Stonehenge the stone figures of Easter Island and the massive stones at Baalbek Lebanon Were they the work of ancient humans or of equally ancient extraterrestrials How Antigravity Built the Pyramids delves into specific stories and theories A 9th century story of a mysterious papyrus with the power to move large stones at the Giza Necropolis The Mayan story of the construction of the Pyramid of the Magician said to be overseen by a small humanoid who could whistle large stones into place Native American stories of ancient priests being able to make stones light to move easily Author Nick Redfern argues it was not literally music and whistling that somehow raised large stones but both have one thing in common sound Acoustics Almost certainly acoustic levitation was at the heart of these incredible feats The truth of the science behind acoustic levitation was lost and forgotten for ages with little more left than fanciful tales of music whistles a curious papyrus and strange metal rods that could achieve incredible feats in the air Today we are finally starting to get a grasp on this incredible technology a technology that may have been the work of ancient humans aliens from faraway worlds or perhaps a combination of the two

Roman Britain's Missing Legion Simon Elliott, 2021-03-15 Examines all the possible fates of the famous IX legion takes you on a fascinating detective journey through all the corners of the Roman Empire History The Interesting Bits Legio IX Hispana had a long and active history later founding York from where it guarded the northern frontiers in Britain But the last evidence for its existence in Britain comes from AD 108 The mystery of their disappearance has inspired debate and imagination for decades The most popular theory immortalized in Rosemary Sutcliffe's novel *The Eagle of the Ninth* is that the legion was sent to fight the Caledonians in Scotland and wiped out there But more recent archaeology including evidence that London was burnt to the ground and dozens of decapitated heads suggests a crisis not on the border but in the heart of the province previously thought to have been peaceful at this time What if IX Hispana took part in a rebellion leading to their punishment disbandment and damnatio memoriae official erasure from the records This proposed Hadrianic War would then be the real context for Hadrian's visit in 122 with a whole legion VI Victrix which replaced the vanished IX as the garrison at York Other theories are that it was lost on the Rhine or Danube or in the East Simon Elliott considers the evidence for these four theories and other possibilities A great and fascinating read a page turner The book offers some interesting and intriguing ideas around the fate of the Ninth
