Mutual Fund Fact 1989:

Mutual Fund Fact Book, 1990 Investment Company Institute, 1990-05 **Statistical Reference Index**, 1994 **The Economics of Mutual Fund Markets: Competition Versus Regulation** William Baumol, Stephen M. Goldfeld, Lilli A. Gordon, Frank-Michael Köhn, 2012-12-06

The original impetus for this research was provided several years ago by a request to assist Counsel for Fidelity Management and Research Corporation in analyzing the mutual fund industry with particular emphasis on money market mutual funds. We were asked to focus our efforts on the mechanism by which the advisory fees of mutual funds are determined. This request arose out of litigation that challenged the level of advisory fees charged to the shareholders of the Fidelity Cash Reserve Fund. Subsequently we were asked to provide similar assistance to Counsel for T. Rowe Price Associates regarding the fees charged to shareholders of their Prime Reserve Fund. 1940 advisers of Under the Investment Company Act of mutual funds have a fiduciary duty with respect to the level of fees they may charge a fund's shareholders. Since the passage of the Investment Company Act there have been numerous lawsuits brought by shareholders alleging that advisory fees were excessive. In these lawsuits the courts have failed to provide a set of standards for determining when such fees are excessive. Instead they have relied on arbitrary and frequently ill defined criteria for judging the reasonableness of fees. This failure to apply economic based tests for evaluating the fee structure of mutual funds provided the motivation for the present book which undertakes a comprehensive analysis of the economics of the mutual fund industry.

International Competitiveness in Financial Services Marvin H. Kosters, A.H. Meltzer, 2012-12-06

financial markets suggests that factors such as differences in capital requirements limitations on size or on the range of financial activities in which firms can engage government guarantee arrangements for deposits or payments and reporting or disclosure requirements can have important effects on the efficiency of industrial and commercial firms and thus on the international competitive positions of major sectors of the U.S. economy. Regulatory and tax policies must therefore take into account effects on international competitive positions in addition to domestic concerns. The articles in this issue analyze differences in market organization and regulation across countries and examine how efficiency in producing financial services is influenced by these differences. These articles were presented and discussed at a conference sponsored by the American Enterprise Institute in Washington D.C. on May 31 and June 1, 1990. This conference on International Competitiveness in Financial Services brought to the attention of Washington policy officials these analyses by leading scholars in finance. Publication of these studies and critiques in the Journal of Financial Services Research is intended to stimulate further interest in research on these important issues.
