Ascent To Truth Thomas Merton,1994-11-16 Showing that the summit of ultimate truth is reached in contemplation this book offers an exposition of the doctrines of St John of the Cross The expositions and meditations are nourishment for the spirit journeying towards truth Earthy Mysticism William McNamara,1983 **The Inner Experience** Thomas Merton,William H. Shannon,2012-09-11 Now in paperback revised and redesigned This is Thomas Merton s last book in which he draws on both Eastern and Western traditions to explore the hot topic of contemplation meditation in depth and to show how we can practice true contemplation in everyday life Never before published except as a series of articles one per chapter in an academic journal this book on contemplation was revised by Merton shortly before his untimely death The material bridges Merton s early work on Catholic monasticism mysticism and contemplation with his later writing on Eastern especially Buddhist traditions of meditation and spirituality This book thus provides a comprehensive understanding of contemplation that draws on the best of Western and Eastern traditions Merton was still tinkering with this book when he died it was the book he struggled with most during his career as a writer But now the Merton Legacy Trust and experts have determined that the book makes such a valuable contribution as his major comprehensive presentation of contemplation that they have allowed its publication **The Cloud of Unknowing** (□□□□) Anonymous,2011-10-15 The Cloud of Unknowing is an anonymous work of Christian mysticism written in the latter half of the 14th century The text is a spiritual guide to contemplative prayer Be willing to be blind and give up all longing to know the why and how for knowing will be more of a hindrance than a help This 1912 edition was edited by Evelyn Underhill and contains her introduction Contemplation and Compassion Steven Chase,2003 The Victorine spiritual tradition originating at the Abbey of St Victor in Paris in the twelfth century was one of the most creative exciting and productive traditions of the middle ages The Victorines brought together scholarship mysticism liturgy and aesthetics into a fruitful and comprehensive synthesis In a way that makes them the forerunners of many strands in contemporary thinking they showed how no aspect of life can be compartmentalized or isolated because every aspect of our life and personality is sacred and interconnected Steven Chase s study is the first comprehensive overview of this important spiritual tradition He introduces the key Victorines and their writings including Hugh of St Victor and Richard of St Victor rediscovering a hidden treasure in the history of the Church with great potential

to enrich and energize contemporary spirituality and prayer Book jacket The Awakening Ground David Chaim Smith, 2016-06-16 Author David Chaim Smith offers a guide to the practice of mystical contemplation from the perspective of a highly unusual form of non dual Kabbalah unfettered by both religious mythology and psychological reductionism The path articulates the ultimate quest for meaning which seeks to pass through the clutter of the mind's conceptual associations to nakedly and directly recognize the innate essentiality of all things known as the light of En Sof end or the Infinite Most mainstream conventional schools of Kabbalah hold such a radical aspiration to be inapproachable at best and heretical at worst The work introduces six stages that articulate how the mind breaks through its own restrictive habitual reflexes to awaken to the ground of En Sof which is the mind's essential nature Each stage is illustrated by the author's own original works of art and line diagrams Draws upon obscure sources such as the 13th century Kabbalistic text Fountain of Wisdom various alchemical and gnostic texts and the writings of Isaac the Blind The author reveals how meaning never remains static its nature is to move transmit and display yet its precious potential becomes buried under layers of mental constructs He explains how the mind's habits and reflexes impose structures of containment that try to make sense out of phenomena but these very structures actually obscure their essence completely Smith's experiential path to gnostic awakening reveals how in the wake of the lesser concerns of the conceptual mind primordial purity shines in resonances of vast poetic beauty if a sensibility of wonder awe and delight is cultivated Offering a step by step analysis to the ecstatic aspects of contemplative revelation David Chaim Smith explores how to ride the razor's edge of the paradox to coax the mind from the sleep of habituation towards the culmination of gnosis Although the process is described within the traditional symbol system of kabbalah its import is a truly radical exponent of extreme mysticism The Cloud of Unknowing Anonymous, 1922 Written anonymously The Cloud of Unknowing is a treatise which discusses the human soul and how God interacts with it to form each person's spiritual journey A manual of prayer and God split into seventy five short chapters this book is intended to be read slowly so that the author's comprehension is maximized First written in Middle English during the 15th century the words are archaic but made comprehensible by author Evelyn Underhill who performed edits upon the original text in the early 20th century Unusually for the period this treatise is imbued with plentiful good humor and a gentle tone The author does not seek to preach oppressively or with threats of damnation but instead offers readers a relaxed thoughtful yet devoted manual of faith and advice on living a joyous spiritually mindful life Although the book is old the wisdom and guidance it offers is imbued with timelessness Evelyn Underhill an author who wrote extensively on the subjects of mysticism and spiritual experiences was fascinated by this surviving work of the late Middle Ages It was apparently written as private advice between a pupil and master and was not intended for wide publication Underhill explains her affinity to this text in her introduction identifying it as a prime example of Christian mysticism and noting past examples wherein mystics and spiritualists have influenced Christianity *Thomas Merton's Dark Path* William H. Shannon, 1987-03-01 In the mystical

tradition the dark or apophatic way has a long history It is the way of John of the Cross of Master Eckhart of Juliana of Norwich of the anonymous author of The Cloud of Unknowing and of Thomas Merton This dark path of contemplation that Merton followed wrote about extensively and considered the focal point of his life is the subject of William H Shannon s book
