Reading Revolutionary Iran Ze'ev Maghen, 2023-03-06 The burden of this book is twofold The first half is charged with identifying and critiquing the many prejudices and misconceptions that inform popular and even scholarly perceptions of Islam and Iran those rooted in neo conservative hostility no less than those arising out of pro regime apologetics or what we will argue are misleading post modern methodologies This is a key component of our overall investigation both because the illusions occluding our view of the Islamic Republic are we assert piled so high and deep and because setting the record straight on many a contentious issue is the most appropriate context for elucidating the positive positions of the revolutionary clerics These last represent perhaps more than anything else the premier critics of Western civilization in our day and their ideologies may therefore be best comprehended when placed in dialogue with and in polemic against the worldviews of that civilization which in their own turn are often most profoundly understood when offset by their present day Islamist nemeses As noted above it is not all contention unexpected meeting points and congruities emerge as well when the activist Shi'ite clerics are placed in the same virtual room with their occidental counterweights The second half of the book deploys a large number of rarely tapped primary sources both ancient and contemporary in order to tease out the attitudes of the class of Muslim scholars recently and currently at the helm of the Iranian state in a variety of significant fields including the role of religion in society the relationship between democracy and theocracy the modern Western Weltanschauung the Sunni Shi'i schism and much more Though the author parses and provides background and context for the myriad citations from these influential Muslim thinkers the ultimate objective is to allow them to speak for themselves **The Passion of Michel Foucault** James Miller, 2000 Based on extensive new research and a bold interpretation of the man and his texts The Passion of Michel Foucault is a startling look at one of this century's most influential philosophers It chronicles every stage of Foucault's personal and professional odyssey from his early interest in dreams to his final preoccupation with sexuality and the nature of personal identity The Persian Puzzle Kenneth Pollack, 2005-08-09 In his highly influential book The

Threatening Storm bestselling author Kenneth Pollack both informed and defined the national debate about Iraq Now in The Persian Puzzle published to coincide with the twenty fifth anniversary of the Iran hostage crisis he examines the behind the scenes story of the tumultuous relationship between Iran and the United States and weighs options for the future Here Pollack a former CIA analyst and National Security Council official brings his keen analysis and insider perspective to the long and ongoing clash between the United States and Iran beginning with the fall of the shah and the seizure of the American embassy in Tehran in 1979 Pollack examines all the major events in U S Iran relations including the hostage crisis the U S tilt toward Iraq during the Iran Iraq war the Iran Contra scandal American Iranian military tensions in 1987 and 1988 the covert Iranian war against U S interests in the Persian Gulf that culminated in the 1996 Khobar Towers terrorist attack in Saudi Arabia and recent U S Iran skirmishes over Afghanistan and Iraq He explains the strategies and motives from American and Iranian perspectives and tells how each crisis colored the thinking of both countries leadership as they shaped and reshaped their policies over time Pollack also describes efforts by moderates of various stripes to try to find some way past animosities to create a new dynamic in Iranian American relations only to find that when one side was ready for such a step the other side fell short With balanced tone and insight Pollack explains how the United States and Iran reached this impasse why this relationship is critical to regional global and U S interests and what basic political choices are available as we deal with this important but deeply troubled country Persian Language, Literature and Culture Kamran

including the Sunni Arab countries along with the US and EU Iran is wary of the world s powers after having been preyed upon to achieve other countries political aims Iranians are Shia Muslims a minority sect comprising only 10 to 15% of the billion plus Muslims in the world Shias persecution and marginalization began in ancient times after the demise of the Prophet of Islam in 632 and has continued ever since In modern times their worldwide oppression has been spearheaded by

Saudi Arabia whose religion considers Shias to be apostates who deserve to be killed and its allies a persecution that began with the 1979 Iranian Revolution which was followed by the unprovoked invasion of Iran by Iraq in 1980 and the successful defence of this invasion by Iran's revolutionary forces Building upon this history Iran the Citadel of Shia Imams details the alarming aggression of the Sunni countries of the Middle East against the Shia led regimes of Iraq Syria and Yemen a relentless persecution of Shia Muslims and extreme injustice and aggression towards them the details of which need to be brought to light The unfortunate and reckless support of Saudi Arabia and its allies by the US and many other Western nations has perpetuated a blatant infringement upon the human rights of Iranians and Shia Muslims elsewhere The oppression of Iranians continues in the form of toughened US sanctions contrary to international law *Iranian Hospitality, Afghan Marginality* Elisabeth Yarbakhsh,2021-02-11 In *Iranian Hospitality Afghan Marginality* Elisabeth Yarbakhsh unpacks ideas around culture identity and the relationship between Iranian citizens and Afghan refugees living in Shiraz Iran and surrounding areas Yarbakhsh highlights the ways in which shifting policies and practices toward refugees over the past forty years have run parallel to the transitive notions of what it means to be Iranian Yarbakhsh exposes the complex interplay of identity and hospitality as it emerges out of variously competing and intersecting Islamic historical and literary narratives of Iranian identity carefully illustrating how these factors circumscribe Afghan refugee life in the city of Shiraz Shi'ism Heinz Halm,2004 Heinz Halm's work presents a thorough discussion of the history theology and current state of this branch of Islam Newly revised Shi'ism includes updated information on the fate of the Shi'ite revolution in Iran as well as a new chapter on Iraq Halm explores how Shi'ism differs from the rest of Islam discussing the prominence of its authorities the Imams as well as its legal system practices of worship places of pilgrimages and a religious ethos characterized by a fervor to suffer for the cause **Holy War** Karen Armstrong,2001-11-27 The New York Times bestselling author of *A History of God* skillfully narrates the history of the Crusades with a view toward their profound and continuing influence Holy War brings compassion objectivity breadth and imagination to the most urgent crisis of our time The Boston Phoenix In 1095 Pope Urban II summoned Christian warriors to take up the cross and reconquer the Holy Land Thus began the holy wars that would focus the power of Europe against a common enemy and become the stuff of romantic legend In reality the Crusades were a series of rabidly savage conflicts in the name of piety And as Armstrong demonstrates in this fascinating book their legacy of religious violence continues today in the Middle East where the age old conflict of Christians Jews and Muslims persists **Mission Manifest** Matthew K. Shannon,2024-06-15 In *Mission Manifest* Matthew Shannon argues that American evangelicals were central to American Iranian relations during the decades leading up to the 1979 revolution These Presbyterian missionaries and other Americans with ideals worked with US government officials nongovernmental organizations and their Iranian counterparts as cultural and political brokers the living sinews of a binational relationship during the Second World War and early Cold War As US global hegemony peaked between the 1940s and the 1960s the

religious authority of the Presbyterian Mission merged with the material power of the American state to infuse US foreign relations with the messianic ideals of Christian evangelicalism In Tehran the missions of American evangelicals became manifest in the realms of religion development programs international education and cultural associations Americans who lived in Iran also returned to the United States to inform the growth of the national security state higher education and evangelical culture The literal and figurative missions of American evangelicals in late Pahlavi Iran had consequences for the binational relationship the global evangelical movement and individual Americans and Iranians Mission Manifest offers a history of living breathing people who shared personal professional and political aims in Iran at the height of American global power

**Negotiating Change** Jeremy Jones, 2006-11-24 The Middle East is frequently portrayed as a collection of stubbornly authoritarian states whose behaviour can only be changed by the table thumping or even the military intervention of the US government But as Jeremy Jones uncovers in this fascinating book the region is in fact engaged in a profound and tumultuous process of political change The movements seeking democracy and reform that have emerged are rooted in local cultures and political traditions And because of this they are overlooked obstructed or even undermined by the US's pursuit of a one size fits all Western democratic model A veteran Harvard Middle East analyst Jeremy Jones travels from Morocco to Oman from Egypt to Iran listening to grassroots activists and interviewing major political leaders such as Turkish Prime Minister Erdogan He provides a vivid picture of the changing political cultures of the Middle East He looks at new forms of political Islam from Hamas in the West Bank to the Justice and Development Party in Turkey to Hizballah in Lebanon demonstrating how each movement grew out of its local context He meets women politicians in the Gulf Hamas leaders in Ramallah and democracy activists in Jordan and Syria seeking to understand how these new forces relate to each other to their societies and to Western policies In a trenchant critique of the much vaunted US democratisation agenda Jones concludes that a participatory and accountable political culture is slowly emerging in spite not because of Western foreign policies
