**The Green Marketing Manifesto** John Grant, 2009-08-11 We are currently eating sleeping and breathing a new found religion of everything green At the very heart of responsibility is industry and commerce with everyone now racing to create their environmental business strategy In line with this awareness there is much discussion about the green marketing opportunity as a means of jumping on this bandwagon We need to find a sustainable marketing that actually delivers on green objectives not green theming Marketers need to give up the many strategies and approaches that made sense in pure commercial terms but which are unsustainable True green marketing must go beyond the ad models where everything is another excuse to make a brand look good we need a green marketing that does good The Green Marketing Manifesto provides a roadmap on how to organize green marketing effectively and sustainably It offers a fresh start for green marketing one that provides a practical and ingenious approach The book offers many examples from companies and brands who are making headway in this difficult arena such as Marks Spencer Sky Virgin Toyota Tesco O2 to give an indication of the potential of this route John Grant creates a Green Matrix as a tool for examining current practice and the practice that the future needs to embrace This book is intended to assist marketers by means of clear and practical guidance through a complex transition towards meaningful green marketing Includes a foreword by Jonathon Porritt *It's Basic Income* Stewart Lansley, Amy Downes, 2018-03-14 Contributors including Brian Eno Demos Helsinki California s Y Combinator Research and prominent academics explore the impact Universal Basic Income could have on work welfare and inequality in the 21st century **The Piracy Years** Holger Briel, Michael High, Markus Heidingsfelder, 2023-06-15 The Piracy Years Internet File Sharing in a Global Context is the first collection to provide an overview of digital piracy s recent past and its potential futures Combining research essays interviews and overviews the volume brings together leading scholars and infamous digital pirates from China Germany the Netherlands Nigeria Russia the United Kingdom and the United States In June 1999 the peer to peer P2P file sharing website Napster transformed the availability of online content but the site was quickly sued into oblivion Despite the highly publicised shutdowns of a number of P2P websites many continue to thrive and digital piracy has become a global phenomenon This book argues that any future media theory and research will have to contend with such web practices remaining an integral and politically formative part of the Internet Offline and online piracies thrive on technological affordances in opposition to corporate efforts in music film publishing and academia to label them as threatening to the economy and society Therefore this book explores piracy as a phenomenon navigating the conventions norms and boundaries of legality in digital cultures Pirate networked sociabilities work within and outside the fringes of market economy through the lens of institutional and discursive power By creating new ways that keep society moving and from stagnation they ensure its continued existence including the survival of the very areas they attack The Piracy Years is an essential resource for researchers post graduate students and anyone interested in the global spread and

ever increasing importance of digital piracy      **Beyond Tenderpreneurship** MISTRA MISTRA,2020-04-16 Black Economic Empowerment BEE policies have been a central pillar of attempts to overcome the economic legacy of apartheid Yet more than two decades into democracy economic exclusion in South Africa still largely reflects the fault lines of the apartheid era Current discourse often conflates BEE with the so called tenderpreneurship referred to in the title namely the reliance of some emergent black capitalists on state patronage Authors go beyond this notion to understand BEEs role from a unique perspective They trace the history of black entrepreneurship and how deliberate policies under colonialism and its apartheid variant sought to suppress this impulse In the context of modern South Africa authors interrogate the complex dynamics of class formation economic empowerment and redress against the backdrop of broader macroeconomic policies They examine questions relating to whether BEE policies are informed by strategies to change the structure of the economy These issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation The relevant black empowerment experiences of countries such as the United States are also discussed The authors identify policy and programmatic interventions to forge the non racial future that the constitution enjoins South Africans to build      *Transforming Arbitration* Maud Piers,Sean McCarthy,2025-01-07 In an era where technology is rapidly

transforming the legal landscape *Transforming Arbitration* explores how innovations like AI blockchain the Metaverse and Web3 are reshaping arbitration as a key form of dispute resolution The book features insights from leading academics practitioners and policymakers offering a comprehensive look at how these advancements are influencing our conceptual substantive and procedural understandings of many parts of this field Each chapter examines the challenges and opportunities presented by these technologies raising important questions about the compatibility of traditional arbitration processes with digital innovations As the legal field adapts to developments like cryptocurrencies NFTs and virtual disputes this book provides valuable guidance on the future implications for arbitration By questioning established norms and advocating for fresh approaches *Transforming Arbitration* is a vital resource for legal professionals and scholars committed to evolving with the times Combining theoretical exploration with practical recommendations this collaborative volume equips the legal community with the tools to navigate the complexities of our digital age with confidence and foresight

**Why It's Kicking Off Everywhere: The New Global Revolutions** Paul Mason,2012 Incisive grassroots account of the new global revolutions by acclaimed BBC journalist The world is facing a wave of uprisings protests and revolutions Arab dictators swept away public spaces occupied slum dwellers in revolt cyberspace buzzing with utopian dreams Events we were told were consigned to history democratic revolt and social revolution are being lived by millions of people In this compelling new book Paul Mason explores the causes and consequences of this great unrest From Cairo to Athens Wall Street and Westminster to Manila Mason goes in search of the changes in society technology and human behavior that have propelled a generation onto the streets in search of social justice In a narrative that blends historical insight with first person

reportage Mason shines a light on these new forms of activism from the vast agile networks of cyberprotest to the culture wars and tent camps of the occupy movement The events says Mason reflect the expanding power of the individual and call for new political alternatives to elite rule and global poverty Trust, Computing, and Society Richard H. R.

Harper,2014-02-28 The internet has altered how people engage with each other in myriad ways including offering opportunities for people to act distrustfully This fascinating set of essays explores the question of trust in computing from technical socio philosophical and design perspectives Why has the identity of the human user been taken for granted in the design of the internet What difficulties ensue when it is understood that security systems can never be perfect What role does trust have in society in general How is trust to be understood when trying to describe activities as part of a user requirement program What questions of trust arise in a time when data analytics are meant to offer new insights into user behavior and when users are confronted with different sorts of digital entities These questions and their answers are of paramount interest to computer scientists sociologists philosophers and designers confronting the problem of trust

**Politics of the Gift** Frank Adloff,2022-10-28 At the heart of capitalism lies the idea of homo economicus an ever rational human being motivated by self interest which arguably leads societies to economic prosperity Drawing on French sociologist Marcel Mauss influential theory of the gift Frank Adloff shatters this fallacy to show mutual trust is the only glue that holds societies together people are giving beings and they can cooperate for the benefit of all when the logic of maximizing personal gain in capitalism is broken Acknowledging the role of women nature and workers in the Global South in transforming society this book proposes a politics of conviviality from the Latin *con vivere* living together for global and environmental justice as an alternative to the pursuit of profit growth and consumption **The Copyright Wars** Peter

Baldwin,2016-05-17 Today s copyright wars can seem unprecedented Sparked by the digital revolution that has made copyright and its violation a part of everyday life fights over intellectual property have pitted creators Hollywood and governments against consumers pirates Silicon Valley and open access advocates But while the digital generation can be forgiven for thinking the dispute between for example the publishing industry and Google is completely new the copyright wars in fact stretch back three centuries and their history is essential to understanding today s battles The Copyright Wars the first major trans Atlantic history of copyright from its origins to today tells this important story Peter Baldwin explains why the copyright wars have always been driven by a fundamental tension Should copyright assure authors and rights holders lasting claims much like conventional property rights as in Continental Europe Or should copyright be primarily concerned with giving consumers cheap and easy access to a shared culture as in Britain and America The Copyright Wars describes how the Continental approach triumphed dramatically increasing the claims of rights holders The book also tells the widely forgotten story of how America went from being a leading copyright opponent and pirate in the eighteenth and nineteenth centuries to become the world s intellectual property policeman in the late twentieth As it became a net cultural

exporter and its content industries saw their advantage in the Continental ideology of strong authors rights the United States reversed position on copyright weakening its commitment to the ideal of universal enlightenment a history that reveals that today s open access advocates are heirs of a venerable American tradition Compelling and wide ranging The Copyright Wars is indispensable for understanding a crucial economic cultural and political conflict that has reignited in our own time

**Spreadable Media** Henry Jenkins, Sam Ford, Joshua Green, 2018-04-03 Spreadable Media maps fundamental changes taking place in the contemporary media environment a space where corporations no longer tightly control media distribution This book challenges some of the prevailing frameworks used to describe contemporary media **What We Are Fighting For** Federico Campagna, Emanuele Campiglio, 2012-09-06 Shortlisted for the Bread and Roses Prize 2013 From the pens of major figures of the anti austerity movement comes the first radical collective manifesto of the new decade From participatory democracy to media reform from direct action to communal living What Are We Fighting For is a bold look at alternatives to the economic social and political travesty of contemporary capitalism Chapters from Owen Jones David Graeber John Holloway Nina Power Mark Fisher Franco Berardi Bifo and Marina Sitrin show a multifaceted but collective desire for a better world Anarchists communists feminists and autonomists come together to inspire us to think beyond neoliberalism **Eucharist and Social Justice, The** Margaret Scott, Argues that the Eucharist is deeply political and potentially subversive and explores some of the many different aspects of the inseparable relationship between Eucharist and social justice *The Participatory Cultures Handbook* Aaron Alan Delwiche, Jennifer Jacobs Henderson, 2013 The Participatory Cultures Handbook will help students and scholars navigate this rapidly changing media and cultural terrain Composed of newly commissioned essays from contributors across disciplines this handbook will introduce students to the concept of participatory culture explain how researchers approach participatory culture studies and provide original examples of participatory culture in action The wide range of topics explored in participatory culture include crowdsourcing citizen journalism fanfiction wikis video games video sharing transmedia storytelling and much more **Production Studies, The Sequel!** Miranda Banks, Bridget Connor, Vicki Mayer, 2015-07-03 Production Studies The Sequel is an exciting exploration of the experiences of media workers in local global and digital communities from prop masters in Germany Chinese film auteurs producers of children s television in Qatar Italian radio broadcasters filmmakers in Ethiopia and Nigeria to seemingly autonomous Twitterbots Case studies examine international production cultures across five continents and incorporate a range of media including film television music social media promotional media video games publishing and public broadcasting Using the lens of cultural studies to examine media production Production Studies The Sequel takes into account transnational production flows and places production studies in conversation with other major areas of media scholarship including audience studies media industries and media history A follow up to the successful Production Studies this collection highlights new and important research in the field and promises to generate continued discussion about the

past present and future of production studies      *Why It's Still Kicking Off Everywhere* Paul Mason, 2013-10-01 Originally published in 2012 to wide acclaim this updated edition *Why It's Still Kicking Off Everywhere* includes coverage of the most recent events in the wave of revolt and revolution sweeping the planet riots in Athens student occupations in the UK Quebec and Moscow the emergence of the Occupy Movement and the tumult of the Arab Spring Economic crisis social networking and a new political consciousness have come together to ignite a new generation of radicals BBC journalist and author Paul Mason combines the anecdotes gleaned through first hand reportage with political economic and historical analysis to tell the story of today's networked revolution *Why It's Still Kicking Off Everywhere* not only addresses contemporary struggles it provides insights into the future of global revolt      *Proud to be Flesh* Josephine Berry Slater, Pauline Van Mourik Broekman, Michael Corris, 2009 Dedicated to an analysis of culture and politics after the net Mute magazine has since its inception in 1994 consistently challenged the grandiose claims of the digital revolution This anthology offers an expansive collection of some of Mute's finest articles and is thematically organised around key contemporary issues Direct Democracy and its Demons Net Art to Conceptual Art and Back I Cyborg Reinventing the Human of Commoners and Criminals Organising Horizontally Art and against Business Under the Net City and Camp Class and Immaterial Labour The Open Work The result is both an impressive overview and an invaluable sourcebook of contemporary culture in its widest sense      **The Economics of Enough** Diane Coyle, 2012-09-16 Why our economy is cheating the future and what we can do about it The world's leading economies are facing not just one but many crises The financial meltdown may not be over climate change threatens major global disruption economic inequality has reached extremes not seen for a century and government and business are widely distrusted At the same time many people regret the consumerism and social corrosion of modern life What these crises have in common Diane Coyle argues is a reckless disregard for the future especially in the way the economy is run How can we achieve the financial growth we need today without sacrificing a decent future for our children our societies and our planet How can we realize what Coyle calls the Economics of Enough Running the economy for tomorrow as well as today will require a wide range of policy changes The top priority must be ensuring that we get a true picture of long term economic prospects with the development of official statistics on national wealth in its broadest sense including natural and human resources Saving and investment will need to be encouraged over current consumption Above all governments will need to engage citizens in a process of debate about the difficult choices that lie ahead and rebuild a shared commitment to the future of our societies Creating a sustainable economy having enough to be happy without cheating the future won't be easy But *The Economics of Enough* starts a profoundly important conversation about how we can begin and the first steps we need to take      *Why It's Kicking Off Everywhere* Paul Mason, 2012-01-09 The world is facing a wave of uprisings protests and revolutions Arab dictators swept away public spaces occupied slum dwellers in revolt cyberspace buzzing with utopian dreams Events we were told were consigned to history democratic revolt and social

revolution are being lived by millions of people In this compelling new book Paul Mason explores the causes and consequences of this great unrest From Cairo to Athens Wall Street and Westminster to Manila Mason goes in search of the changes in society technology and human behavior that have propelled a generation onto the streets in search of social justice In a narrative that blends historical insight with first person reportage Mason shines a light on these new forms of activism from the vast agile networks of cyberprotest to the culture wars and tent camps of the occupy movement The events says Mason reflect the expanding power of the individual and call for new political alternatives to elite rule and global poverty
