Thought in Russia in the Second Half of the Twentieth Century Vladislav Lektorsky, Marina F. Bykova, 2019-01-10 Philosophical Thought in Russia in the Second Half of the 20th Century is the first book of its kind that offers a systematic overview of an often misrepresented period in Russia's philosophy Focusing on philosophical ideas produced during the late 1950s early 1990s it reconstructs the development of genuine philosophical thought in the Soviet period and introduces those non dogmatic Russian thinkers who saw in philosophy a means of reforming social and intellectual life Covering such areas of philosophical inquiry as philosophy of science philosophical anthropology the history of philosophy activity approach as well as communication and dialogue studies the volume presents and thoroughly discusses central topics and concepts developed by Soviet thinkers in that particular fields Written by a team of internationally recognized scholars from Russia and abroad it examines the work of well known Soviet philosophers such as Mikhail Bakhtin Evald Ilyenkov and Merab Mamardashvili as well as those important figures such as Vladimir Bibler Alexander Zinoviev Yuri Lotman Georgy Shchedrovitsky Genrich Batishchev Sergey Rubinstein and others who have often been overlooked By introducing and examining original philosophical ideas that evolved in the Soviet period the book confirms that not all Soviet philosophy was dogmatic and tied to orthodox Marxism and the ideology of Marxism Leninism It shows Russian philosophical development of the Soviet period in a new light as a philosophy defined by a genuine discourse of exploration and intellectual progress rather than stagnation and dogmatism In addition to providing the historical and cultural background that explains the development of the 20th century Russian philosophy the book also puts the discussed ideas and theories in the context of contemporary philosophical discussions showing their relevance to nowadays debates in Western philosophy With short biographies of key thinkers an extensive current bibliography and a detailed chronology of Soviet philosophy this research resource provides a new understanding of the Soviet period and its intellectual legacy 100 years after the Russian Revolution MAN'S PLACE IN THE COSMOS Andrew Seth Pringle-Pattison, 1897 Mystics of the Renaissance and Their Relation to Modern Thought, Including Meister Eckhart, Tauler, Paracelsus, Jacob Boehme, Giordano Bruno, and Others Rudolf Steiner, 1910-01-01 The matter which I am laying before the public in this book formed the content of lectures which I delivered during last winter at the Theosophical Library in Berlin I had been requested by Graf Brockdorff to speak upon Mysticism before an audience for whom the matters thus dealt with constitute a vital question of the utmost importance Ten years earlier I could not have ventured to fulfil such a request Not that the realm of ideas to which I now give expression did not even then live

actively within me For these ideas are already fully contained in my Philosophy of Freedom Berlin 1894 Emil Felber But to give expression to this world of ideas in such wise as I do to day and to make it the basis of an exposition as is done on the following pages to do this requires something quite other than merely to be immovably convinced of the intellectual truth of these ideas It demands an intimate acquaintance with this realm of ideas such as only many years of life can give Only now after having enjoyed that intimacy do I venture to speak in such wise as will be found in this book Any one who does not approach my world of ideas without preconceptions is sure to discover therein contradiction after contradiction I have quite recently Berlin 1900 S Cronbach dedicated a book upon the world conceptions of the nineteenth century to that great naturalist Ernst Haeckel and closed it with a defence of his thought world In the following expositions I speak about the Mystics from Master Eckhart to Angelus Silesius with a full measure of devotion and acquiescence Other contradictions which one critic or another may further count up against me I shall not mention at all It does not surprise me to be condemned from one side as a Mystic and from the other as a Materialist When I find that the Jesuit Father M ller has solved a difficult chemical problem and I therefore in this particular matter agree with him unreservedly one can hardly condemn me as an adherent of Jesuitism without being reckoned a fool by those who have insight Whoever goes his own road as I do must needs allow many a misunderstanding about himself to pass That however he can put up with easily enough For such misunderstandings are in the main inevitable in his eyes when he recalls the mental type of those who misjudge him I look back not without humorous feelings upon many a critical judgment that I have suffered in the course of my literary career At the outset matters went fairly well I wrote about Goethe and his philosophy What I said there appeared to many to be of such a nature that they could file it in their mental pigeon holes This they did by saying A work such as Rudolf Steiner s Introduction to Goethe s Writings upon Natural Science may without hesitation be described as the best that has been written upon this question When later I published an independent work I had already grown a good bit more stupid For now a well meaning critic offered the advice Before he goes on reforming further and gives his Philosophy of Freedom to the world he should be pressingly advised first to work himself through to an understanding of these two philosophers Hume and Kant The critic unfortunately knows only so much as he is himself able to read in Kant and Hume practically therefore he simply advises me to learn to see no more in these thinkers than he himself sees When I have attained that he will be satisfied with me Then when my Philosophy and Freedom appeared I was found to be as much in need of correction as the most ignorant beginner This I received from a gentleman who probably nothing else impelled to the writing of books except that he had not understood innumerable foreign ones He gravely informs me that I should have noticed my mistakes if I had made more thorough studies in psychology logic and the theory of knowledge and he enumerates forthwith the books I ought to read to become as wise as himself Mill Sigwart Wundt Riehl Paulsen B Erdmann What amused me especially was this advice from a man who was so impressed with the way he understood Kant that he could not even imagine how any man

could have read Kant and yet judge otherwise than himself He therefore indicates to me the exact chapters in question in Kant's writings from which I may be able to obtain an understanding of Kant as deep and as thorough as his own

The Power of Sovereignty Sayed Khatab, 2006-02-14 The Power of Sovereignty explores the religious, political and philosophical concepts of Sayyid Qutb, one of the most influential political thinkers for contemporary Islamists and who has greatly influenced the likes of Osama Bin Laden. Executed by the Egyptian state in 1966, his books continue to be read and his theory of jahiliyya ignorance is still of prime importance for radical Islamic groups. Providing a detailed perspective of Sayyid Qutb's writings, this book examines the relation between the specifics of the concept of hakimiyyah and that of jahiliyyah, the force and intent of these two concepts, how Qutb employs their specifics to critically assess the political establishments like nationalism and capitalism, the influence of the two concepts on Egypt's radical Islamic movements where many of al-Qaeda's lieutenants, officers, ideologues and conspirators were fomented. Shedding light on Islamic radicalism and its intellectual origins, The Power of Sovereignty presents new analysis on the intellectual legacy of one of the most important thinkers of modern Islamic revival.

Sufi Essays Seyyed Hossein Nasr, 1972-06-30 This book combines scholarly research into certain aspects of Sufi doctrines and history with a penetrating account of the spiritual and metaphysical message and significance of Sufism as a living spiritual tradition. In an original discussion unlike anything that has appeared before in studies of Sufism, the author places special accent on the pertinence of Sufi teachings to the most acute contemporary problems. The book addresses itself to both the ever-increasing Western public interested in Sufism and to the Western educated Muslim interested in his own spiritual heritage. Dr. Nasr draws on his intimate knowledge of the Sufi literature in Arabic and Persian as well as his first-hand knowledge of Sufi tradition itself to produce this further volume in his numerous studies on the different facets of Islam.
