Mythen Und Mysterien Magie Und Religion:

Mythen und Mysterien Matthias Hermanns, 1983 *Mythen und Mysterien. Magie u. Religion d. Tibeter* Matthias Hermanns (tibetológus), 1956 *Occultism, Witchcraft, and Cultural Fashions* Mircea Eliade, 2012-04-02 In the period dominated by the triumphs of scientific rationalism how do we account for the extraordinary success of such occult movements as astrology or the revival of witchcraft From his perspective as a historian of religions the eminent scholar Mircea Eliade shows that such popular trends develop from archaic roots and periodically resurface in certain myths symbols and rituals In six lucid essays collected for this volume Eliade reveals the profound religious significance that lies at the heart of many contemporary cultural vogues Since all of the essays except the last were originally delivered as lectures their introductory character and lively oral style make them particularly accessible to the intelligent nonspecialist Rather than a popularization *Occultism Witchcraft and Cultural Fashions* is the fulfillment of Eliade's conviction that the history of religions should be read by the widest possible audience **Shamanic Trance and Amnesia** Ina Rösing, Sonam Norboo Spurkhapa, 2006 *Breaking the Circle* Carl B. Becker, 1993 In this much needed examination of Buddhist views of death and the afterlife Carl B. Becker bridges the gap between books on death in the West and books on Buddhism in the East Other Western writers have addressed the mysteries surrounding death and the afterlife but few have approached the topic from a Buddhist perspective Here Becker resolves questions that have troubled scholars since the beginning of Buddhism How can Buddhism reconcile its belief in karma and rebirth with its denial of a permanent soul What is reborn And when exactly is the moment of death By systematically tracing Buddhism's migration from India through China Japan and Tibet Becker demonstrates how culture and environment affect Buddhist religious tradition In addition to discussing historical Buddhism Becker shows how Buddhism resolves controversial current issues as well In the face of modern medicine's trend toward depersonalization traditional Buddhist practices imbue the dying process with respect and dignity At the same time Buddhist tradition offers documented precedents for decision making in cases of suicide and euthanasia **Religionen, Religion und christliche Offenbarung** Kurt Goldammer, 2017-12-18 **Shamanism** Mircea Eliade, 2004-02-08 Surveys the practice of Shamanism over two and a half millennia of human history moving from the Shamanic traditions of Siberia and Central Asia where Shamanism was first observed to North and South America Indonesia Tibet China and beyond Eliade illuminates the magico religious life of societies that give primacy of place to the figure of the Shaman at once magician and medicine man healer and miracle doer priest mystic and poet *Shamanism* Margaret Stutley, 2003 Shamanism is one of the earliest and farthest reaching magical and religious traditions vestiges of which still underlie the major religious faiths of the modern world The function of the shaman is to show his or her people the unseen powers behind the mere appearances of nature as experienced through intuition in trance states or during ecstatic mystical visions Shamans possess healing powers communicate with the dead and the world beyond and influence the weather and movements of hunting animals The

psychological exaltation of shamanism trance states is similar to the ecstasies of Yogis Christian mystics and dervishes
Shamanism An Introduction traces the development of shamanism in its many fascinating global manifestations Looking at shamanic practices from Siberia to China and beyond it provides an accessible guide to one of the world s most ancient notorious and frequently misrepresented spiritual traditions Placing special emphasis on the climate geographic and cultural pressures under which shanic customs arose and continue to be observed Margaret Stutley summarizes and clearly explains the logic of a faith whose fantastical elements hold a special place in popular imagination **Tibet in the Western**

Vertreterinnen und Vertreter der Geschichts Theater Religions und Literaturwissenschaft aber auch Theologen und Kunsthistorikerinnen. Die Beiträge bieten damit ein breites Panorama des Einsatzes von Riten Gesten und Zeremonien als Mittel zur Herstellung und zum Ausdruck sozialer Ordnung. In drei thematischen Blöcken zu Liturgie Recht und Politik fassen Fallstudien Prozesse von Sinnstiftung durch rituelles Handeln und gestisch symbolische Kommunikation. Die Unterschiedlichkeit der Zugriffe führt zugleich exemplarisch die je eigenen Instrumentarien und Erkenntnismöglichkeiten der beteiligten Disziplinen vor.
