109 Provisional Attempts to Address Six Simple and Hard Questions about what Architects Do Today and where Their Profession Might Go Tomorrow Jennifer Sigler, 2003 Short essays by respected architects and theorists around the question What is an architect in today's society *Space Fighter* Winny Maas, 2021-12-27 An exploration of the Evolutionary City by simulating the challenges of urban growth decline and vitality **How to Read Architecture** Paulette Singley, 2019-06-26 How to Read Architecture is based on the fundamental premise that reading and interpreting architecture is something we already do and that close observation matters This book enhances this skill so that given an unfamiliar building you will have the tools to understand it and to be inspired by it Author Paulette Singley encourages you to misread closely read conventionally read and unconventionally read architecture to stimulate your creative process This book explores three essential ways to help you understand architecture reading a building from the outside in from the inside out and from the position of out and out or formal architecture This book erodes boundaries between the frequently compartmentalized fields of interior design landscape design and building design with chapters exploring concepts of terroir scenography criticality atmosphere tectonics inhabitation type form and enclosure Using examples and case studies that span a wide range of historical and global precedents Singley addresses the complex interaction among the ways a building engages its context addresses its performative exigencies and operates as an autonomous aesthetic object Including over 300 images this book is an essential read for both undergraduate and postgraduate students of architecture with a global focus on the interpretation of buildings in their context **Archinesia 03** Imelda Akmal, 2013-01-01 Does Architecture Shape the City or Vice Versa Architecture is a visual object that most strongly shape the face of any city And in this 3 volume Archinesia trying to discusses cities in their relation to architecture with seven urban experts to give an answer about the architecture of Jakarta Completed with written interview with Syed Sobri Zubir associate professor at Universiti Teknologi MARA UTM Malaysia to gain a clearer perspective of this edition's main topic Does Architecture Shape the City or Vice Versa Current Project From Southeast Asia Andra Matin DCM Jakarta Indra Tata Adilaras Wilkinson Eyre Architects DP Architects Ong Ong Singapore Bangkok Project Company Limited Openbox Thailand Vo Trong Nghia Vietnam a21 Studio Vietnam Moh Hack Partner Brunei **The Exposed City** Nadia Amoroso, 2010 Amoroso draws on unseen elements of the city like crime rates and surveillance to create mapping for the twenty first century Including expert interviews and examples of maps exposing the hidden elements of the city The Exposed City shows how the urban invisibles can be made visible **The Making of Grand Paris** Theresa Enright, 2023-09-19 A critical examination of metropolitan planning in Paris the Grand Paris initiative and the building of today's networked global city In 2007 the French government announced the Grand Paris initiative This ambitious project reimagined the Paris region as integrated balanced global sustainable and prosperous Metropolitan solidarity would unite divided populations a new transportation system the Grand Paris Express would connect the affluent city proper with

the low income suburbs streamlined institutions would replace fragmented governance structures Grand Paris is more than a redevelopment plan it is a new paradigm for urbanism In this first English language examination of Grand Paris Theresa Enright offers a critical analysis of the early stages of the project considering whether it can achieve its twin goals of economic competitiveness and equality Enright argues that by orienting the city around growth and marketization Grand Paris reproduces the social and spatial hierarchies it sets out to address For example large expenditures for the Grand Paris Express are made not for the public good but to increase the attractiveness of the region to private investors setting off a real estate boom encouraging gentrification and leaving many residents still unable to get from here to there Enright describes Grand Paris as an example of what she calls grand urbanism large scale planning that relies on infrastructural megaprojects to reconfigure urban regions in pursuit of speculative redevelopment Democracy and equality suffer under processes of grand urbanism Given the logic of commodification on which Grand Paris is based these are likely to suffer as the project moves forward
