Manhood and Morality Suzette Heald, 2002-01-22 An impressive and meticulously crafted African ethnography which has theoretical and practical relevance for understanding masculinity and violence in general David Parkin Professor of Anthropology Cambridge University *Manhood and Morality* explores issues of male identity among the Gisu of Uganda and the moral dilemma faced by men who define themselves by their capacity for violence Drawing extensively on twenty years of fieldwork and on psychological theory the book covers circumcision Oedipal feelings witchcraft deviance joking sexuality and ethnicity This ethnographic study challenges our preconceptions of manhood especially African virility inviting a wider re evaluation of masculinity

Mobile Secrets Julie Soleil Archambault, 2017-05-26 Now part and parcel of everyday life almost everywhere mobile phones have radically transformed how we acquire and exchange information Many anticipated that in Africa where most have gone from no phone to mobile phone improved access to telecommunication would enhance everything from entrepreneurialism to democratization to service delivery ushering in socio economic development With *Mobile Secrets* Julie Soleil Archambault offers a complete rethinking of how we understand uncertainty truth and ignorance by revealing how better access to information may in fact be anything but desirable By engaging with young adults in a Mozambique suburb Archambault shows how in their efforts to create fulfilling lives young men and women rely on mobile communication not only to mitigate everyday uncertainty but also to juggle the demands of intimacy by courting producing and sustaining uncertainty In their hands the phone has become a necessary tool in a wider arsenal of pretense a means of creating the open endedness on which harmonious social relations depend in postwar postsocialist Mozambique As *Mobile Secrets* shows Mozambicans have harnessed the technology not only to acquire information but also to subvert regimes of truth and preserve public secrets allowing everyone to feign ignorance about the workings of the postwar intimate economy

Transcultural Bodies Ylva Hernlund, Bettina Shell-Duncan, 2007-06-07 Female circumcision or more precisely female genital cutting FGC remains an important cultural practice in many African countries often serving as a coming of age ritual. It is also a practice that has generated international dispute and continues to be at the center of debates over women's rights, the limits of cultural pluralism, the balance of power between local cultures, international human rights and feminist activism. In our increasingly globalized world, these practices have also begun immigrating to other nations where transnational complexities vex debates about how to resolve the issue. Bringing together thirteen essays, *Transcultural Bodies* provides an ethnographically rich exploration of FGC among African diasporas in the United Kingdom, Europe and Australia. Contributors analyze changes in ideologies of gender and sexuality in immigrant communities, the frequent marginalization of African women's voices in debates over FGC and controversies over legislation restricting the practice in immigrant populations.

Meanings of Violence Jon Abbink, Göran Aijmer, 2020-08-20 There are good reasons to look at violence from new perspectives. In its endless manifestations, violence is part and parcel of human existence and is very probably a constituting element of human society. And yet, violent action, warfare, penalties, insults, feuding, assault, murder, rape, suicide, sports, remains in all its complexity one of the least understood fields of human social life. The book's contributors identify the symbolic and ritualized aspects of violence and suggest ways of reading violence as it occurs in the world, whether as violent duelling and age group violence in Southern Ethiopia, bullfighting in Iberia, cattle rustling in Kenya, guerrilla and militia wars in Colombia or public executions in China. These case studies suggest that violence is not a simple universal urge but is contingent and context dependent, shaped by social relations of power, force and dominance. To be the victim of violence is a humiliating and frightening experience. But the many ambiguities that occur in the use of violence must be considered to understand why peace seems only to exist as a contrast to the violation of peace.

Sexuality and the World's Religions David Wayne Machacek, Melissa M. Wilcox, 2003-08-13 Exploring one of the most controversial topics in contemporary theology, this scholarly volume reveals what the world's great faiths, East and West, preach about sexuality with a special emphasis on American religion. What do the world's most important religious texts have to say about one of humanity's favorite activities? Editors David W. Machacek and Melissa M. Wilcox have brought together top scholars in the field of religious studies to ask and answer these critical questions. Carefully researched, elegantly written, and respectfully presented, *Sexuality and the World's Religions* explores the intersection of the spiritual and the carnal in Buddhism, Christianity, Confucianism, Daoism, Hinduism, Islam, Judaism, and African and Native American spiritual traditions. A separate section explores critical religious

and sexual topics in American society including the role of spirituality in gay lesbian bisexual and transgender communities the role of sex in the modern witchcraft community and the ever thorny problem of religion and sexual liberty Reconciling sexuality and spirituality in every human soul is one of religion s most important tasks Students and other readers will find this timely and comprehensive volume of interest in exploring these issues

Doing Conceptual History in Africa Axel Fleisch,Rhiannon Stephens,2018-02-21 Employing an innovative methodological toolkit Doing Conceptual History in Africa provides a refreshingly broad and interdisciplinary approach to African historical studies The studies assembled here focus on the complex role of language in Africa s historical development with a particular emphasis on pragmatics and semantics From precolonial dynamics of wealth and poverty to the conceptual foundations of nationalist movements each contribution strikes a balance between the local and the global engaging with a distinctively African intellectual tradition while analyzing the regional and global contexts in which categories like work marriage and land take shape

Boys to Men in the Shadow of AIDS A.
