Mannerism in Art, Literature, and Music: A Bibliography. Compiled by Richard Studing and Elizabeth Kruz. San Antonio: Trinity University Press, 1979. xvii + 60 pp. \$7.50.

Professor Maniates' study is the first full-length treatment of the concept of Mannerism as applied to music. Among general books on Mannerism only the work of John Shearman gives more than passing attention to music; but in recent years a number of musicologists have interested (or bedevilled) themselves, in articles and monographs, with application of the subject to Renaissance musical culture. Professor Maniates was among the first in this generation to do so, writing about mannerist trends in fifteenth-century Flemish polyphony. In this book she changes her original geographical and chronological focus while summarizing and elaborating upon her own earlier ideas and giving full attention to the work of other music historians—even those with whom she disagrees.

Disagreement over what defines Mannerism and when it may be said to have been in vogue is only to be expected; still, historians of art and literature may be surprised to learn that Mannerism is in the ear of the auditor as well as in the eye of the beholder. None of the musicologists whose work the author cites have quite the same view of the subject, and there is not even general agreement on which composers should be called mannerists: Palestrina is a classicist to many but a mannerist to some; Lasso is either a mannerist or an eclectic of genius; Monteverdi is a naturalist or a mannerist; Gesualdo is either expressionist or mannerist. The labels come unglued easily enough, but they are indications of the difficulty music historians have had in reconciling the cultural history of the late Renaissance with stylistic identification and growth in their own field.

The first quarter of this book is a review of currents in Italian painting and poetry, theory and practice, during the century 1530–1630. There is not very much new here, and the survey is a rather hurried one. Since the author is on the whole opposed to *Zeitgeist* analogies between the arts, particularly between painting and music, one wonders why this section need be here. But the labels Professor Maniates later attaches to the music she wants to talk about are drawn from the

Mannerism and Baroque in Seventeenth-century French Poetry James Crenshaw

Shepard, 2001 This book examines mannerism and baroque in the poetry of Tristan L'Hermite a leading lyric poet of the

seventeenth century After presenting a history of scholarship on both the mannerist and baroque styles James Shepard offers

a definition of each as it applies to seventeenth century lyric poetry He then turns to Tristan s works examining the poems contained in the *Plaintes d Acante et autres ouvres Les Amours La Lyre* and the *Vers heroiques* his religious poetry *La Renomme* and his recently discovered poems Shepard reveals Tristan s amatory poetry to be mannerist and his heroic and religious poetry to be baroque Many poems however contain elements of both styles This supports Frank J Warnke s theory that Baroque is the period style with mannerism and baroque being two aspects of the period Shepard also uncovers a baroque dompte style the toned down baroque that Helmut Hatzfeld and others argue characterized French classicism in some of Tristan s heroic and religious poetry
