Mangos Chiles And Truckers:

Mangos, Chiles, and Truckers Robert R. Alvarez, 2005 *Mangos Chiles and Truckers* illuminates how local groups and individuals engage the global world and capitalism in creative ways Robert Alvarez analyzes how the produce and trucking industries in Mexico affect the organization of work community and social space for miles on either side of the international border Taking an ethnographic approach Alvarez focuses on the impact transnational economic policies like NAFTA have had on growers of mangos and chiles in Mexico those who transport the produce across the U S Mexico border and the immigrant communities receiving these goods in the United States Contrary to common perceptions in postnational studies Alvarez shows how the nation state enacts and connects with the transnational crossing borders in ways that underwrite new technology and trade Emphasizing the importance and control of the nation state in the global process *Mangos Chiles and Truckers* demonstrates how people make meaning as they struggle with the economic circumstances of their lives creating cultural traditions and giving new value to old customs and practices Robert R Alvarez Jr is professor of ethnic studies at the University of California San Diego George Lipsitz is professor of American studies at the University of California Santa Cruz

Beyond El Barrio Gina M. Pérez, Frank Guridy, Adrian Burgos, 2010-10-24 *Freighted with meaning* el barrio is both place and metaphor for Latino populations in the United States Though it has symbolized both marginalization and robust and empowered communities the construct of el barrio has often reproduced static understandings of Latino life they fail to account for recent demographic shifts in urban centers such as New York Chicago Miami and Los Angeles and in areas outside of these historic communities *Beyond El Barrio* features new scholarship that critically interrogates how Latinos are portrayed in media public policy and popular culture as well as the material conditions in which different Latino o groups build meaningful communities both within and across national affiliations Drawing from history media studies cultural studies and anthropology the contributors illustrate how despite the hypervisibility of Latinos and Latin American immigrants in recent political debates and popular culture the daily lives of America s new majority minority remain largely invisible and mischaracterized Taken together these essays provide analyses that not only defy stubborn stereotypes but also present novel narratives of Latina o communities that do not fit within recognizable categories In this way this book helps us to move beyond el barrio beyond stereotype and stigmatizing tropes as well as nostalgic and uncritical portraits of complex and heterogeneous range of Latina o lives

Musical ImagiNation Maria Elena Cepeda, 2010 Long associated with the pejorative clichés of the drug trafficking trade and political violence contemporary Colombia has been unfairly stigmatized This study of the Miami music industry and Miami s growing Colombian community asserts that popular music provides an alternative common space for imagining and enacting Colombian identity We Are the State! Valencia, 2015-05-28 Chavistas are the local leaders and activists in Venezuela s Bolivarian Revolution working to establish democracy through government sponsored social missions community self governance and popular collectives *We Are the*

State tells the story of their grassroots activism In perspectives gleaned from participant observation with barrio residents in workplaces communal kitchens city wide forums and grassroots meetings and assemblies as well as family and recreational events anthropologist Cristobal Valencia vividly recounts tensions between activists local officials and the wealthy opposition The author offers an anthropological analysis of the state social movements and democracy as lived experiences of the poor gendered and racialized residents of two parishes in Caracas Venezuela and Afro Venezuelan communities nearby Ethnographic research reveals the shift in relationships of power and the evolving political practices among the Chavistas the Chavez government and the opposition Examining the subjective experiences of barrio residents in everyday processes of state formation this book provides a new perspective on the Chavistas arguing that they are a broad based social movement and driving force behind a revolution struggling to transfer state power to organized civil society Through his intense engagement with the constantly changing social political and economic dynamics Valencia dramatically challenges top down understandings of the state and power in Venezuela He shows the unequal relationships between sectors of civil society and he shows state formation as a process enmeshed in the struggles for social justice demonstrating that the state is a sociopolitical entity that acts through civil society rather than above it

Contraband Corridor Rebecca Berke Galembo, 2017-12-26 The Mexico Guatemala border has emerged as a geopolitical hotspot of illicit flows of both goods and people Contraband Corridor seeks to understand the border from the perspective of its long term inhabitants including petty smugglers of corn clothing and coffee Challenging assumptions regarding security trade and illegality Rebecca Berke Galembo details how these residents engage in and justify extralegal practices in the context of heightened border security restricted economic opportunities and exclusionary trade policies Rather than assuming that extralegal activities necessarily threaten the state and formal economy Galembo's ethnography illustrates the complex ways

that the formal informal legal and illegal economies intertwine Smuggling basic commodities across the border provides a means for borderland peasants to make a living while neoliberal economic policies decimate agricultural livelihoods Yet smuggling also exacerbates prevailing inequalities obstructs the possibility of more substantive political and economic change and provides low risk economic benefits to businesses state agents and other illicit actors often at the expense of border residents Galemba argues that securitized neoliberalism values certain economic activities and actors while excluding and criminalizing others even when the informal and illicit economy is increasingly one of the poor s only remaining options Contraband Corridor contends that security neoliberalism and illegality are interdependent in complex ways yet how they unfold depends on negotiations between diverse border actors

Circuits of Visibility Radha Sarma Hegde, 2011 This title explores transnational media environments as a way to understand the gendered constructions and contradictions that support globalization with special emphasis on women and a global feminist perspective

An Impossible Living in a Transborder World Carlos G. Vélez-Ibáñez, 2010-12-15 They are known as cundinas or tandas in Mexico and for many people these local savings and loan operations play an indispensable role in the struggle to succeed in today s transborder economy With this extensively researched book Carlos V lez Ib ez updates and expands upon his major 1983 study of rotating savings and credit associations ROSCAs incorporating new data that reflect the explosion of Mexican origin populations in the United States Much more than a study of one economic phenomenon though the book examines the way in which these practices are part of greater transnational economies and how these populations engage in and suffer through the twenty first century global economy Central to the ROSCA is the cultural concept of mutual trust or confianza This is the cultural glue that holds the reciprocal relationship together As V lez Ib ez explains confianza shapes the expectations for relationships within broad networks of interpersonal links in which intimacies favors goods services emotion power or information are exchanged In a border region where migration class movement economic changes and institutional inaccessibility produce a great deal of uncertainty Mexican origin populations rely on confianza and ROSCAs to maintain a sense of security in daily life How do transborder people adapt these common practices to meet the demands of a global economy That is precisely what V lez Ib ez investigates

Sugar and Civilization April Merleaux, 2015-07-13 In the weeks and months after the end of the Spanish American War Americans celebrated their nation s triumph by eating sugar Each of the nation s new imperial possessions from Puerto Rico to the Philippines had the potential for vastly expanding sugar production As victory parties and commemorations prominently featured candy and other sweets Americans saw sugar as the reward for their global ambitions April Merleaux demonstrates that trade policies and consumer cultures are as crucial to understanding U S empire as military or diplomatic interventions As the nation s sweet tooth grew people debated tariffs immigration and empire all of which hastened the nation s rise as an international power These dynamics played out in the bureaucracies of Washington D C in the pages of local newspapers and at local candy counters Merleaux argues that ideas about race and civilization shaped

sugar markets since government policies and business practices hinged on the racial characteristics of the people who worked the land and consumed its products Connecting the history of sugar to its producers consumers and policy makers Merleaux shows that the modern American sugar habit took shape in the shadow of a growing empire Sameness in Diversity Laresh Jayasanker,2020-04-14 Americans of the 1960s would have trouble navigating the grocery aisles and restaurant menus of today Once exotic ingredients like mangoes hot sauces kale kimchi and coconut milk have become standard in the contemporary American diet Laresh Jayasanker explains how food choices have expanded since the 1960s immigrants have created demand for produce and other foods from their homelands grocers and food processors have sought to market new foods and transportation improvements have enabled food companies to bring those foods from afar Yet even as choices within stores have exploded supermarket chains have consolidated Throughout the food industry fewer companies manage production and distribution controlling what American consumers can access Mining a wealth of menus cookbooks trade publications interviews and company records Jayasanker explores Americans changing eating habits to shed light on the impact of immigration and globalization on American culture *Girlhood in the Borderlands* Lilia Soto,2018-07-31 How gender and generation shape perceptions of place and time as told through the voices of Mexican teenage girls This book examines the lived experiences of Mexican teenage girls raised in transnational families and the varied ways they make meaning of their lives Under the Bracero Program and similar recruitment programs Mexican men have for decades been recruited for temporary work in the U S leaving their families for long periods of time to labor in the fields factories and service industry before returning home again While the conditions for these adults who cross the border for work has been extensively documented very little attention has been paid to the lives of those left behind Over a six year period Lilia Soto interviewed more than sixty teenage girls in Napa California and Zinap cuaro Michoac n to reveal the ruptures and continuities felt for the girls surrounded by the movement of families ideas and social practices across borders As they develop their subjective selves these Mexican teens find commonality in their fathers absence and the historical structural and economic conditions that led to their movement Tied to the ways U S immigration policies dictate the migrant experiences of fathers and the traditional structure of their families many girls develop a sense of time lag where they struggle to plan for a present or a future In *Girlhood in the Borderlands* Soto highlights the structure of feeling that girls from Zinap cuaro and Napa share offering insight into the affective consequences of growing up at these social and geographic intersections Food Across Borders Matt Garcia,E.
