Fujita Rony, 2003-03-04 Historically Filipina o Americans have been one of the oldest and largest Asian American groups in the United States In this pathbreaking work of historical scholarship Dorothy B Fujita Rony traces the evolution of Seattle as a major site for Philippine immigration between World Wars I and II and examines the dynamics of the community through the frameworks of race place gender and class By positing Seattle as a colonial metropolis for Filipina os in the United States Fujita Rony reveals how networks of transpacific trade and militarism encouraged migration to the city leading to the early establishment of a Filipina o American community in the area By the 1920s and 1930s a vibrant Filipina o American society had developed in Seattle creating a culture whose members including some who were not of Filipina o descent chose to pursue options in the U S or in the Philippines Fujita Rony also shows how racism against Filipina o Americans led to constant mobility into and out of Seattle making it a center of a thriving ethnic community in which only some remained permanently given its limited possibilities for employment The book addresses class distinctions as well as gender relations and also situates the growth of Filipina o Seattle within the regional history of the American West in addition to the larger arena of U S Philippines relations

**Menace to Empire**

Moon-Ho Jung, 2023-12-12 Menace to Empire is a profoundly original and ambitious book a history of race and empire that traces both the colonial violence and the anticolonial rage that the United States spread across the Pacific between the Philippine American War and World War II Author Moon Ho Jung argues that the US national security state as we know it

was born out of attempts to repress and silence colonized subjects from the Philippines and Hawai i to California and beyond whose anticolonial aspirations challenged US claims to sovereignty Jung examines how the contradictions of race nation and empire generated waves of revolutionary movements spanning the Pacific anticolonial antiracist and labor movements that exposed and confronted the US empire In response the US state closely monitored and brutally suppressed those movements by racializing particular politics and distinct communities as seditious exaggerating fears of pan Asian solidarities and sowing anti Asian racism under the guise of national security Menace to Empire transforms familiar themes in American history to highlight the critical role of colonial violence in the formation of radical movements and the antiradical origins of anti Asian racism Radicalized by their opposition to the US empire and racialized as threats to US security peoples in and from Asia pursued a revolutionary politics that gave rise to the national security state the heart and soul of the US empire ever since Provided by publisher Transnational Labour History Marcel van der Linden,2017-07-05 There has been a growing recognition amongst scholars that labour historians need to look beyond national borders in order to place the history of the working classes into a much broader context than has hitherto been the case Whilst studies focused on individual countries are essential it is only by comparing and contrasting the experiences across time and space that a true understanding of the subject can be attempted Professor Marcel van der Linden has contributed much to the debate on cross border processes and comparisons This volume makes available in English a collection of twelve of his most important essays on the theme of transnational labour history Previously published in a range of journals and volumes with two original contributions Transnational Labour History brings them together in a single convenient collection together with a new introduction This work will undoubtedly provide an invaluable resource for all students of European labour history Pacific Passage Warren I. Cohen,1996 A study of relations between America and East Asia on the eve of the twenty first century *Bundok* Adrian De Leon,2023-11-09 From the late eighteenth century the hinterlands of Northern Luzon and its Indigenous people were in the crosshairs of imperial and capitalist extraction Combining the breadth of global history with the intimacy of biography Adrian De Leon follows the people of Northern Luzon across space and time advancing a new vision of the United States s Pacific empire that begins with the natives and migrants who were at the heart of colonialism and its everyday undoing From the emergence of Luzon s eighteenth century tobacco industry and the Hawaii Sugar Planters Association s documentation of workers to the movement of people and ideas across the Suez Canal and the stories of Filipino farmworkers in the American West De Leon traces the Filipino as a racial category emerging from the labor subjugation archiving and resistance of native people De Leon s imaginatively constructed archive yields a sweeping history that promises to reshape our understanding of race making in the Pacific world *Freedom Incorporated* Colleen Woods,2020-05-15 Freedom Incorporated demonstrates how anticommunist political projects were critical to the United States expanding imperial power in the age of decolonization and how anticommunism was essential to the growing global economy of imperial violence in the Cold War era In this broad

historical account Colleen Woods demonstrates how in the mid twentieth century Philippines US policymakers and Filipino elites promoted the islands as a model colony In the wake of World War II as the decolonization movement strengthened those same political actors pivoted and after Philippine independence in 1946 lauded the archipelago as a successful postcolonial democracy Officials at Malaca ang Palace and the White House touted the 1946 signing of the liberating Treaty of Manila as a testament to the US commitment to the liberation of colonized people and celebrated it under the moniker of Philippine American Friendship Day Despite elite propaganda from the early 1930s to late 1950s radical movements in the Philippines highlighted US hegemony over the new Republic of the Philippines and in so doing threatened American efforts to separate the US from sordid histories of empire imperialism and the colonial racial order Woods finds that in order to justify US intervention in an ostensibly independent Philippine nation anticommunist Filipinos and their American allies transformed local political struggles in the Philippines into sites of resistance against global communist revolution By linking political struggles over local resources like the Hukbalahap Rebellion in central Luzon to a war against communism American and Filipino anticommunists legitimized the use of violence as a means to capture and contain alternative forms of political economic and social organization Placing the post World War II history of anticommunism in the Philippines within a larger imperial framework in Freedom Incorporated Woods illustrates how American and Filipino intelligence agents military officials paramilitaries state bureaucrats academics and entrepreneurs mobilized anticommunist politics to contain challenges to elite rule in the Philippines
