The Freemason and Masonic Illustrated. A Weekly Record of Progress in Freemasonry ,1875 **Secret Selves** Stephen Prickett,2021-08-26 Who are we and how do we define our inner selves In his last work Professor Stephen Prickett presents a literary and cultural exploration of our inner selves and how we have created and written about them from the Old Testament to social media What he finds is that although our secret inner sense of self what we feel makes us distinctively us seems a natural and permanent part of being human it is in fact surprisingly new Whilst confessional religious writings from Augustine to Jane Austen or even diaries of 20th century Holocaust victims have explored inwards as part of a path to self discovery our inner space has expanded beyond any possible personal experience This development has enhanced our capacity not merely to write about what we have never seen but even to create fantasies and impossible fictions around them Yet our secret selves can also be a source of terror The fringes of our inner worlds are often porous ill defined and susceptible to frightening forms of external control Mystics and poets from Dante to John Henry Newman or Gerard Manley Hopkins sought God in their secret spaces not least because they feared the abyss beneath From the origin of human consciousness through modern history and into the future Secret Selves uses literature to consider the profound possibilities and ramifications of our evolving ideas of self [H. Sanudo Torsello, The Book of the Secrets of the Faithful of the Cross Peter Lock, 2016-05-06 This is the first full translation of Marino Sanudo Torsello's *Secreta fidelium Crucis* to be made into English. The work itself is a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321, but it includes much of historical relevance along with interesting observations on the early history of Jerusalem and the Crusader Kingdom. The translation is based upon the text edited by Jacques Bongars in 1611. There is an introduction that contextualises the book, its author, his sources, and his audience. The notes provide essential information to clarify internal textual references and allusions, as well as the role of Biblical references in Sanudo's grand design. The index is designed to make this detailed text usable and accessible. In this his major work, Sanudo advocated the conquest of Egypt as the means to regain Jerusalem for the Latins and worked through his points with considerable detail alongside references to 13th-century Mediterranean history, especially involving Louis IX of France and Charles of Anjou, king of Naples. Books I and II give considerable detailed discussion of the concept, plan, and costs of his proposed crusade. Book III provides an outline history of the crusades and the crusader states. It is derived from a wide reading of other sources, especially of William of Tyre, and for events after 1184 on the *Eracles*, the letters of James of Vitry, and Sanudo's own experiences in the east. Throughout the work contains a staggering amount of cartographical, ethnographical, geographical, and nautical information, as well as numerous unique insights into historical events and personalities of the late 13th century, not only in Outremer but in Western Europe. **Literary Gazette and Journal of Belles Lettres, Arts, Sciences, &c**, 1857 [Pilgrim-walks in Rome](#) Peter Joseph Chandlery, 1903 **Continent**, 1910
