Coquillette, 1988-01-01 The Civilian Writers of Doctors Commons London Three Centuries of Juristic Innovation in Comparative Commercial and International Law [On Second Thought](#) Debra Taylor Bourdeau, Elizabeth Kraft, 2007 Every ending marks a potential beginning every act of reading is in a very real sense an act of re-writing and to revise is literally to re-see These bits of conventional wisdom underlie the topic explored in this volume's collection of essays by literary critics who want to know more about the instinct to continue and the impulse to revise an existing text [Literary Afterlife](#) Bernard A. Laughing at the Gods Allan C. Hutchinson,2012-02-20 Any effort to understand how law works has to take seriously its main players judges Like any performance judging should be evaluated by reference to those who are its best exponents Not surprisingly the debate about what makes a great judge is as heated and inconclusive as the debate about the purpose and nature of law itself History shows that those who are candidates for a judicial hall of fame are game changers who oblige us to rethink what it is to be a good judge So the best of judges must tread a thin line between modesty and hubris they must be neither mere umpires nor demigods The eight judges showcased in this book demonstrate that if the test of good judging is not about getting it right but doing it well then the measure of great judging is about setting new standards for what counts as judging well
