers in the Persian Gulf Chinese global tourists and the UN gender politics of guns to reveal the crucial role of women in international politics today With all new and updated chapters Enloe describes how many women s seemingly personal strategies in their marriages in their housework in their coping with ideals of beauty are in reality the stuff of global politics Enloe offers a feminist gender analysis of the global politics of both masculinities and femininities dismantles an apparently overwhelming world system and reveals that system to be much more fragile and open to change than we think *Women's Political Activism in Palestine*

Women's Political Activism in Palestine Sophie Richter-Devroe, 2018-09-19 During the last twenty years Palestinian women have practiced creative and often informal everyday forms of political activism Sophie Richter Devroe reflects on their struggles to bring about social and political change Richter Devroe s ethnographic approach draws from revealing in depth interviews and participant observation in Palestine The result a forceful critique of mainstream conflict resolution methods and the failed woman to woman peacebuilding projects so lauded around the world The liberal faith in dialogue as core of the political and the assumption that women s nurturing nature makes them superior peacemakers collapse in the face of past and ongoing Israeli state violence Instead women confront Israeli settler colonialism directly and indirectly in their popular and everyday acts of resistance Richter Devroe s analysis zooms in on the intricate dynamics of daily life in Palestine tracing the emergent politics that women articulate and practice there In shedding light on contemporary gendered politics from below in the region the book invites a rethinking of the workings shapes and boundaries of the political **Women, Warfare and Representation**

Women, Warfare and Representation Emerald M. Archer, 2017-07-13 *Women Warfare and Representation* considers the various ways the American servicewoman has been represented throughout the 20th century and how those representations impact the roles she is permitted to inhabit While women have a relatively short history in the American military the last century shows an evolution of women s direct participation in war despite the need to overcome societal sex role expectations The primary focus is on the American case but Emerald Archer also introduces a comparative element showing how women s integration in the military differs in other countries including Great Britain Canada and Israel Adopting an interdisciplinary approach the book draws on military history theory and social psychology to offer a more complete and integrated history of women in the military and their representation in society **A Journey into Women's Studies** R. Women, Children, and the Collective Face of Conflict in Europe, 1900-1950 Nupur Chaudhuri, Sandra Trudgen

Dawson, 2023-10-17 Europe was in turmoil during the first half of the twentieth century The political stability that emanated from nineteenth century political liberalism began to break down reaching climaxes in the Great War the Spanish Civil War and the Second World War Revolutions in Russia and Spain threatened parliamentary governments and the Armenian genocide that began in 1915 foreshadowed the systematic destruction of European Jews in the 1930s and 1940s Dictators seized power and established authoritarian regimes that stymied democratic expression and censored the press Much of the scholarship on each of the conflicts has tended to focus on the military male and the civilian female binary Women and children experienced every conflict during this tumultuous period as civilians consumers victims exiles and combatants As histories of women and war suggest there are exciting new areas of research and scholarship that resist simplistic binaries Women were not simply civilians or victims They were actors in the minutiae of wars revolutions dictatorships and genocides Children were present in these conflicts and not invisible as many histories suggest They too were actors and often politicized by propagandist literature and sectarian education through their own experiences and the politics of their families This collection seeks to complicate the child/adult distinction and examine the experiences of women and children as lenses to view a more collective face of conflict While the volume brings to attention conflicts in Europe the editors acknowledge the global ramifications of the revolutions wars and genocides as well as the multitude of individual experiences This collection seeks to expand understanding of the personal as the political in European conflicts from 1900-1950 We believe the focus on women and children offers a diverse perspective on five tumultuous decades of European history

The Women, Peace and Security Agenda Laura J. Shepherd, 2021-09-26 The Women Peace and Security (WPS) agenda is comprised of the policies protocols and practices enacted by a wide range of actors inspired by or under the auspices of the UN Security Council resolutions adopted under the title of women and peace and security Since the adoption of the first resolution in 2000 resolution 1325 there have been nine others each of which elaborates or extends aspects of the original resolution This book provides a forward looking collection of scholarship on the WPS agenda in two halves The first half of the book presents a series of essays that each provide a glimpse of the rich and insightful research on WPS being undertaken in and about different contexts to demonstrate the importance of centring the local as a site of knowledge production in the WPS agenda The essays presented in the second half of the book also engage questions of knowledge production documenting the exploratory methods in use in WPS scholarship and highlighting those topics engaged at the hinterlands of what is a broad field topics that gesture at the future of research in this area The chapters in this book were originally published as special issues of the International Feminist Journal of Politics

Sexual Violence as a Weapon of War? Maria Eriksson

Baaz, Professor Maria Stern, 2013-05-09 All too often in conflict situations rape is referred to as a weapon of war a term presented as self explanatory through its implied storyline of gender and warring In this provocative but much needed book Eriksson Baaz and Stern challenge the dominant understandings of sexual violence in conflict and post conflict settings Reading with and against feminist analyses of the interconnections between gender warring violence and militarization the authors address many of the thorny issues inherent in the arrival of sexual violence on the global security agenda Based on original fieldwork in the Democratic Republic of the Congo as well as research material from other conflict zones *Sexual Violence as a Weapon of War* challenges the recent prominence given to sexual violence bravely highlighting various problems with isolating sexual violence from other violence in war A much anticipated book by two acknowledged experts in the field on an issue that has become an increasingly important security legal and gender topic *Women and War* Joyce P. Kaufman, Kristen P. Williams, 2010 Women everywhere have long struggled for recognition as equal productive members of society worthy of taking part in the political process These struggles become even more pronounced in times of conflict and war when the symbolism and myths of womanhood are used to stoke nationalistic ideas about the survival of the state Yet for all the rhetoric that takes place in their name it is men who generally make decisions regarding war *Women and War* examines how women respond to situations of conflict Drawing on both traditional and feminist international relations theory it explores the roles that women play before during and after a conflict how they spur and respond to nationalist and social movements and how conceptions of gender are deeply intertwined with ideas about citizenship and the state As Kaufman and Williams show women do more than respond to conflict situations they are active agents in their own right shaping political and historical processes Their conclusions encourage us to rethink the prevalent assumptions of international relations history and feminist scholarship and theory **Gendered Tropes in War Photography** Marta Zarzycka, 2016-09-13 Photographic stills of women appearing in both press coverage and relief campaigns have long been central to the documentation of war and civil conflict Images of non Western women in particular regularly function as symbols of the misery and hopelessness of the oppressed Featured on the front pages of newspapers and in NGO reports they inform public understandings of war and peace victims and perpetrators but within a discourse that often obscures social and political subjectivities Uniquely this book deconstructs in a systematic gender sensitive way the repetitive circulation of certain images of war conflict and state violence in order to scrutinize the role of photographic tropes in the globalized visual sphere Zarzycka builds on feminist theories of representations of war to explore how the concepts of femininity and war secure each other's intelligibility in photographic practices This book examines the complex connections between photographic tropes and the individuals and communities they represent in order to rethink the medium of photography as a discursive and political practice This book interrogates both the structure and transmission of contemporary encounters with war violence and conflict It will appeal to advanced students and scholars of gender studies visual studies media studies photography

The SAGE Handbook of Feminist Theory Mary Evans, Clare Hemmings, Marsha Henry, Hazel Johnstone, Sumi Madhok, Ania Plomien, Sadie Wearing, 2014-08-12 At no point in recorded history has there been an absence of intense and heated discussion about the subject of how to conduct relations between women and men This Handbook provides a comprehensive guide to these omnipresent issues and debates mapping the present and future of thinking about feminist theory The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality Literary visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences
