Gendered Struggles against Globalisation in Mexico Teresa Healy,2016-04-15 Teresa Healy here examines resistance within Mexican society during a period of sustained crisis at the regional and national level as well as at the level of world order She analyzes how working class men organized to fight for the recognition of their citizenship rights how they defended those rights when faced with repression and economic restructuring and how they contested the terms of globalization as it wrested from them their masculine identity of worker fathers Healy also demonstrates how these men

battled employers and masculinized political power at every level within the state to maintain their livelihoods and resist the feminization of their work and their own identities These were gendered struggles against globalizations as they were experienced and carried out by men The volume uncovers the limits and possibilities of working class men and women in transforming the conditions in which they live and work and highlights the diversity and rich political history of social movements in Mexico Routledge Handbook of Gender and Security Caron E. Gentry, Laura J. Shepherd, Laura Sjoberg, 2018-09-03 This handbook provides a comprehensive look at the study of gender and security in global politics The volume is based on the core argument that gender is conceptually necessary to thinking about central questions of security analytically important for thinking about cause and effect in security and politically important for considering possibilities of making the world better in the future Contributions to the volume look at various aspects of studying gender and security through diverse lenses that engage diverse feminisms with diverse policy concerns and working with diverse theoretical contributions from scholars of security more broadly It is grouped into four thematic sections Gendered approaches to security including theoretical conceptual and methodological approaches Gendered insecurities in global politics including the ways insecurity in global politics is distributed and read on the basis of gender Gendered practices of security including how policy practice and theory work together or do not Gendered security institutions across a wide variety of spaces and places in global politics This handbook will be of great interest to students of gender studies security studies and IR in Ethics, Authority, and War E. Heinze, B. Steele, 2009-11-23 In original essays written by both senior scholars as general well as rising younger scholars in the field of international ethics this volume addresses the ethics of war in an era when non state actors are playing an increasingly prominent role in armed conflict Gender, Sexuality, and the Cold War Philip E. Muehlenbeck, 2021-04-30 As Marko Duman i writes in his introduction to Gender Sexuality and the Cold War despite the centrality of gender and sexuality in human relations their scholarly study has played a secondary role in the history of the Cold War It is not an exaggeration to say that few were left unaffected by Cold War gender politics even those who were in charge of producing disseminating and enforcing cultural norms were called on to live by the gender and sexuality models into which they breathed life This underscores the importance of this volume as here scholars tackle issues ranging from depictions of masculinity during the all consuming space race to the vibrant activism of Indian peasant women during this period to the policing of sexuality inside the militaries of the world Gender Sexuality and the Cold War brings together a diverse group of scholars whose combined research spans fifteen countries across five continents claiming a place as the first volume to examine how issues of gender and sexuality impacted both the domestic and foreign policies of states far beyond the borders of the United States during the tumult of the Cold War Table of Contents Preface Introduction Hidden in Plain Sight The Histories of Gender and Sexuality during the Cold War Marko Duman i Part I Sexuality Faceless and Stateless French Occupation Policy toward Women and Children in Postwar Germany 1945 1949 Katherine Rossy Patriarchy and

The chapters by top scholars in their areas of expertise offer both reviews and empirical findings and insights and challenges for further work The chapters are organized in five sections Histories and Philosophies Organizing Work and the Gendered Organization Embodiment Globalization and Diversity Theoretical and conceptual developments at the cutting edge of the field are explicated and illustrated by the handbook s authors Methods for conducting research into gender work and organization are reviewed and assessed as well as illustrated in the work of several chapters Efforts to produce greater gender equality in the workplace are covered in nearly every chapter in terms of past successes and failures Military organizations are presented as one of the difficult to change in regards to gender with the result that women are marginalized in practice even when official policies and goals require their full inclusion The role of the body embodiment is emphasized in several chapters with attention both to how organizations discipline bodies and how organizational members use their bodies to gain advantage Particular attention is paid to sexuality in and organizations including sexual harassment policies to alleviate bias and the likelihood that future work will pay more attention to the body s presence and role in work and organizations Many chapters also address change efforts that have been employed by individuals groups and organizations including transnational ones such as the European Union the United Nations and so on In addition to its value for teachers and students within this field it also offers insights that would be of value to policy makers and practitioners who need to reflect on the latest thinking relating to gender at work and in organizations

Gendering Human Security in Afghanistan Ben Walter,2017-06-14 This book employs the concept of human security to show what the term means from the perspective of women in Afghanistan It engages with a well established debate in

academic and policy making contexts regarding the utility of human security as a framework for understanding and redressing conflict The book argues that this concept allows the possibility of articulating the substantive experiences of violence and marginalisation experienced by people in local settings as well as their own struggles towards a secure and happy life In this regard it goes a long way to making sense of the complex dynamics of conflict which have confounded Western policy makers in their ongoing state building mission in Afghanistan However despite this inherent potential the idea of human security still needs refinement Crucially it has benefitted from critical feminist and critical social theories which provide the conceptual and methodological depth necessary to apprehend what a progressive ethical program of security looks like and how it can be furthered Using this framework the work provides a critical reconstruction of the effect of the US led Western Intervention on women's experiences of in security in the three provincial contexts of Nangarhar Bamiyan and Kabul This reconstruction is drawn from a wealth of historical and contemporary sociological research alongside original fieldwork undertaken in Delhi India during 2011 with women and men from the country's different communities This book will be of much interest to students of human security state building gender politics war and conflict **Engaging Men in the Fight against Gender Violence** Jane Freedman, 2012-12-05 Gender studies and IR in general based violence is a global phenomenon which affects millions worldwide However despite the increasing attention which is now paid to this violence by policy makers data seem to indicate that these efforts are not having as great an impact as may have been hoped In all countries of the world reports of gender related violence remain elevated whilst many incidents of such violence probably remain unreported due to fear of stigma or reprisals for those who are victims One of the problems in tackling gender based violence has been that for too long men have been ignored as part of the solution Men are often labelled as perpetrators of violence but they are perhaps too infrequently considered also as potential victims or as partners and actors in the fight against violence Constructions of masculinities are not adequately studied to analyse how dominant forms of masculinities may contribute to cycles of violence and may also oppress and traumatise men themselves This volume aims to address critically the issues of men masculinity and gender based violence asking how men can be fully engaged in the prevention of gender based violence and how this engagement can strengthen prevention initiatives Gender, Conflict and Peace in Kashmir Seema Shekhawat, 2014-03-06 Discusses the role of women in militancy in Kashmir from a historical Globalization Eleonore Kofman, Gillian Youngs, 2003-03-20 This revised second edition perspective Provided by publisher of a popular textbook provides a powerful new context for debates about globalization through its identification of both continuities and new concerns and demonstrates the cross disciplinary imperatives for investigating these areas Selected contributors Spike V Peterson Simon Dalby Philip Cerny Jan Jindy Petman Anne Sisson Runyan Marianne Marchand

Foreign Policy Analysis of a Baltic State Tomas Janeliūnas,2020-12-30 This book provides a comprehensive analysis of Lithuanian foreign policy by employing the theory of small states and the agent perspective to assess how President Dalia

Grybauskait impacted Lithuanian foreign policy in 2009 2019 and which in turn could affect changes in international structures The book is based on original interviews with Grybauskait and all her foreign policy advisors as well as other Lithuanian diplomats and Ministers of Foreign Affairs In addition to providing an important case study of Lithuanian foreign policy this monograph also discusses the impact an agent formulating and executing small state foreign policy may have on the grand structures of international relations such as the EU and NATO For its investigation of the mutual relationship between agent and structure this monograph draws on the literature on foreign policy analysis FPA and asks questions about the extent to which a particular leader of foreign policy may determine a specific policy decision or outcome This book will be of particular interest to students of the Baltic region and Russia Baltic relations as well as to political scientists and researchers interested in FPA literature and small state security The Making of a Makbul Father Mürüvet Esra Yıldırım, 2024-08-08 This book draws upon qualitative interviews with lower middle class men with adult children It provides important insight into a region of the world that has not been sufficiently studied in the field of Masculinity Studies and analyzes manhood fatherhood from a novel perspective It uses Margaret Wetherell's 2012 theory of affective practice to focus on moments men experience masculinity as essence and free play as formulated by Todd W Reeser 2010 Elaborating on affective practices which stabilize and destabilize makbulhood manhood and fatherhood it focuses on a long excluded generation of men in the literature and illuminates men s Iamnotlikethem and Iamlikeallmenontheearth moments It is relevant to researchers in gender studies masculinity studies social psychology and family sociology Identitarianism José Pedro Zúguete, Riccardo Marchi, 2023-06-02 Global Identitarianism is about the global spread of the new far right ideology and social movement Identitarianism Founded in France in 2003 Identitarianism has inspired a range of groups such as Generation Identity in Europe and the alt right in America It has been spread by a far right constellation that includes white nationalist direct action groups think tanks alternative media organizations social media celebrities and political candidates This book explores the global reach of this contentious far right social movement using examples from Europe North America Australia and South America It will be essential reading for scholars and activists alike with an interest in race relations fascism extremism migration studies and social movements **Responsibility to Protect and** Women, Peace and Security Sara E. Davies, Zim Nwokora, Eli Stamnes, Sarah Teitt, 2013-08-08 In Responsibility to Protect and Women Peace and Security Aligning the Protection Agendas editors Davies Nwokora Stamnes and Teitt address the intersections of the Responsibility to Protect R2P principle and the Women Peace and Security WPS agenda Widespread or systematic sexual or gender based violence is a war crime a crime against humanity and an act of genocide all of which are clearly addressed in the R2P principle The protection of those at risk of widespread sexual violence is therefore not only relative to the Women Peace and Security WPS agenda but a fundamental sovereign obligation for all states as part of their commitment to R2P Contributions from policy makers and academics consider both the merits and the utility of aligning the

protection agendas of R2P and WPS Ultimately a number of actionable recommendations are made concerning a unification of the agendas to best support the global empowerment of women and prevention of mass atrocities Homeland' Myriam Anna Dunn, Kristian Søby Kristensen, 2020-04-28 This edited volume uses a constructivist reflexive approach to address critical infrastructure protection CIP a central political practice associated with national security The politics of CIP and the construction of the threat they are meant to counter effectively establish a powerful discursive connection between that the traditional and normal conditions for day to day politics and the exceptional dynamics of national security Combining political theory and empirical case studies this volume addresses key issues related to protection and the governance of insecurity in the contemporary world The contributors track the transformation and evolution of critical infrastructures and closely related issues of homeland security into a security problem and analyze how practices associated with CIP constitute and are an expression of changing notions of security and insecurity The book explores aspects of securitisation as well as at practices audiences and contexts that enable and constrain the production of the specific form of governmentality that CIP exemplifies It also explores the rationalities at play the effects of these security practices and the implications for our understanding of security and politics today Gendering Global Conflict Laura Sjoberg, 2013-08-13 Laura Sjoberg positions gender and gender subordination as key factors in the making and fighting of global conflict Through the lens ofgender she examines the meaning causes practices and experiences of war building a more inclusive approach to the analysis of violent conflict between states Considering war at the international state substate and individual levels Sjoberg's feminist perspective elevates a number of causal variables in war decision making These include structural gender inequality cycles of gendered violence state masculine posturing the often overlooked role of emotion in political interactions gendered understandings of power and states mistaken perception of their own autonomy and unitary nature Gendering Global Conflict also calls attention to understudied spaces that can be sites of war such as the workplace the household and even the bedroom Her findings show gender to be a linchpin of even the most tedious and seemingly bland tactical and logistical decisions in violent conflict Armed with that information Sjoberg undertakes the task of redefining and reintroducing critical readings of war s political economic and humanitarian dimensions developing the beginnings of a feminist theory of war Gender Integration in NATO Military Forces Lana Obradovic, 2016-04-15 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased women s numbers and improved gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military

participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award
