Fortune Is a Woman Hanna Fenichel Pitkin, 1999-10-15 Hanna Pitkin's study of Machiavelli was the first to place gender systematically at the center of its exploration of his political thought Rife with contradictions Machiavelli's writings have led commentators to characterize him as everything from a civic republican to a proto fascist Acknowledging these contradictions Pitkin shows that they reflect three distinct ways of thinking about politics each of which is tied to a different understanding of manhood In a new Afterword Pitkin discusses the book's critical reception and situates its arguments in the context of recent interpretations of Machiavelli's thought Jacket

The Americas in Early Modern Political Theory Stephanie B. Martens, 2016-05-31 This book examines early modern social contract theories within European representations of the Americas in the 16th and 17th century Despite addressing the Americas only marginally social contract theories transformed American social imaginaries prevalent at the time into Aboriginality allowing for the emergence of the idea of civilization and the possibility for diverse discourses of Aboriginalism leading to excluding and discriminatory forms of subjectivity citizenship and politics What appears then is a form of Aboriginalism pitting the American Aboriginal other against the nascent idea of civilization The legacy of this political construction of difference is essential to contemporary politics in settler societies The author shows the intellectual processes behind this assignation and its role in modern political theory still bearing consequences today The way one conceives of citizenship and sovereignty underlies some of the difficulties settler societies have in accommodating Indigenous claims for recognition and self government

and beyond The Social Construction of Man, the State and War Franke Wilmer, 2004-04-16 The Social Construction of Man the State and War is the first book on conflict in the former Yugoslavia to look seriously at the issue of ethnic identity rather than treating it as a given an unquestionable variable Combining detailed analysis with a close reading of historical narratives documentary evidence and first hand interviews conducted in the former Yugoslavia Wilmer sheds new light on how ethnic identity is constructed and what that means for the future of peace and sovereignty throughout the world

Free Gifts Alyssa Battistoni, 2025-08-19 A timely new critique of capitalism's persistent failure to value nature Capitalism is typically treated as a force for relentless commodification Yet it consistently fails to place value on vital aspects of the nonhuman world whether carbon emissions or entire ecosystems In *Free Gifts* Alyssa Battistoni explores capitalism's persistent failure to value nature arguing that the key question is not the moral issue of why some kinds of nature shouldn't be commodified but the economic puzzle of why they haven't been To understand contemporary ecological problems from biodiversity collapse to climate change she contends we have to understand how some things come to have value under capitalism and how others do not To help us do so Battistoni recovers and reinterprets the idea of the free gift of nature used by classical economic thinkers to describe what we gratuitously obtain from the natural world and builds on Karl Marx's critique of political economy to show how capitalism fundamentally treats nature as free for the taking This novel theory of capitalism's relationship to nature not only helps us understand contemporary ecological breakdown but also casts capitalism's own core dynamics in a new light Battistoni addresses four different instances of the free gift in political economic thought each in a specific domain natural agents in industry pollution in the environment reproductive labor in the household and natural capital in the biosphere In so doing she offers new readings of major twentieth century thinkers including Friedrich Hayek Simone de Beauvoir Garrett Hardin Silvia Federici and Ronald Coase Ultimately she offers a novel account of freedom for our ecologically troubled present developing a materialist existentialism to argue that capitalism limits our ability to be responsible for our relationships to the natural world and imagining how we might live freely while valuing nature's gifts

Power, Neoliberalism, and the Reinvention of Politics Amy Allen, Eduardo Mendieta, 2022-08-08 Wendy Brown is one of the most prolific and influential political theorists of her generation This collection of essays designed for the undergraduate classroom presents an introduction to and critical assessment of Brown's substantial body of work with a particular focus on her contributions to the tradition of critical theory Coeditors Amy Allen and Eduardo Mendieta provide an overview of Brown's work situating her scholarship in relation to some of the major thinkers and methodologies of the Frankfurt School Brown opens the discussion with a new essay expounding upon the meaning of freedom and the prospects for emancipation in our current political moment Subsequent chapters address different aspects of Brown's corpus including her early feminist interpretation of the history of political theory her influential critiques of identity politics and progressive philosophies of history and her recent interrogation of the rise of neoliberalism and the resurgence of authoritarian politics

The volume concludes with Brown's response to her critics where she clarifies and expands upon the implications of her core ideas. International Encyclopedia of Men and Masculinities, **What is Politics** Adrian Leftwich, 2015-03-31. What is politics? Is it a universal feature of all human societies past and present? Is it tied to specific institutional arenas? Or is it found in all groups and organizations, large or small, formal or informal? This new textbook seeks to provide answers to these important questions. Starting with what it means to think politically, the book goes on to explore a wide range of meanings attributed to the concept of politics from a variety of perspectives and theoretical traditions. It offers succinct and coherent overviews by some of the foremost scholars in the field, and each invites the reader to see the activity of politics in a distinctive way. Topics covered include politics as a form of rule, feminist approaches to politics, Marxism and politics, the politics of human behaviour, environmental politics, politics as collective choice, and Islam and politics. Written with the new student in mind, this concise introduction to the study and activity of politics is essential reading for all those coming to the discipline for the first time.

Violence, Entitlement, and Politics Steven G. Ogden, 2021-09-30. This book is an exercise in political theology, exploring the problem of gender-based violence by focusing on violent male subjects and the issue of entitlement. It addresses gender-based violence in familial and military settings before engaging with a wider political context. The chapters draw on sources ranging from Michel Foucault, Judith Butler, and Étienne Balibar to Rowan Williams and Elisabeth Schüssler Fiorenza. Entitlement is theorized and interpreted as a gender pattern predisposing subjects towards controlling behaviour and/or violent actions. Steven Ogden develops a theology of transformation stressing immanence. He examines entitled subjects predisposed to violence where transformation requires a limit experience that wrenches the subject from itself. The book then reflects on today's pervasive strongman politics where political rationalities foster proprietorial thinking and entitlement, gender patterns, and how theology is called to develop counter-discourses and counter-practices.

The Oxford Handbook of Politics and Performance Shirin M. Rai, Milija Gluhovic, Silvija Jestrovic, Michael Saward, 2021-02-19. Political scientists and political theorists have long been interested in social and political performance. Theatre and performance researchers have often focused on the political dimensions of the live arts. Yet the interdisciplinary nature of this labor has typically been assumed rather than rigorously explored. Further, it is crucial to bring the concepts of theatre and performance deployed by other disciplines such as psychology, law, political anthropology, sociology, among others, into a wider as well as deeper interdisciplinary engagement. Embodying and fostering that engagement is at the heart of this new handbook. The Handbook brings together leading scholars in the fields of Politics and Performance to map out the evolving interdisciplinary engagement. The authors drawn from a wide range of disciplines investigate the relationship

between politics and performance to show that certain features of political transactions shared by performances are fundamental to both disciplines and that they also share to a large extent a common communicational base and language The volume is organized into seven thematic sections the interdisciplinary theory of politics and performance performativity and theatricality protest regulation resistance change authority identities race gender sexuality class citizenship indigeneity sites states borders markets law religion scripts accountability authority and legitimacy security ceremony sustainability body voice and gesture representation leadership participation rhetoric disruption and affect media care love empathy comedy populism memory **Conscious Acts and the Politics of Social Change** Robin L. Smith, 1998-03-26 This collection of essays includes studies of women's political writings from Christine de Pizan to Mary Wollstonecraft and explores in depth the political ideas of the writers in their historical and intellectual context The volume illuminates the limitations placed on women's political writings and their broader political role by the social and scholarly institutions of early modern Europe In so doing the authors probe legal and political restraints distinct national and state organisation and assumptions concerning women's proper intellectual interests In this endeavour the volume explores questions and subjects traditionally ignored by historians of political thought and little considered even by current feminist theorists groups who give slight attention to women's political ideas or place women's writings within the social and intellectual structures from which they emerged and which they helped to shape **Gender, Heteronormativity, and the American Presidency** Aidan Smith, 2017-10-03 Gender Heteronormativity and the American Presidency places notions of gender at the center of its analysis of presidential campaign communications Over the decades an investment in gendered representations of would be leaders has changed little in spite of the second and third wave feminist movements Modern candidates have worked vigorously to demonstrate compensatory heterosexuality an unquestionable normative identity that seeks to overcome challenges to their masculinity or femininity The book draws from a wide range of archived media material including televised films and advertisements public

debates and speeches and candidate autobiographies From the domestic ideals promoted by Eisenhower in the 1950s right through to the explicit and divisive rhetoric associated with the Clinton Trump race in 2016 intersectional content and discourse analysis reveals how each presidential candidate used his or her campaign to position themselves as a defender of traditional gender roles and furthermore how this investment in appropriate gender behaviour was made manifest in both international and domestic policy choices This book represents a significant and timely contribution to the study of political communication While communication during presidential elections is a well established research field Aidan Smith s book is the first to apply a gendered lens over such an extended historical period and across the political spectrum The "Man" Question in International Relations Marysia Zalewski, Jane Parpart, 2019-04-05 Originally published in 1998 The Man Question in International Relations looks the prevalence of man in the world of international relations The book argues that focusing on women as a way of changing the gender of international relations can position women as the problem The authors of this book suggest that the problem is not woman but man Rather than highlighting the absences and presence of women in the theories and practices of international relations the authors concentrate on questioning the practices of masculinities the hegemony of men and the subject of man In this way they hope to destabilize the field in ways that adding women and stirring has not
