Manhood And The American Renaissance David Leverenz:

Manhood and the American Renaissance David Leverenz, 1989 In 1980 when my book on Puritans had just come out one of my more well known colleagues sat down in my office to read the jacket flap Oh He said with a touch of disdain You re actually saying something This book too is actually saying something more readably I hope My colleague s spontaneous reaction expressed the prevailing postromantic values of the profession which dazzle of critical sensibility playing over texts

Sexual Violence and American Manhood T. Walter Herbert, 2002-11-22 His work offers an unusually clear view of this prevailing convention of insecure and destructive masculinity which Herbert connects with contemporary analyses of male identity formation sexuality and violence and with cultural political and ideological developments reaching back to the nation s democratic beginnings

Southern Manhood Craig Thompson Friend, Lorri Glover, 2004 Spanning the era from the American Revolution to the Civil War these nine pathbreaking original essays explore the unexpected competing or contradictory ways in which southerners made sense of manhood Employing a rich variety of methodologies the contributors look at southern masculinity within African American white and Native American communities on the frontier and in towns and across boundaries of class and age Until now the emerging subdiscipline of southern masculinity studies has been informed mainly by conclusions drawn from research on how the planter class engaged issues of honor mastery and patriarchy But what about men who didn t own slaves or were themselves enslaved These essays illuminate the mechanisms through which such men negotiated with overarching conceptions of masculine power Here the reader encounters Choctaw elites struggling to maintain manly status in the market economy black and white artisans forging rival communities and competing against the gentry for social recognition slave men on the southern frontier balancing community expectations against owner domination and men in a variety of military settings acting out community expectations to secure manly status As Southern Manhood brings definition to an emerging subdiscipline of southern history it also pushes the broader field in new directions All of the essayists take up large themes in antebellum history including southern womanhood the advent of consumer culture and market relations and the emergence of sectional conflict

The Arnoldian, 1991 **Gender and the American Temperance Movement of the Nineteenth Century** Holly Berkley Fletcher, 2007-12-12 Through an examination of the two icons of the nineteenth century American temperance movement the self made man and the crusading woman Fletcher demonstrates the evolving meaning and context of temperance and gender

A Mighty Baptism Susan Juster, Lisa MacFarlane, 1996 Follows the influences of race and gender on the Protestant tradition in America from the late eighteenth to the early twentieth century

Boys at Home Ken Parille, 2011-05 In this groundbreaking book Ken Parille seeks to do for nineteenth century boys what the past three decades of scholarship have done for girls show how the complexities of the fiction and educational materials written about them reflect the lives they lived While most studies of nineteenth century boyhood have focused on post Civil War male novelists Parille explores a

broader archive of writings by male and female authors extending from 1830 1885 Boys at Home offers a series of arguments about five pedagogical modes play adventure corporal punishment sympathy shame and reading The first chapter demonstrates that rather than encouraging boys to escape the bonds of domesticity scenes of play in boys novels reproduce values associated with the home Chapter 2 argues that debates about corporal punishment are crucial sources for the culture s ideas about gender difference and pedagogical practice In chapter 3 The Medicine of Sympathy Parille examines the affective nature of mother daughter and mother son bonds emphasizing the special difficulties that boy nature posed for women The fourth chapter uses boys conduct literature and Louisa May Alcott s Little Women the preeminent chronicle of girlhood in the century to investigate not only Alcott s fictional representations of shame centered discipline but also pervasive cultural narratives about what it means to be a man Focusing on works by Lydia Sigourney and Francis Forrester the final chapter considers arguments about the effects that fictional historical and biographical narratives had on a boy s sense of himself and his masculinity Boys at Home is an important contribution to the emerging field of masculinity studies In addition this provocative volume brings new insight to the study of childhood women s writing and American culture Ken Parille is assistant professor of English at East Carolina University His articles have appeared in Children s Literature Tulsa Studies in Women s Literature Papers on Language and Literature and Children s Literature Association Quarterly

The American Elsewhere Jimmy L. Bryan Jr., 2017-09-15 As important cultural icons of the early nineteenth century United States adventurers energized the mythologies of the West and contributed to the justifications of territorial conquest They told stories of exhilarating perils boundless landscapes and erotic encounters that elevated their chauvinism avarice and violence into forms of nobility As self proclaimed avatars of American exceptionalism Jimmy L Bryan Jr suggests in The American Elsewhere adventurers transformed westward expansion into a project of romantic nationalism A study of US expansionism from 1815 1848 The American Elsewhere delves into the adventurelogues of the era to reveal the emotional world of men who sought escape from the anonymity of the urban East and pressures of the Market Revolution As volunteers trappers traders or curiosity seekers they stepped into elsewheres distant and dangerous With their words and art they entered these unfamiliar realms that had fostered caution and apprehension and they reimagined them as regions that awakened romantic and reckless optimism In doing so Bryan shows adventurers created the figure of the remarkable American male that generated a wide appeal and encouraged a personal investment in nationhood among their audiences Bryan provides a thorough reading of a wide variety of sources including correspondence travel accounts fiction poetry artwork and material culture and finds that adventurers told stories and shaped images that beguiled a generation of Americans into believing in their own exceptionality and in their destiny to conquer the continent

Soft Canons Karen L. Kilcup, 1999-09 Recognizing that masculine literary tradition can include marginalized male writers as well as canonized female writers and that traditions themselves change over time the essays in this insightful and coherent collection also

explore the investment of the writers as well as nineteenth and twentieth century readers in canon creation As it reconstructs conversations between these earlier authors and initiates new dialogues for today's readers *Soft Canons* offers provocative reconceptualizations of American literary and cultural history

Divergent Visions, Contested Spaces Jeffrey

Hotz, 2021-04-29 This multicultural project examines fictional and non-fictional accounts of travel in the Early Republic and antebellum periods Connecting literary representations of geographic spaces within and outside of U.S. borders to evolving definitions of national American identity the book explores divergent visions of contested spaces Through an examination of depictions of the land and travel in fiction and non-fiction the study uncovers the spatial and legal conceptions of national identity The study argues that imagined geographies in American literature dramatize a linguistic contest among dominant and marginal voices Blending interpretations of canonical authors such as James Fenimore Cooper Frederick Douglass Richard Henry Dana Jr and Herman Melville with readings of less well-known writers like Gilbert Imlay Elizabeth House Trist Sauk Chief Black Hawk William Grimes and Moses Roper the book interprets diverse authors' impressions of significant spaces migrations The movements and regions covered include the Anglo-American migration to the Trans-Appalachian Valley after the Revolutionary War the 1803 Louisiana Purchase and Anglo-American travel west of the Mississippi the Underground Railroad as depicted in the fugitive slave narrative and novel and the extension of American interests in maritime endeavors off the California coast and in the South Pacific

A Brief History of American Sports Elliott J.

Gorn, Warren Goldstein, 2004 Elliott J. Gorn and Warren Goldstein show us where our games and pastimes came from how they developed and what they have meant to Americans The great heroes of baseball and football are here as well as the dramatic moments of boxing and basketball Beyond this the authors show us how sports fit into the larger contours of our past *A Brief History of American Sports* reveals that from colonial times to the present sports have been central to American culture and a profound expression of who we are

Antislavery Violence John R. McKivigan, Stanley

Harrold, 1999 During the sixty years preceding the Civil War violent means were often used to combat slavery in the United States In this collection of essays ten scholars explore the circumstances in which such violence arose the aims of those responsible for it and its impact on events of the day Reflecting a variety of perspectives and approaches this is the first book devoted exclusively to this important subject Previous studies have concentrated on how white northeastern professedly nonviolent abolitionists sometimes endorsed or engaged in forceful action against slavery This volume goes beyond that emphasis to examine the role of antislavery violence in a variety of regional racial ideological and chronological contexts Its

broad focus includes southern slave rebels antislavery women in Kansas violent slave rescuers in Ohio and northern antislavery politicians Antislavery Violence challenges the notion that violence within the antislavery movement was unusual prior to the 1850s showing that such violence in fact lay deep in American history and culture It establishes that antislavery violence served to unite slavery's black and white enemies and reveals how antebellum concepts of gender played a role in the justification of or participation in such violence Finally by stressing the role of violence within the antislavery movement the collection encourages a fresh appreciation of that movement as a major precursor to the much more violent Civil War Seeking neither to condemn nor to glorify acts of political violence against slavery these essays reveal them as a product of a particular time culture intellectual framework and political environment The book will challenge readers to ponder the subtlety ambiguity distaste and exaltation with which Americans living a century and a half ago wrestled with the issue of reform through violent means The Editors John R McKivigan is Mary O'Brien Gibson Professor of History at Indiana University Purdue University at Indianapolis He is the author of *The War against Proslavery Religion Abolitionism and the Northern Churches* Stanley Harrold is professor of history at South Carolina State University and the author of *The Abolitionists and the South* American Cool Peter N. Stearns, 1994-04 Cool The concept has distinctly American qualities and it permeates almost every aspect of contemporary American culture From Cool cigarettes and the Peanuts cartoon's Joe Cool to West Side Story Keep Cool boy and urban slang Be Cool Chill out the idea of cool in its many manifestations has seized a central place in our vocabulary Where did this preoccupation with cool come from How was Victorian culture seemingly so ensconced replaced with the current emotional status quo From whence came American Cool These are the questions Peter Stearns seeks to answer in this timely and engaging volume American Cool focuses extensively on the transition decades from the erosion of Victorianism in the 1920s to the solidification of a cool culture in the 1960s Beyond describing the characteristics of the new directions and how they altered or amended earlier standards the book seeks to explain why the change occurred It then assesses some of the outcomes and longer range consequences of this transformation

Washington Irving and the Fantasy of Masculinity Heinz Tschachler, 2022-01-17 Washington Irving remains one of the most recognized American authors of the 19th century remembered for short stories like Rip van Winkle and The Legend of Sleepy Hollow He also accomplished other writing feats including penning George Washington's biography and other life stories Throughout his life Irving was at odds with socially approved ways of being a man Irving purportedly saw himself and was seen by others as feminine shy and non confrontational Likely related to this he chose to engage with other men's fortunes and adventures by writing defining his male identity vicariously through masculine archetypes both fictional and non fictional Sitting at the intersection of literary studies and masculinity studies this reading reconstructs Irving's life long struggle to somehow win a place among other men Readers will recognize masculine themes in his tales from the Spanish period his western adventures as well as in historical biographies of Columbus Mahomet and Washington In many writings

by Irving especially Sleepy Hollow readers will observe themes dominated by masculinity The book is the first of its kind to encompass and examine Irving s writings **Riding in Circles J.e.b. Stuart and the Confederate Cavalry 1861-1862 ,**

Male Authors, Female Subjects Duco Van Oostrum,1995 In the wake of feminist and poststructuralist contributions to literary study how can we read images of women in literature written by men Is it possible to read anything other than appropriation or misrepresentation in these male portraits of women Starting with these questions Van Oostrum looks for openings in a debate that seems to be firmly locked into traditional gender roles While contemporary literary theory works hard to dismantle oppressive binaries questions about the representation of an other often lead back to a dizzying number of rigid identities Through an examination of Henry Adams s and Henry James s attempts to write about American women Van Oostrum tries to have it both ways at once holding on to gendered cultural identity and at the same time challenging a stable personality Using the sentimental fiction written by women in the 1850s James and Adams write about the new women of the turn of the 20th century Traversing multiple oceans they increasingly entangle concepts of gender and nationality othering not only women but the culture of Europe and the South Seas as well An analogous movement of a male translation of female American sentimental fiction intersected with national identities the author argues takes place in two Dutch novels of the late 19th century By looking through a Dutch lens at American literature this book on possible gender crossings shows cultural identities always to be on the move Crossing from the male author to the female subject on such an international landscape the author tries to navigate a place for women within and beyond literature written by men *Between Profits and Primitivism* Athena Devlin,2012-10-02 Between 1800 and the First World War white middle class men were depicted various forms of literature as weak and nervous This book explores cultural writings dedicated to the physical and mental health of the male subject showing that men have mobilized gender constructions repeatedly and self consciously to position themselves within the culture Aiming to join those who offer nuanced accounts of masculinity Devlin investigates the various and changing interests white manhood was positioned to cultivate and the ways elite white men used their own so to speak to promote larger agendas for their class and race **Gender and the Southern Body Politic** Nancy Bercaw,2000
