AVEBURY SERIES IN PHILOSOPHY

Mystery In Western Medicine Avebury Series In Philosophy

Peter Conway

Mystery In Western Medicine Avebury Series In Philosophy:

Mystery in Western Medicine David Greaves, 1996 Medicine in the late 20th century faces a perplexing paradox On the one hand the system of medicine that has been developed over the past two of three hundred years has reached a stage of unprecedented technological success but on the other hand the health care policies of those developed countries from which it has been derived are faltering and under such severe strain as to be facing serious challenges almost everywhere This study develops a critique of western medicine aimed at addressing this issue based on the proposition that any system of medicine must necessarily embody a mysterious quality involving an all encompassing element of indeterminacy and so of uncertainty The role of mystery must be wholeheartedly acknowledged if the current mistakes and problems of western medicine are to be resolved and understood so that more plausible moral and scientific foundations can be established

The Healing Tradition David Greaves, 2018-08-07 The Healing Tradition argues that Western medicine is fundamentally flawed because it fails to provide a healing environment for both individuals and society and indicates potential ways to correct this through an integration model of medical humanities All health professionals and those with an interest in medical humanities will find this book valuable reading Humanity in Healthcare Peter Barritt, 2017-11-22 The impressive progress of medical science over the nineteenth and twentieth centuries has tended to overshadow the art of caring for the patient and their families This book aims to restore the balance by examining practical ways in which the arts can help health professionals to understand the experience of suffering and illness Written by a family physician with 25 years experience Humanity in Healthcare offers a broad perspective on the potential contribution of the arts toward fostering a humane approach to the care of those who are ill or suffering It refers to a wide range of literature from prose and poetry sociology history philosophy politics religion and spirituality This book is an invaluable resource for all medical and healthcare professionals as well as students of the medical humanities **The British National Bibliography** Arthur James

Wells, 1996 *Forthcoming Books* Rose Arny, 1997-12 The Consultation in Phytotherapy E-Book Peter Conway, 2010-09-20 The Consultation in Phytotherapy considers the means by which the herbal practitioner can seek to appreciate the patient's predicament Written for both herbal medicine students and practitioners the book takes a radical approach challenging readers to reflect on the nature scope and methods of the consultation in herbal practice The author asserts that the effective consultation represents a therapeutic act in and of itself and proposes strategies for maximising and realising this therapeutic potential The book provides both a complement to and a critique of mainstream texts on clinical diagnosis and case management It contrasts the herbal consultation with that occurring in conventional medicine and offers rationales arguments and tools aimed at developing an enhanced capacity to achieve profound results in the herbal clinical encounter About the Author Peter Conway is a practising medical herbalist and has been involved in developing and teaching on several BSc and MSc courses in herbal medicine He is the President of the College of Practitioners of Phytotherapy and a

Director of the European Herbal and Traditional medicine Practitioners Association Peter helped draft the National Professional Standards for Herbal Medicine and sat on the Department of Health Steering Group on the Statutory Regulation of Acupuncture and Herbal Medicine Key features Provides a context for understanding and appreciating what is meant by phytotherapy Explores the notion of the therapeutic relationship in herbal practice and how this can practically be facilitated Considers all aspects pertaining to the aims and structure of the herbal consultation including history taking physical examination investigation concluding the consultation and providing ongoing care Examines and integrates a broad range of perspectives including those connected with placebo and the meaning response complexity and chaos theories psychoneuroimmunology evidence and narrative based medicine and phenomenological and traditional medicine approaches
