Keine ausführliche Beschreibung für Stadt und Bürgertum im 19. Jahrhundert verfügbar Methodology of the Social Sciences, Ethics, and Economics in the Newer Historical School Peter Koslowski, 2012-12-06 The volume at hand gives an exposition of the tradition of the Historical School of Economics and of the Geisteswissenschaften or human sciences the latter in their development within the Historical School as well as in Neo Kantianism and the sociology of knowledge It continues the discussion started in the year 1994 on the Older Historical School of Economics and the 19th century German contribution to an ethical theory of economics with the Newer Historical School of the 20th century Economists social scientists and philosophers examine the contribution of this tradition and its impact for present theory The schools of thought and their approaches to economics as well as to the cultural and social sciences are examined here not as much for their historical interest as for their potential systematic contribution to the contemporary debates on economic ethics economics sociology and philosophy The volume at hand contains the proceedings of the Fourth Annual SEEP Conference on Economic Ethics and Philosophy in 1996 Economics and Ethics in the Historical School Part B Max Weber Heinrich Rickert Max Scheler Werner Sombart Arthur Spiethoff John Commons Alfred Marshall and Others held at Marienrode Monastery near Hannover Germany on March 27-30th 1996 together with several additional invited papers **Journal of the Society of Architectural Historians** Society of Architectural Historians, 1994 Includes special issues *Karl Mannheim's Sociology As Political Education* David Kettler, David Kettler, Colin Loader, **Zeitschrift für bayerische Landesgeschichte**, 1988

Karl Mannheim's Sociology as Political Education Colin Loader, 2018-01-16 German professors and academic intellectuals are often blamed for their passivity or complicity in the face of the anti Republican surge of the late Weimar years culminating in the National Socialist rise to power Karl Mannheim was a preeminent member of a vital minority committed to making German universities contribute to democratization Mannheim argued that traditional German emphasis on the cultivation of individuals rooted in a certain high culture had to be adapted to a more egalitarian socially complex community He advocated teaching of sociology to create social awareness to inspire informed political judgments Karl Mannheim's *Sociology as Political Education* situates Mannheim in the Weimar debates about sociology in the university It shows how his project of political education for democracy informs his work as well as his relations with liberal fascist and orthodox Marxist thinkers In advancing his educational strategy Mannheim had to contend with influential figures who attacked sociology as a mere political device to undermine cultural and national values for the sake of narrow interests and partisanship He also had to overcome the objections of fellow sociologists who felt the discipline would prosper only if it could persuade other academics that it made no claim to educational goals beyond the reproduction of technical findings He had to separate

himself from proponents of a politicized sociology Mannheim argued that sociology should respond to problems that actually confronted individuals in their lives be tolerant of difference and distance and support efforts to generate agreement rather than encourage competition Sociological thought had to be rigorous critical and attentive to evidence but also congruent with the ultimate responsibility of individuals to fashion their lives through their acts Karl Mannheim's Sociology as Political Education is a joint effort by two authors who have written separately on Karl Mannheim's sociological work and who write from different disciplines and traditions of commentary The Mannheim who emerges from this volume is remarkably contemporary In particular he supports arguments that the threat to academic integrity is feared less in sociology than in certain areas of cultural studies Certainly the issue of academic politicization was better understood by Mannheim in his time than it is by either side of the debate today **Mannheimer Villen** Ferdinand Werner, 2009 **Blätter für deutsche Landesgeschichte**, 1992 Between Heimat and Hatred Philipp Nielsen, 2019-04-15 In the decades between German unification and the demise of the Weimar Republic German Jewry negotiated their collective and individual identity under the impression of legal emancipation continued antisemitism the emergence of Zionism and Socialism the First World War and revolution and the republic For many German Jews liberalism and also increasingly Socialism became attractive propositions Yet conservative parties and political positions right of center also held appeal for some German Jews Between Heimat and Hatred studies German Jews involved in ventures that were from the beginning or became increasingly of the Right Jewish agricultural settlement Jews participation in the so called Defense of Germandom in the East their place in military and veteran circles and finally right of center politics form the core of this book These topics created a web of social activities and political persuasions neither entirely conservative nor entirely liberal For those German Jews engaging with these issues their motivation came from sincere love of their German Heimat a term for home imbued with a deep sense of belonging and from their middle class environment as well as to repudiate antisemitic stereotypes of rootlessness intellectualism or cosmopolitanism This tension stands at the heart of the book The book also asks when did the need for self defense start to outweigh motivations of patriotism and class Until when could German Jews espouse views to the right of the political spectrum without appearing extreme to either Jews or non Jews In an exploration of identity and exclusion Philipp Nielsen locates the moments when active Jewish members of conservative projects became the radical other He notes that the decisive stage of the transformation of the German Right occurred precisely during a period of republican stabilization when even mainstream right of center politics abandoned the state centric Volk based ethnic concepts of the Weimar republic The book builds on recent studies of Jews relation to German nationalism the experience of German Jews away from the large cities and the increasing interest in Germans obsession with regional roots and the East The study follows these lines of inquiry to investigate the participation of some German Jews in projects dedicated to originally or increasingly illiberal projects As such it shines light on an area in which Jewish participation has thus far only been treated as an afterthought and
