Well-Being and Education: Current Indications and Emerging Perspectives Eirini Karakasidou, George Tsitsas, Michael Galanakis, 2024-10-16 School apart from being a place of education and transmission of new knowledge should also be a place of personal development and enhancement of students well being and mental resilience while protecting mental health and preventing teacher burnout The current covid 19 pandemic has made the need for psychological support for students and teachers more urgent than ever The science of positive psychology has offered many tools and methods that are particularly effective in the school environment and in educational contexts in general New tools methods and practices are needed to enhance the well being and psychological resilience of students teachers and parents in a time of challenges such as the current pandemic and inflation that cause stress uncertainty and an increase in psychopathology

Music and Metaphor in Nineteenth-Century British Musicology Bennett Zon, 2017-07-05 In a word I shall endeavour to show how our music having been originally a shell fish with its restrictive skeleton on the outside and no soul within has been developed by the inevitable laws of evolution through natural selection and the survival of the fittest into something human even divine with the strong logical skeleton of its science inside the fair flesh of God given beauty outside and the whole like man himself animated by a celestial eternal spirit W J Henderson *The Story of Music* 1889 Critical writing about music and music history in nineteenth century Britain was permeated with metaphor and analogy Music and Metaphor examines how over arching theories of music history were affected by reference to various figurative linguistic templates adopted from other disciplines such as art religion politics and science Each section of the book discusses a wide range of musicological writings and their correspondence with the language used to convey contemporary ideas such as the sublime the ancient and modern debate and in particular the theory of evolution Bennett Zon reveals that through their application of metaphorical frameworks taken from art religion and science these writers and their work shed light on nineteenth century perceptions of music history and illuminate the ways in which these disciplines affected notions of musical development

The International Cyclopedia of Music and Musicians Oscar Thompson, 1975 **The Regulation and Reform of Music Criticism in Nineteenth-Century England** Paul Watt, 2017-11-22 Music criticism in England underwent profound change from the 1880s to the 1920s It gave rise to New criticism that aimed to be rational impartial and intellectually authoritative It was a break from the criticism of old the work of the opinionated journalist who wrote descriptive concert reviews with invective cliché bias and bombast Critics such as Ernest Newman 1868 1959 John F Runciman 1866 1916 and Michel D Calvocoressi 1877 1944 fostered this new school

and wrote extensively of their aspirations for musical criticism in their own times and for the future This book charts the genesis of this new wave of musical criticism that sought to regulate and reform the profession of music critic Alongside the establishment of principles training manuals and schools for critics hundreds of journal articles and dozens of books were written that encouraged new criticism which also had a bearing on scholarly writing in biography aesthetics and history The Regulation and Reform of Music Criticism in Nineteenth Century England considers the influence and advocacy of individual critics and the role that institutions such as the Musical Association and the Musical Times played in this period of change The book also explores the impact that French and German writers had on their English counterparts demonstrating the internationalization of critical thought of the period
